Poetics Of Appropriation Literary:

The Poetics of Appropriation David Palumbo-Liu, 1993-09-01 The poets of the Northern Song dynasty 960 1126 were writing after what was then and still is acknowledged to be the Golden Age of Chinese poetry the Tang dynasty 618 907 This study examines how these Song poets responded to their uncomfortable proximity to such impressive predecessors and reveals how their response shaped their literary art The author's focus is on the poetic theory and practice of the poet Huang Tingjian 1045 1105 This first full length study in English of one of the most difficult and complex poets of the classical Chinese tradition aims to provide the background for understanding better why Huang was so greatly admired especially by the outstanding literati of his age and why later scholars claim Huang is the characteristic Northern Song poet The author concludes by considering how Huang's literary project resembles but ultimately differs from Western literary theories of influence and intertextuality

Marina Tsvetaeva Michael Makin, 1993 Tsvetaeva's work has an originality and diversity that has been hitherto neglected by critics Michael Makin's book examines in depth her entire poetic output paying particular attention to the appropriation and frequent distortion of familiar literary material in her lyrical dramatic and narrative verse Major chapters are devoted to the long narrative poems the mature lyric verse and the verse plays on which very little has so far been written

Poetry and the Creation of a Whig Literary Culture 1681-1714 Abigail Williams, 2005-03-24 Poetry and the Creation of a Whig Literary Culture offers a new perspective on early eighteenth century poetry and literary culture arguing that long neglected Whig poets such as Joseph Addison John Dennis Thomas Tickell and Richard Blackmore were more popular and successful in their own time than they have been since These and other Whig writers produced elevated poetry celebrating the political and military achievements of William III's Britain and were committed to an ambitious project to create a distinctively Whiggish English literary culture after the Revolution of 1688 Far from being the penniless hacks and dunces satirized by John Dryden and the Scriblerians they were supported by the patronage of the wealthy Whig aristocracy and their works promoted as a new English literature to rival that of classical Greece and Rome Poetry and the Creation of a Whig Literary Culture maps for the first time the evolution of an alternative early eighteenth century poetic tradition which is central to our understanding of the literary history of the period
