Michael J. Klarman

Shays Rebellion The American Revolution's Final Battle:

Shays's Rebellion Leonard L. Richards, 2014-11-29 During the bitter winter of 1786-87 Daniel Shays a modest farmer and Revolutionary War veteran and his compatriot Luke Day led an unsuccessful armed rebellion against the state of Massachusetts Their desperate struggle was fueled by the injustice of a regressive tax system and a conservative state government that seemed no better than British colonial rule But despite the immediate failure of this local call to arms in the Massachusetts countryside the event fundamentally altered the course of American history Shays and his army of four thousand rebels so shocked the young nation's governing elite even drawing the retired General George Washington back into the service of his country that ultimately the Articles of Confederation were discarded in favor of a new constitution the very document that has guided the nation for more than two hundred years and brought closure to the American Revolution The importance of Shays's Rebellion has never been fully appreciated chiefly because Shays and his followers have always been viewed as a small group of poor farmers and debtors protesting local civil authority In *Shays's Rebellion The American Revolution's Final Battle* Leonard Richards reveals that this perception is misleading that the rebellion was much more widespread than previously thought and that the participants and their supporters actually represented whole communities the wealthy and the poor the influential and the weak even members of some of the best Massachusetts families Through careful examination of contemporary records including a long neglected but invaluable list of the participants Richards provides a clear picture of the insurgency capturing the spirit of the rebellion the reasons for the revolt and its long term impact on the participants the state of Massachusetts and the nation as a whole Shays's Rebellion though seemingly a local affair was the revolution that gave rise to modern American democracy [The Reign of Terror in America](#) Rachel Hope Cleves, 2009-04-06 In this book Cleves argues that American fears of the violence of the French Revolution led to antislavery antiwar and public education movements *Revolutionary America, 1763-1815* Francis D. Cogliano, 2016-12-01 *Revolutionary America* explains the crucial events in the history of the United States between 1763 and 1815 when settlers of North America rebelled against British rule won their independence in a long and bloody struggle and created an enduring republic Centering the narrative on the politics of the new republic *Revolutionary America* presents a clear history of the War of Independence and lays a distinctive foundation for students and scholars of the early American republic Author Francis D Cogliano pays particular attention to the experiences of those who were excluded from the immediate benefits and rights secured by the creation of the republic including women Native Americans and African Americans This third edition has been fully revised and updated to incorporate the insights of the latest scholarship throughout including additional discussion of regional differences and the role of religion New chapters cover the War of 1812 the Revolution as a social movement and the experience of Loyalists allowing students to grasp further dimensions of the conflict and the emergence of the United States *Encyclopedia of U.S. Political History* Andrew Whitmore Robertson, 2010 Annotation st1 behavior url ieooui

Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader s guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

Encyclopedia of U.S. Political History Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01

Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time

periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader's guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence

VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system

VOLUME 3 Expansion Division and Reconstruction 1841 1877 Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877

VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era

VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt's presidency the Supreme Court's conservative traditions and a new judicial outlook

VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting

Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered **The Framers' Coup** Michael J. Klarman, 2016 Flaws in the Articles of Confederation Economic turmoil in the states and the road to Philadelphia The Constitutional Convention Slavery and the Constitutional Constitution Critics of the Constitution the Antifederalists The ratifying contest The Bill of Rights Conclusion **Whose American Revolution was It?** Alfred F. Young, Gregory Nobles, 2011-09 The meaning of the American Revolution has always been a much contested question and asking it is particularly important today the standard easily digested narrative puts the Founding Fathers at the head of a unified movement failing to acknowledge the deep divisions in Revolutionary era society and the many different historical interpretations that have followed Whose American Revolution Was It speaks both to the ways diverse groups of Americans who lived through the Revolution might have answered that question and to the different ways historians through the decades have interpreted the Revolution for our own time As the only volume to offer an accessible and sweeping discussion of the period s historiography and its historians Whose American Revolution Was It is an essential reference for anyone studying early American history The first section by Alfred F Young begins in 1925 with historian J Franklin Jameson and takes the reader through the successive schools of interpretation up to the 1990s The second section by Gregory H Nobles focuses primarily on the ways present day historians have expanded our understanding of the broader social history of the Revolution bringing onto the stage farmers and artisans who made up the majority of white men as well as African Americans Native Americans and women of all social classes **The United States of Belgium** Jane Judge, 2018-10-24 New and comprehensive insights into the seminal events that shaped Belgian identity In 1790 between the birth of America 1776 and the creation of the French National Assembly 1789 nine provinces nestled between the French and Dutch borders declared themselves a new free and independent country the United States of Belgium Before then the provinces had been part of the vast Austrian Habsburg Empire ruled by Joseph II In 1789 revolutionaries from Brussels to Ghent to Namur recruited a grass roots army that to the surprise of many successfully chased imperial forces from the majority of the territories The exhilaration of military triumph and political independence quickly faded as revolutionary factions fought each other and the

European monarchies became more nervous in the face of French radicalization Yet the course of events had fostered the solidification of a new identity among the provinces inhabitants Belgianness This is the story of the emergence of Belgianness in the crucible of revolution The United States of Belgium tells the story of the First Belgian Revolution before the creation of a language barrier between French and Dutch It incorporates over 50 contemporary images of the revolutionary era

American Military History Janet G. Valentine, 2016-05-23 This book offers a chronology subheadings and terms to provide the reader a pedagogical framework for understanding the central themes and events in the American military experience and their relation to American history It serves as a foundation for undergraduate courses in military history

Face Value Michael O'Malley, 2012-06-11 In Face Value Michael O Malley provides a deep history and a penetrating analysis of American thinking about money and the ways that this ambivalence unexpectedly intertwines with race Like race money is bound up in questions of identity and worth each a kind of shorthand for the different values of two similar things O Malley illuminates how these two socially constructed hierarchies are deeply rooted in American anxieties about authenticity and difference

Foreign Affairs and the Founding Fathers Norman A. Graebner, Richard Dean Burns, Joseph M. Siracusa, 2011-11-01 This concise diplomatic history of the Confederation era is the first new work on the topic in a generation In its pages three distinguished diplomatic historians offer a realist interpretation of the way in which the Founding Fathers conducted foreign affairs refreshing our collective memory about their priorities and their values When three of the nation s leading historians come together to fashion a fresh study of American history the resulting work cannot help but be a monumental addition to the field Foreign Affairs and the Founding Fathers From Confederation to Constitution 1776 1787 is such a work These eminent scholars provide a thoughtful realist interpretation of the Founders view of America s place in the world delivering a timely reassessment of their aspirations thoughts and actions during the seminal decades of the American nation This book takes readers backstage where they can eavesdrop on the Founders to better understand their motives and intentions and see how they responded to threats and problems associated with America s place in the world Arguing that the Founding Fathers essentially thought and acted in terms of power ranking matters of national interest and security over ideology and moral concerns the book sheds new light on the foreign policy opportunities and challenges of the day as the Founders weighed and determined them In so doing it offers important guideposts for our own time

George Washington Versus the Continental Army Michael S. McGurty, 2023-10-24 The Revolutionary War was nearing its end in early 1783 In his Hudson Highlands stronghold General Washington kept a wary eye on the British force in New York City 60 miles away His army owed months of back pay and his officers frustrated by the negotiations over their promised pension chafed under martial authority A nationalist faction in Congress seized upon this discontent to instigate the Newburgh Conspiracy a plot by Continental Army officers to menace civil officials who opposed the Impost a 5% tax on imports to be collected by the central government to satisfy the nation s debts The army by this time a formidable force of

seasoned veterans was provoked into threatening the very liberties it had fought to defend This book examines this last major crisis of the Revolution when Washington stood between his men and the American people **The Nation's Nature** James D. Drake, 2011-08-05 In one of Common Sense's most ringing phrases Thomas Paine declared it absurd for a continent to be perpetually governed by an island Such powerful words coupled with powerful ideas helped spur the United States to independence In *The Nation's Nature* James D. Drake examines how a relatively small number of inhabitants of the Americas huddled along North America's east coast came to mentally appropriate the entire continent and to think of their nation as America Drake demonstrates how British North American colonists' participation in scientific debates and imperial contests shaped their notions of global geography These ideas in turn solidified American nationalism spurred a revolution and shaped the ratification of the Constitution Winner of the Walker Cowen Memorial Prize for an outstanding work of scholarship in eighteenth century studies **The History of Social Movements in Global Perspective** Stefan Berger, Holger Nehring, 2017-01-12 Social movements have shaped and are shaping modern societies around the globe this is evident when we look at examples such as the Arab Spring Spain's Indignados and the wider Occupy movement In this volume experts analyse the classic and new social movements from a uniquely global perspective and offer insights in current theoretical discussions on social mobilisation Chapters are devoted both to the study of continental developments of social movements going back to the nineteenth century and ranging to the present day and to an emphasis on the transnational dimension of these movements Interdisciplinary and truly international this book is an essential text on social movements for historians political scientists sociologists philosophers and social scientists **Encyclopedia of American Recessions and Depressions** Daniel Leab, 2014-01-15 A riveting look at the financial cycles in American economic history from colonial times to the present day with an eye on the similarities and differences between past and present conditions as analyzed by leading economic historians The United States has emerged from the financial chaos of its last economic crisis yet still very few sources place the events of the modern era within the context of financial downturns of the past An examination of the trends and patterns of previous depressions and recessions may allow us to recognize and avoid the behaviors and practices that prolonged the fiscal problems of previous generations This thought provoking encyclopedia presents an overview of notable economic events their causes and cures and their social and political impact on the nation *Encyclopedia of American Recessions and Depressions* offers a comprehensive survey on the topic from the years 1783 to 1789 under the Articles of Confederation through the panics of the 19th century and the Great Depression of the 1930s to the Great Recession of 2008 Written in an accessible engaging style the volumes contain 14 detailed essays covering each economic event and 140 entries covering various related individuals issues court cases legislation and significant events Primary source documents including the Specie Circular the Embargo Act and the National Labor Relations Act provide relevancy to the real world and a context for key events *An Introduction to the Policy Process* Thomas A. Birkland, 2014-12-18 Thoroughly revised reorganized

updated and expanded this widely used text sets the balance and fills the gap between theory and practice in public policy studies In a clear conversational style the author conveys the best current thinking on the policy process with an emphasis on accessibility and synthesis rather than novelty or abstraction A newly added chapter surveys the social economic and demographic trends that are transforming the policy environment **Revolutionary Founders** Alfred Fabian Young, Alfred F. Young, Gary B. Nash, Ray Raphael, 2011 Explores the founding fathers more radical contemporaries who advocated for true liberty for all at the United States inception including the abolition of slavery and equality despite race class or gender

His Excellency Joseph J. Ellis, 2004-10-26 National Bestseller To this landmark biography of our first president Joseph J. Ellis brings the exacting scholarship shrewd analysis and lyric prose that have made him one of the premier historians of the Revolutionary era Training his lens on a figure who sometimes seems as remote as his effigy on Mount Rushmore Ellis assesses George Washington as a military and political leader and a man whose statue like solidity concealed volcanic energies and emotions Here is the impetuous young officer whose miraculous survival in combat half convinced him that he could not be killed Here is the free spending landowner whose debts to English merchants instilled him with a prickly resentment of imperial power We see the general who lost more battles than he won and the reluctant president who tried to float above the partisan feuding of his cabinet His Excellency is a magnificent work indispensable to an understanding not only of its subject but also of the nation he brought into being The Founders' Fortunes Willard Sterne Randall, 2025-01-14 An illuminating financial history of the Founding Fathers revealing how their personal finances shaped the Constitution and the new nation In 1776 upon the signing of the Declaration of Independence the Founding Fathers concluded America's most consequential document with a curious note pledging our lives our fortunes and our sacred honor Lives and honor did indeed hang in the balance yet just what were their fortunes How much did the Founders stand to gain or lose through independence And what lingering consequences did their respective financial stakes have on liberty justice and the fate of the fledgling United States of America In this landmark account historian Willard Sterne Randall investigates the private financial affairs of the Founders illuminating like never before how and why the Revolution came about The Founders' Fortunes uncovers how these leaders waged war crafted a constitution and forged a new nation influenced in part by their own financial interests In an era where these very issues have become daily national questions the result is a remarkable and insightful new understanding of our nation's bedrock values **Unruly Americans and the Origins of the Constitution** Woody Holton, 2007-10-02 Examines the original intent behind the writing of the Constitution and how it was shaped by the reactions occasionally violent ones of citizens to include a protection of civil liberties and the freedom of the people

When somebody should go to the book stores, search commencement by shop, shelf by shelf, it is essentially problematic. This is why we offer the books compilations in this website. It will certainly ease you to see guide **Shays Rebellion The American Revolutions Final Battle** as you such as.
