The Records of the War Office and Related Departments, 1660-1964 Michael Roper, 1998 This guide covers the period from the Restoration of Charles II to the establishment of the Ministry of Defence in 1964 It includes the records of the Board of Ordnance military intelligence and military aviation **A Guide to British Military History** Ian F. W. Beckett, 2016-06-30 What exactly is military history Forty years ago it meant battles campaigns great commanders drums and trumpets It was largely the preserve of military professionals and was used to support national history and nationalism Now though the study of war has been transformed by the war and society approach by the examination of identity memory and gender and a less Euro centric and more global perspective Generally it is recognised that war and conflict must be integrated into the wider narrative of historical development and this is why Ian Beckett's research guide is such a useful tool for anyone working in this growing field It introduces students to all the key debates issues and resources While European and global perspectives are not neglected there is an emphasis on the British experience of war since 1500 This survey of British military history will be essential reading and reference for anyone who has a professional or amateur interest in the subject and it will be a valuable introduction for newcomers to it [American Military History](#) Daniel K. A British Profession of Arms Ian F. W. Beckett, 2018-10-25 You offer yourself to be slain General Sir John Hackett once observed remarking on the military profession This is the essence of being a soldier For this reason as much as any other the British army has invariably been seen as standing apart from other professions and sometimes from society as a whole *A British Profession of Arms* effectively counters this view In this definitive study of the late Victorian army distinguished scholar Ian F W Beckett finds that the British soldier like any other professional was motivated by considerations of material reward and career advancement Within the context of debates about both the evolution of Victorian professions and the nature of military professionalism Beckett considers the late Victorian officer corps as a case study for weighing distinctions between the British soldier and his civilian counterparts

Beckett examines the role of personality politics and patronage in the selection and promotion of officers. He looks too at the internal and external influences that extended from the press and public opinion to the rivalry of the so called rings of adherents of major figures such as Garnet Wolseley and Frederick Roberts. In particular he considers these processes at play in high command in the Second Afghan War 1878-81, the Anglo Zulu War 1879 and the South African War 1899-1902. Based on more than thirty years of research into surviving official, semiofficial and private correspondence, Beckett's work offers an intimate and occasionally amusing picture of what might affect an officer's career, wealth, wives and family status, promotion boards and strategic preferences, performance in the field and diplomatic outcomes. It is a remarkable depiction of the British profession of arms unparalleled in breadth, depth and detail.

The Royal Army Chaplains' Department, 1796-1953

Michael Francis Snape, 2008. A survey and reassessment of the role of the army chaplain in its first 150 years. Few military or ecclesiastical figures are as controversial as the military chaplain, routinely attacked by pacifist and anticlerical commentators and too readily dismissed by religious and military historians. This highly revisionist study represents a complete reappraisal of the role of the British army chaplain and of the Royal Army Chaplains Department in the first century and a half of its existence. Challenging old caricatures and stereotypes and drawing on a wealth of new archival material, it surveys the political, denominational and organisational development of the R A Ch D, analyses the changing role and experience of the British army chaplain across the nineteenth century and the two World Wars, and addresses the wider significance of British army chaplaincy for Britain's military, religious and cultural history over the period c. 1800-1950. MICHAEL SNAPE is Senior Lecturer in Modern History at the University of Birmingham. The volume has a Foreword by Richard Holmes.

Tense Future Paul K. Saint-Amour, 2015. A work of literary history that redefines literary modernism's development in relation to the concurrent emergence of total war and the psychological effects it created between the two world wars.
