Records Management For An Information Age:

Records Management for an Information Age Joseph V. Arn, Paula H. Titlow, 1991 **Public Sector Records Management** Kelvin Smith, 2016-04-15 Records management has undergone significant change in recent years owing to the introduction of freedom of information legislation as well as the development of e government and e business and the need to manage records effectively in both the private and public sector There are very few purely practical texts for records managers and this book aims to fill that gap The author has spent his entire career in public sector records management and has contributed to records management standards for governments around the world The text is wholly practical and written at an accessible level Although the author discusses legislation and examples from the UK the book is relevant to public sector records management at an international level It will be essential reading for professionals in record management posts as well as anyone who is responsible for record keeping as part of their operational duties Encyclopedia of Library and Information Science Allen Kent, 2002-03-26 This supplement examines achieving synergy between computer power and human reason to the unified medical language system UMLS Encyclopedia of Archival Science Luciana Duranti, Patricia C. Franks, 2015-06-17 Here is the first ever comprehensive guide to archival concepts principles and practices Encyclopedia of Archival Science features 154 entries which address every aspect of archival professional knowledge These entries range from traditional ideas like appraisal and provenance to today s challenges digitization and digital preservation They present the thoughts of leading luminaries like Ernst Posner Margaret Cross Norton and Philip Brooks as well as those of contemporary authors and rising scholars Historical and ethical components of practice are infused throughout the work Edited by Luciana Duranti from the University of British Columbia and Patricia C Franks from San Jos State University this landmark work was overseen by an editorial board comprised of leading archivists and archival educators from every continent Adrian Cunningham Queensland State Archives Australia Fiorella Foscarini University of Toronto and University of Amsterdam Pat Galloway University of Texas at Austin Shadrack Katuu International Atomic Energy Agency Giovanni Michetti University of Rome La Sapienza Ken Thibodeau National Archives and Records Administration US and Geoffrey Yeo University College London UK Currents of Archival Thinking Heather MacNeil, Terry Eastwood, 2017-01-09 With new technologies and additional goals driving their institutions archives are changing drastically This book shows how the foundations of archival practice can be brought forward to adapt to new environments while adhering to the key principles of preservation and access Archives of all types are experiencing a resurgence evolving to meet new environments digital and physical and new priorities To meet those changes professional archivist education programs now one of the more active segments of LIS schools are proliferating as well This book identifies core archival theories and approaches and how those interact with major issues and trends in the field The essays explore the progression of archival thinking today discussing the nature of archives in light of present day roles for archivists and archival institutions in the preservation of documentary

heritage Examining new conceptualizations and emerging frameworks through the lenses of core archival practice and theory the book covers core foundational topics such as the nature of archives the ruling concept of provenance and the principal functions of archivists discussing each in the context of current and future environments and priorities Several new essays on topics of central importance not treated in the first edition are included such as digital preservation and the influence of new technologies on institutional programs that facilitate archival access advocacy and outreach the changing legal context of archives and archival work and the archival collections of private persons and organizations Readers will also learn how communities of various kinds intersect with the archival mission and how other disciplines perspectives on archives can open new avenues

Information Services for a Sustainable Society Madeleine C. Fombad, Collence Takaingenhamo Chisita, Omwoyo Bosire Onyancha, Mabel K. Minishi-Majanja, 2023-07-24 The publication seeks to establish how information professionals are providing information services in a sustainable society in an era of information disorder It also provides the strategic direction to strengthen the global voice of libraries inspiring and enhancing professional practice as well as enhancing international cooperation and collaboration among LIS educators and practitioners The contents is divided according to the following key sub themes that resonate with the title as outlined below Library and information services in the information age Data and records in an era of information disorder Archives data curation and preservation in the digital era Data science analytics and visualization Information ethics in the digital era Information deluge in the digital era Information and knowledge management Fourth Industrial revolution The highlighted themes explore critical issues relating to how libraries archives and related institutions are responding to the seismic shifts in the information landscape amidst a myriad of challenges and opportunities The sub themes bring together a tapestry of articles that explore the status experiences and future prospects of the dynamic library and information science practice

The First Generation of Electronic Records Archivists in the United States Richard Cox, 2020-07-26 This book helps readers understand the current status of archivists in the United States It addresses issues of professionalization by re examining two major aspects of the archival community institutional forms and structures and the basic educational foundations that are important to any profession While United States archivists now seem poised to develop new approaches to the management of electronic records including research and education venues this profession s long journey to reach this point is an interesting step on the continuing road to professionalization The First Generation of Electronic Records Archivists in the United States represents the first major study of how and why American archivists have struggled to contend with the management of electronic records The book provides a framework for studying this issue includes suggestions for additional research and serves as a basis for discussion about the continued strengthening of the archival profession Despite more than thirty years of striving to manage electronic records American archivists have not developed an effective infrastructure for this purpose The First Generation of Electronic Records Archivists in the United States considers the evidence for this failure

by evaluating archival literature on the topic of electronic records management It examines how position descriptions in state government archives and job advertisements across the discipline have reflected a bias toward paper based formats and the failure of graduate and continuing archival education programs to deal effectively with electronic records The book details state government archives and position descriptions trends and practices in the Information Age 1976 1990 graduate archival education and electronic records an analysis of current approaches and their strengths and weaknesses the effectiveness of the NAGARA Institute as a form of advanced archival education problems challenges opportunities and needs for additional research The First Generation of Electronic Records Archivists in the United States is an enlightening study for library and information science educators archival graduate students and archivists themselves as they work toward the professionalization of their field

ARMA Records Management Quarterly, 1982 **F. W. Taylor** John Cunningham Wood, Michael C. Wood, 2002 Following the volumes on Henri Fayol this next mini set in the series focuses on F W Taylor the initiator of scientific management Taylor set out to transform what had previously been a crude art form in to a firm body of knowledge

Records Management and Knowledge Mobilisation Stephen Harries, 2011-11-09 This book argues that records management can contribute to public sector reform and transformation in the new climate of austerity without losing its essential characteristics Over the last 15 years records management has prospered tackling problems of electronic information and building a strong case for information governance based on a model of regulation and management control The public sector environment is now changing rapidly with more emphasis on efficiency flexibility and innovation devolving control loosening regulation and cutting budgets By linking practical ideas about the use and management of knowledge the author will draw on insights from the study of policy making and programme delivery to show how managing the relationship between records and knowledge their creation and use can not only make an important contribution to public sector innovation in itself but also reconcile the demands of regulation through a wider concept of the governance of knowledge as well as information Draws on practical real world examples Focuses on how records management can respond to the challenges of transformation in this period of public sector retrenchment as yet little discussed elsewhere Integrates concepts from records and knowledge management in a coherent applied framework and locates this within the context of policy making and delivery to achieve positive benefits
