Cancer and the Search for Selective Biochemical Inhibitors E.J. Hoffman,2007-06-25 The world of medicine has become splintered into two factions that of orthodoxy and its counterpart alternative or complementary medicine A problem with alternative medicine is of course that of anecdote and hearsay The solution the disclosure in an unassailable fashion of the underlying biochemical principles for alternative cancer therap

Understanding Women's Recovery From Illness and Trauma Margaret H. Kearney,1999-06-23 Understanding Women s Recovery from Illness and Trauma is a practical guide to the why and how questions of human responses to illness With this volume Margaret Kearney presents aspects of women s experiences that counselors are not always exposed to and provides support in the treatment of women who are facing or recovering from serious illness and other health crises This book draws on qualitative data from a variety of sources and offers a theoretical model of women s health and identity Kearney begins with an overview of that model and discusses the grounded theory approach to collecting and analyzing experiential data She next moves on to describing a number of health crises recovery situations women s responses to these events and discusses clinical implications for women undergoing these experiences The author also examines women s approaches to staying healthy and balancing their lives and she closes by suggesting areas for future research She also discusses policy implications for health and human service agencies that deal specifically with women from various cultural and ethnic groups Understanding Women s Recovery from Illness and Trauma synthesizes the many studies that have been conducted on the topic across various disciplines As such this book provides one of the first general resources for therapists and counselors who work with women It will also be particularly interesting to graduate and undergraduate students of clinical psychology counseling and social work women s studies and education This volume will prove useful for in service training programs for counselors social workers nurses and psychologists

When Illness Goes Public Barron H. Lerner,2006-11-20 Outstanding Academic Title 2007 Choice magazine Steve McQueen had cancer and was keeping it secret Then the media found out and soon all of America knew McQueen s high profile changed forever the way the public perceived a dreaded disease In When Illness Goes Public Barron H Lerner describes the evolution of celebrities illnesses from private matters to stories of great public interest Famous people who have become symbols of illness include Lou Gehrig the first celebrity patient Rita Hayworth whose Alzheimer disease went undiagnosed for years and Arthur Ashe who courageously went public with his AIDS diagnosis before the media could reveal his secret And then there are private citizens like Barney Clark the first recipient of a permanent artificial heart and Lorenzo Odone whose neurological disorder became the subject of a Hollywood film While celebrity illnesses have helped to inform patients about treatment options ethical controversies and scientific proof the stories surrounding these illnesses have also assumed mythical characteristics that may be misleading Marrying great storytelling to an exploration of the intersection of science journalism fame and legend this book is a groundbreaking contribution to our understanding of health and illness

I Gave

Myself Cancer, I Can Take It Away! Linda Christina Beauregard, 2013-04 I am bold brave and daring I did the unthinkable I went against traditional medical wisdom and came out a huge winner I went against the grain of conventional surgery radiation chemo and other drug therapy to embark upon a journey that transformed my life This story is sometimes humorously conversational and details a journey that everyone who wants health without pills potions or sickening side effects needs to hear The cures are here for cancer and every other type of immune system related disease The answers are in alternative medicine and I m just one of thousands who defeated cancer using unconventional means It s easy to regain your health without compromising consequences The real question is are you ready for it Are you ready to take back responsibility for your own health and put it where it belongs in your hands This book is a must read for anyone who has cancer knows someone with cancer or who would like to avoid cancer or any disease Jean Sumner author of Journey to Raw 52 Weekly Changes to add more raw food to your diet and co founder of World Wellness Education A bible for healthy self wellness Heartfelt sincere intimate straightforward and educational Frederic Delarue music composer and author of Eyes of Your Heart Create a New Life Through the Eyes of Your Heart An alternative view of alternative medicine I Gave Myself Cancer provides much food for thought in the important field of holistic self healing Suzanne Giesemann author of Messages of Hope

Storied Health and Illness Jill Yamasaki, Patricia Geist-Martin, Barbara F. Sharf, 2016-07-01 Health and illness are storied experiences that necessarily entail personal cultural and political complexities For all of us communicating about health and illness requires a continuous negotiation of these complexities and a delicate balance between what we learn about the biology of disease from providers and our own very personal subjective experiences of being ill Storied Health and Illness brings together dozens of noteworthy scholars both established and emerging in a provocative collection that embraces narrative ways of knowing to think about analyze and reconsider our own and others health beliefs behaviors and communication Comprehensive content reflects the editors substantial research in integrative health narrative care and innovative ways of improving well being and quality of life in personal relationships healthcare the workplace and community settings Unique narrative approaches to the study of health communication include 14 chapters written by 22 contributors who use engaging stories from their own research or personal experience to introduce and ground foundational communication concepts in healthcare health promotion community support organizational wellness and other health related sites of interest Compelling stories of individuals living with the inherent challenges and unexpected opportunities of mental illness addiction aging cancer dialysis sexual harassment miscarriage obesity alopecia breastfeeding health threats to immigrant workers developmental differences and youth gun violence 36 Health Communication in Action HCIA sidebars that highlight applied research of innovative health communication scholars in their own words and then prompt readers to think more deeply about their own perspectives and experiences Theorizing Practice boxes that encourage readers to reflect on stories that describe significant experiences in their own and others lives as they consider assumptions and enlarge their

viewpoints in previously unimagined ways Sexualizing Cancer Laura Mamo, 2023-12-20 The virus that changed how we think about cancer and its culprits and the vaccine that changed how we talk about sex and its risks Starting in 2005 people in the US and Europe were inundated with media coverage announcing the link between cervical cancer and the sexually transmitted virus HPV Within a year product ads promoted a vaccine targeting cancer's viral cause and girls and women became early consumers of this new cancer vaccine An understanding of HPV's broadening association with other cancers led to the identification of new at risk populations namely boys and men and ignited a plethora of gender and sexual issues related to cancer prevention *Sexualizing Cancer* is the first book dedicated to the emergence and proliferation of the HPV vaccine along with the medical capacity to screen for HPV crucial landmarks in the cancer prevention arsenal based on a novel connection between sex and chronic disease Interweaving accounts from the realms of biomedical science public health and social justice Laura Mamo chronicles cervical cancer's journey out of exam rooms and into public discourse She shows how the late twentieth century scientific breakthrough that identified the human papilloma virus as having a causative role in the onset of human cancer galvanized sexual politics struggles for inclusion new at risk populations and ultimately a new regime of cancer prevention Mamo reveals how gender and other equity arguments from within scientific medical and advocate communities shaped vaccine guidelines clinical trial funding research practices and clinical programs with consequences that reverberate today This is a must read history of medical expansion from a woman's disease to a set of cancers that affect all genders and of lingering sexualization with specific gendered racialized and other contours along the way *Touched by Cancer...
