The Legal Recognition of Animal

Sentience Jane Kotzmann,M B Rodriguez Ferrere,2024-05-30 This book explores the movement towards the recognition of animal sentience in the law It explores some first principles underpinning the recognition of animal sentience including the nature and scope of sentience provisions the connection between sentience and empathy drafting issues and the relationship between sentience recognition and animal rights The book highlights the operation of animal sentience provisions in several jurisdictions throughout the world and considers some sector specific applications and limitations of animal sentience recognition The first book of its kind it draws together different perspectives as to what this novel turn in the law might mean and where it might lead The chapters provide a full picture of what the recognition of animal sentience might entail for humans animals and our environment as well as the experiences of different legal jurisdictions in pursuing recognition of animal sentience This collection is an essential read for both practitioners and academics alike as well as any group seeking to advance the interests of non human animals

[An Introduction to Animals and the Law](#) Joan E. Schaffner,2010-11-02 This exploration of the newly emerging diverse and controversial area of animal law presents a basic survey of the laws designed

to protect animals analyzing and critiquing them and proposing a future where the legal regime properly recognizes and protects the inherent worth of all animals

The Oxford Handbook of Animal Ethics Tom L. Beauchamp, (1941-2012) R.G. Frey, 2011-03-01 Humans encounter and use animals in a stunning number of ways The nature of these animals and the justifiability or unjustifiability of human uses of them are the subject matter of this volume Philosophers have long been intrigued by animal minds and vegetarianism but only around the last quarter of the twentieth century did a significant philosophical literature begin to be developed on both the scientific study of animals and the ethics of human uses of animals This literature had a primary focus on discussion of animal psychology the moral status of animals the nature and significance of species and a number of practical problems This Oxford Handbook is designed to capture the nature of the questions as they stand today and to propose solutions to many of the major problems Several chapters in this volume explore matters that have never previously been examined by philosophers The authors of the thirty five chapters come from a diverse set of philosophical interests in the History of Philosophy the Philosophy of Mind the Philosophy of Biology the Philosophy of Cognitive Science the Philosophy of Language Ethical Theory and Practical Ethics They explore many theoretical issues about animal minds and an array of practical concerns about animal products farm animals hunting circuses zoos the entertainment industry safety testing on animals the status and moral significance of species environmental ethics the nature and significance of the minds of animals and so on They also investigate what the future may be expected to bring in the way of new scientific developments and new moral problems This book of original essays is the most comprehensive single volume ever published on animal minds and the ethics of our use of animals

Animals as Persons

Gary L. Francione, 2008-06-17 A prominent and respected philosopher of animal rights law and ethical theory Gary L. Francione is known for his criticism of animal welfare laws and regulations his abolitionist theory of animal rights and his promotion of veganism and nonviolence as the baseline principles of the abolitionist movement In this collection Francione advances the most radical theory of animal rights to date Unlike Peter Singer Francione maintains that we cannot morally justify using animals under any circumstances and unlike Tom Regan Francione's theory applies to all sentient beings not only to those who have more sophisticated cognitive abilities

Research Handbook on Animal Law and Animal Rights

Tomasz Pietrzykowski, Birgitta Wahlberg, 2025-09-10 This Research Handbook examines contemporary animal law and its relationship to the philosophical and legal idea of animal rights Adopting an inter and multidisciplinary approach it explores the role of legal theory legal practice strategic litigation and advocacy in the global development of laws protecting animals Tomasz Pietrzykowski and Birgitta Wahlberg bring together expert contributing authors to discuss interspecies constitutionalizing and the evolution of animal law scholarship

Animal Law Worldwide Federico Dalpane, Maria Baideldinova, 2024-11-18 This book offers a unique panoramic survey of the state of animal law in twenty six countries and in the legal system of the European Union The authors give a brief introduction to each jurisdiction examine key issues and

formulate recommendations The contributions provide ample opportunities for legal comparative studies touching on constitutional law criminal law civil law environmental law and administrative law and discuss the crucial role of NGOs and civil society in raising awareness for the plight of animals The contributions show the mature stage reached by the discipline of animal law which is gaining attention in wider circles The book discusses wildlife agricultural animals experimental animals service animals stray animals and others One of the topics is the constitutionalisation of animal welfare with a growing number of countries amending their constitutions to include the protection of animals or considering such amendments Other topics include the trend of moving away from the age old legal classification of animals as mere things and the persistent weaknesses in the implementation of legal provisions for the protection of animals This book will be of keen interest to the worldwide animal law community legal comparatists legal theorists policy makers judges law enforcement officials as well as veterinary doctors Federico Dalpane is an assistant professor at KIMEP University College of Social Sciences Maria Baideldinova is an assistant professor at KIMEP University School of Law

The Principle of Harmony with Nature as a Legal Foundation Raquel Domingues do Amaral, 2025-10-15 This book offers a proposal for the theoretical basis for the normative character of harmony with nature in the statement of UN Resolution 64 196 which recognizes an immanent principle of the natural laws that govern the biosphere This principle has been reproduced in human language through ethical narratives rooted in the ancient cultures of both Western and Eastern peoples particularly in the ways of living of indigenous peoples The work aims to propose the ethical narrative of harmony with nature as a pre legal and indisputable principle which urgently needs to be recognized to ensure the flourishing of life on Earth including human life It also proposes the hypothesis of recognizing the normativity of harmony with nature as a general principle of law in the international environmental field as covered by Article 38 of the International Court's statute Considering the long history of nature's rights from ancient times to the Rio Declaration on Environment and Development harmony with nature was established in Principle 1 culminating in UN reports and resolutions under the title Harmony with Nature Furthermore the book demonstrates that Article 225 caput of the Federal Constitution of Brazil when referring to ecological balance encompasses the normative core of the principle of harmony with nature It shows that the principle of harmony with nature in its integrative role acts as a normative source of biological dignity intrinsic value and the legal personality of non human living beings and holistic organic entities Based on the concept of biological legal personality it proposes the recognition of three biological personalities entitled to their intrinsic rights to vital impulse the vegetable biological personality the animal biological personality and the systemic biological personality Additionally it demonstrates the compatibility of the principle of harmony with nature with the principle of human dignity in its ecological dimension As a multidisciplinary research this book impacts not only the theory of law but also other spheres of knowledge such as ontology and ecological ethics The book is intended for the academic public involved in research on the rights of nature governmental and non governmental

organizations responsible for the construction of environmental policies to defend the rights of human and non human living beings as well as lawyers who advocate for the rights of nature
