How to Win the War Against Yourself Today Adam Spitler,2025-08-01 Insanity best describes the year 2025 This presents a new challenge of preserving our own sanity This is an inside job This book was designed to help get on track and refine yourself in a positive way People are driven by fear and desperation which cannot end well We can empower ourselves for resilience and wellbeing This will create a forcefield of protection and all around security This book offers another view and pathway through the simple but complex realm of how your mind can keep you well A process made simple allowing for the ability to watch and observe emotions and thoughts The thought processing is a subconscious program dialed in and locked tight I'm suggesting a quick release from thoughts that can drag you down and keep you down The book explains how the past is altered enroute to the now and

forwarded to the future The author calls this the PPF loop He explains how this is the motion of time as most of us know it Real time is immovable and cannot be budged This is how and why we live within the program of the past which constantly gets forwarded to the future perpetually replicating what we do not want With guilt we suggest sin rather than seeing it as ego beating us down and keeping us stuck The book clears up the spring and breaks things down into a simple understanding of why we think the way we do Looking at the modern world and the chaos within it can lead to fear and panic How we interpret and perceive this will affect how we react and how it ends Meditation cannot be achieved when too many people are telling you how to do it That s authoritarian Meditation is about freedom It s a process of stopping time and holding a thought or no thought To change time by realizing you can stop the movement from the past through the present into your future This transforms time into eternity The book looks at the chemistry of the brain and how it all ties together Wave energy which everything emits including light and smell which is translated into vibrations released and received by fellow humans and animals This relates to attraction success and well being The book helps to understand self sabotage Instinct and behavior Habit reversal dopamine and motivation personal dialog with yourself refining thoughts and how to shut things down as a means of self preservation Sugar and depression Nutrition and depression Addictions and destructions and how to wipe them out The dangers of boredom and the need for excitement laughter and play
