The Recovery of Philosophy in America John Edwin Smith, 1997 This collection of essays by leading American philosophers honors John E. Smith a major figure in the struggle for the American profession of philosophy to redefine itself and return to its grander traditions Philosophy in America enjoyed a golden age at the end of the nineteenth and beginning of the twentieth centuries with the flourishing of distinctive and original schools of pragmatism idealism and naturalism These American philosophies shared a family of conceptions of human experience far richer than their contemporary European schools of empiricism and phenomenology The American conceptions of experience embrace critical and speculative conceptions of reason presenting decisive alternatives to the Kantian foundationalist project that expressed itself in positivism analytic philosophy and phenomenology During the middle part of the twentieth century these American philosophies were eclipsed by the European schools however and philosophy was reduced from the public intellectual roles given it by the likes of William James and John Dewey to a narrow academic practice interesting to few other than academic philosophers This book celebrates the recovery and new growth of American philosophy in a stunning variety of connected and vital intellectual projects represented by its contributors George Allan Douglas R. Anderson Lewis S. Ford Errol Harris Richard Hocking Thomas P. Kasulis George R. Lucas Jr. Robert Cummings Neville Donald W. Sherburne Merold Westphal Kuang-ming Wu and Carl G. Vaught

Christian Practical Wisdom Dorothy C. Bass, Kathleen A. Cahalan, Bonnie J. Miller-McLemore, James R. Nieman, Christian B. Scharen, 2016-05-05 In this richly collaborative work five distinguished scholars examine the oft neglected embodied practical wisdom that is essential for true theological understanding and faithful Christian living After first showing what Christian practical wisdom is and does in several real life situations the authors tell why such practical wisdom matters and how it operates exploring reasons behind its decline in both the academy and the church and setting forth constructive cases for its renewal

Recovery of the Measure Robert C. Neville, 1989-08-15 Neville's most significant scholarly contribution is arguably his metaphysical theory of being or being itself a new theory that involves an original solution to the ancient problem of the one and the many He developed this theory for his PhD dissertation at Yale University graduated 1963 of which his first book *God the Creator* constitutes a substantial revision Exploring the implications of that theory has enabled him to produce a philosophy of nature that rivals Alfred North Whitehead's in scope and power as can be seen from his three volume *Axiology of Thinking* The first volume in that trilogy *Reconstruction of Thinking* 1981 was hailed by Donald W. Sherburne editor of the corrected edition of Whitehead's *Process and Reality* as a

truly important book It is the first genuinely neo Whiteheadian offering on a large systematic scale The second volume of the trilogy *Recovery of the Measure Interpretation and Nature* 1989 was also well received The prominent Confucian scholar and philosopher David L Hall wrote of it as follows Because of its timeliness the brilliance of its arguments and the profundity of its conclusions *Extension of European Recovery* United States. Congress. Senate. Committee on Foreign Relations,1949 Considers S 833 to authorize the continuance of the European recovery program American Catholic Philosophical Quarterly ,2006 *Extension of European Recovery.
