The Schooling of Working-Class Girls in Victorian Scotland Jane McDermid, 2013-01-11 The portrayal of Scotland as a particularly patriarchal society has traditionally had the effect of marginalizing Scottish women both teachers and students in both Scottish and British history The Schooling of Working Class Girls in Victorian Scotland examines and challenges this assumption and analyzes in detail the course of events which has led to a more enlightened system Education was and is seen as integral to Scottish distinctiveness but the Victorian period saw anxious debate about the impact of outside influences at a time when Scottish society seemed to be fracturing This book examines the gender blindness of the educational tradition with its notion of the democratic intellect testing the claim of superiority for the Scottish system and questioning the assumption that Scottish women were either passive victims or willing dupes of a peculiarly patriarchal ideal Considering the influences of the related ideologies of patriarchy and domesticity and the crucial importance of the local and regional

economic context in focusing on female education this book provides a much wider comparative study of Scottish society during a period of tremendous upheaval and a perceived crisis in national identity in which women as well as men participated

Family Psychology William M. Pinsof, Jay L. Lebow, 2005-09 Family Psychology The Art of the Science moves the field of family psychology toward greater scientific sophistication and excellence by bringing together some of the best researchers in family psychology and giving them the opportunity to reflect together on the state of their research This book is composed of five developmentally informed mini books or manuals on major areas of great social and health relevance marriage depression divorce and remarriage partner violence and families and physical health Each manual critically examines the existing research in its area systematically illuminating new directions for future research and discussing a wide range of relevant issues and diverse populations Family Psychology provides the next generation of theorists researchers and therapists with an in depth and fresh look at the paths that have already been traveled as well as the paths that remain to be explored Family Psychology is an indispensable companion for scientists and practitioners interested in a road map for family psychology The reflections of the top researchers in each area will sharpen the research knowledge and expertise of scientists and practitioners in these and related areas For younger and more experienced researchers as well as for those contemplating entering the field the authors point to pathways and strategies for unraveling the key challenges in each area offering well researched and compelling insights to guide future investigation

Handbook of Crime Correlates Lee Ellis, Kevin M. Beaver, John Wright, 2009-05-07 Over the past two centuries many aspects of criminal behavior have been investigated Finding this information and making sense of it all is difficult when many studies would appear to offer contradictory findings The Handbook of Crime Correlates collects in one source the summary analysis of crime research worldwide It provides over 400 tables that divide crime research into nine broad categories Pervasiveness and intra offending relationships Demographic factors Ecological and macroeconomic factors Family and peer factors Institutional factors Behavioral and personality factors Cognitive factors Biological factors Crime victimization and fear of crime Within these broad categories tables identify regions of the world and how separate variables are or are not positively or negatively associated with criminal behavior Criminal behavior is broken down into separate offending categories of violent crime property crime drug offenses sex offenses delinquency general and adult offenses and recidivism Accompanying each table is a description of what each table indicates in terms of the positive

or negative association of specific variables with specific types of crime by region This book should serve as a valuable resource for criminal justice personnel and academics in the social and life sciences interested in criminal behavior
