Roger Grant,2023-06-20 Discover the Sunset Cluster railroads that were doomed to fail The first two decades of the 20th century were the twilight of the Railroad Age Major routes had long been established and local service became the focus of new construction Beginning in 1907 a cluster of five shortline railroads were established in otherwise unconnected parts of Iowa They however would short lived The five Iowa sunset cluster railroads might appear to deserve eternal obscurity being at best minor footnotes to American railroad history After all their total mileage barely exceeded 100 miles Their average life span moreover covered about five years and the Des Moines Red Oak Railway DM RO never turned a wheel Yet these Iowa shortlines had an immediate positive impact to their service area but disappointingly they became victims of modal competition and the Good Roads Movement Using contemporary newspapers government reports and other little known sources renowned railway historian H Roger Grant offers a fascinating look at these shortline railroads Sunset Cluster explores the almost desperate desire by communities to benefit from steel rails before the regional railroad map finally imploded and the challenges faced by latter day shortline builders **History of Utah: 1861-1877** Orson Ferguson Whitney,1893 **Railway Age** ,1928 **Panama City Beach** Jan Smith,2005-01-01 Considered one of the world s most

beautiful beaches for its sugar white sand and emerald blue green waters Panama City Beach has until recently remained one of Florida's undiscovered treasures First documented by Spanish explorers in the 1500s and later by the English the region remained unsettled because of its inaccessibility and marauding renegade inhabitants At a time when property was valued according to the crops it could grow the beach was dismissed as a no man's land unsuitable for habitation The early 1930s and the Hathaway Bridge connecting Panama City Beach to the mainland marked its discovery and the beginning of area tourism **Rock Island Employees' Magazine**, 1926 **Silent Knight Twilight Knight A Dr. Trevor Knight**

Ray L Wilbur envisioned a model of city planning giving birth to Boulder City Wilbur intended for the city to be temporary to disappear once the dam was complete but it didn't work out that way Local author Paul W Papa offers a unique look at a town that may have been forged by a dam but took on a life of its own **Rocky Mountain Divide** John Burghardt Wright, 1993-01-01 The opposing forces of conservation and development have shaped and will continue to shape the natural environment and scenic beauty of the American West Perhaps nowhere are their opposite effects more visible than in the neighboring states of Colorado and Utah so alike in their spectacular mountain environments yet so different in their approaches to land conservation This study explores why Colorado has over twenty five land trusts while Utah has only one John Wright traces the success of voluntary land conservation in Colorado to the state's history as a region of secular commerce As environmental consciousness has grown in Colorado people there have embraced the businesslike approach of land trusts as simply a new more responsible way of conducting the real estate business In Utah by contrast Wright finds that Mormon millennialism and the belief that growth equals success have created a public climate opposed to the formation of land trusts As Wright puts it environmentalism seems to thrive in the Centennial state within the spiritual vacuum which is filled by Mormonism in Utah These findings remind conservationists of the power of underlying cultural values that affect their efforts to preserve private lands *New Mexico's Railroads* David F.
