Reclaiming Morality In America:

Reclaiming Morality in America William P. Murchison, 1994 Murchison argues that a religious reawakening is needed to cure such problems as drug abuse violent crime and domestic violence *My Concerns for America* Herbert W. Byrne, 2008-10 Since 1960 vast changes have taken place in our country During that period cultural changes were numerous some good and some bad This work refers to changes that give cause for grave concern including increase in crime child abuse abortion and disturbing developments in government all described and suggested solutions for them made Herbert W Byrne Ed D has worked in Christian ministry for over forty years serving as Pastor Evangelist classroom teacher and Sunday School lecturer in over thirty different denominations in the United States and Canada He is the author of more than twelve books in the field of Christian Education **Get Off My Honor!** Hans Zeiger, 2005 A Boy Scout defends the honor of the stalwart organization from the cultural onslaught threatening it **Why Conservatives Tell Stories and Liberals Don't** David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford *Politicians and Other Moral Amateurs* William Murchison, 2016-04 William Murchison comments on Washington politicians public figures and other topics from a Main Street USA viewpoint He is a nationally syndicated opinion columnist for Creators Syndicate This is a collection of the very best of William Murchison from 2014 *Imagining America at War* Cynthia Weber, 2020-07-24 Ten films released between 9 11 and Gulf War II reflect raging debates about US foreign policy and what it means to be an American Tracing the portrayal of America in the films Pearl Harbor World War II We Were Soldiers and The Quiet American the Vietnam War Behind Enemy Lines Black Hawk Down and Kandahar episodes of humanitarian intervention Collateral Damage and In the Bedroom vengeance in response to loss Minority Report futurist pre emptive justice and Fahrenheit 9 11 an explicit critique of Bush s entire war on terror Cynthia Weber presents a stimulating new study of how Americans construct their identity and the moral values that inform their foreign policy This is not just another book about post 9 11 America It introduces the concept of moral grammars of war and explains how they are articulated Many Americans asked in the wake of 9 11 not only why do they hate us but what does it mean to be a moral America n and how might such an America n act morally in contemporary

international politics This text explores how these questions were answered at the intersections of official US foreign policy and post 9 11 popular films It also details US foreign policy formation in relation to traditional US narratives about US identity who we think we were are who we wish we d never been who we really are and who we might become as well as in relation to their foundations in nationalist discourses of gender and sexuality This book will be of great interest to students of American Studies US Foreign Policy Contemporary US History Cultural Studies Gender and Sexuality Studies and Film Studies

America's Education Deficit and the War on Youth Henry A. Giroux, 2013-04 America s latest war according to renowned social critic Henry Giroux is a war on youth While this may seem counterintuitive in our youth obsessed culture Giroux lays bare the grim reality of how our educational social and economic institutions continually fail young people Their systemic failure is the result of what Giroux identifies as four fundamentalisms market deregulation patriotic and religious fervor the instrumentalization of education and the militarization of society We see the consequences most plainly in the decaying education system schools are increasingly designed to churn out drone like future employees imbued with authoritarian values inured to violence and destined to serve the market And those are the lucky ones Young people who don t conform to cultural and economic discipline are left to navigate the neoliberal landscape on their own if they are black or brown they are likely to become ensnared by a harsh penal system Giroux sets his sights on the war on youth and takes it apart examining how a lack of access to quality education unemployment the repression of dissent a culture of violence and the discipline of the market work together to shape the dismal experiences of so many young people He urges critical educators to unite with students and workers in rebellion to form a new pedagogy and to build a new democratic society from the ground up Here is a book you won t soon forget and a call that grows more urgent by the day
