**Bordering** Anders Linde-Laursen, 2016-04-15 What is a border This seemingly simple question is here answered via a multidisciplinary study of the cultural geographic and historic existence of borders and the ways that they have shaped our world Using the Danish Swedish border to illustrate the actions of groups and individuals engaged in bordering since the 1600s this richly theoretical discussion highlights the complexities of political and cultural identity processes Comparative perspectives are brought together to produce a thoughtful analysis of how such processes function and of how borders work on both an imagined nationhood and experiential personal level The author also examines how throughout history people have lived with and influenced or been influenced by borders why some borders remain uncontested while others repeatedly provoke cross border conflicts and how today's bordering processes may be deliberately manipulated

**Body, Sport and Society in Norden** Niels Kayser Nielsen, 2005-12-31 This book comprises a number of cultural historical and ethnographic studies of the history of sport in the Nordic countries The studies examine the contribution made by sport to the development of Scandinavian nationalism in the nineteenth century and analyze the ways in which sport became interwoven with the social life of citizens in the various Scandinavian countries in the twentieth century The main focus of this volume therefore is not on the organizational history of sport nor is it on society vis a vis sport i e sport as a reflection of a certain societal constellation Rather what is of interest is sport in society and therefore the book aims to illustrate the ways in which sport has been used and has served to help explain and understand Scandinavian society types

**A Narrative Approach to Organization Studies** Barbara Czarniawska-Joerges, 1998 From setting up the fieldwork to writing up the research this volume takes readers through the narrative approach to qualitative research with a focus on organization studies Inspired by the work of Bakhtin Eco Rorty and Silverman the author demonstrates that narratives are still the main carriers of knowledge in all societies

Gunnar Asplund's Gothenburg Nicholas Adams, 2014-10-08 In the west coast port city of Gothenburg Sweden the architect Gunnar Asplund built a modest extension to an old courthouse on the main square 1934-36 Judged today to be one of the finest works of modern architecture the courthouse extension was immediately the object of a negative newspaper campaign led by one of the most noted editors of the day Torgny Segerstedt Famous for his determined opposition to National Socialism he also took a principled stand against the undermining of urban tradition in Gothenburg Gothenburg's problems with modern public architecture though clamorous and publicized throughout Sweden were by no means unique In Gunnar Asplund's Gothenburg Nicholas Adams places Asplund's building in the wider context of public architecture between the wars setting the originality and sensitivity

of Asplund's conception against the political and architectural struggles of the 1930s Today looking at the building in the broadest of contexts we can appreciate the richness of this exquisite work of architecture This book recaptures the complex magic of its creation and the fascinating controversy of its completed form *Spaces of Danger* Heather Merrill, Lisa M. Hoffman, 2015-12-01 These twelve original essays by geographers and anthropologists offer a deep critical understanding of Allan Pred's pathbreaking and eclectic cultural Marxist approach with a focus on his concept of situated ignorance the production and reproduction of power and inequality by regimes of truth through strategically deployed misinformation diversions and silences As the essays expose the cultural and material circumstances in which situated ignorance persists they also add a previously underexplored spatial dimension to Walter Benjamin's idea of moments of danger The volume invokes the aftermath of the July 2011 attacks by far right activist Anders Breivik in Norway who ambushed a Labor Party youth gathering and bombed a government building killing and injuring many Breivik had publicly and forthrightly declared war against an array of liberal attitudes he saw threatening Western civilization However as politicians and journalists interpreted these events for mass consumption a narrative quickly emerged that painted Breivik as a lone madman and steered the discourse away from analysis of the resurgent right wing racisms and nationalisms in which he was immersed The Breivik case is merely one of the most visible recent examples say editors Heather Merrill and Lisa Hoffman of the unchallenged production of knowledge in the public sphere In essays that range widely in topic and setting for example brownfield development in China a Holocaust memorial in Germany an art gallery exhibit in South Africa this volume peels back layers of situated practices and their associated meaning and power relations *Spaces of Danger* offers analytical and conceptual tools of a Predian approach to interrogate the taken for granted and make visible and legible that which is silenced
