Red Badge Of Courage Maggie A Girl Of The Streets And Other Selected Writings:

Reading America Elizabeth Boyle, 2009-03-26 This specially commissioned volume of essays offers a refreshing and unusual perspective on classic novels from the American literary canon Accessible to students scholars and the interested reader this engaging collection explores familiar novels through unfamiliar lenses and in so doing sheds light on surprising and previously overlooked aspects of each text Reading America presents a new approach to American literature by showcasing a cross section of recent research into previously untapped areas of interest Each chapter attempts to reread classic American texts using new or unorthodox theoretical frameworks including such diverse topics as an Emersonian reading of Don DeLillo decoding Thomas Pynchon with eco criticism and understanding Paul Auster's New York Trilogy by exploring the graphic novel version of City of Glass Other authors explored in this way include Henry James Truman Capote Ralph Ellison Toni Morrison Joyce Carol Oates and F Scott Fitzgerald This type of approach widens the reader's knowledge of each well-known text and encourages new critical evaluations of contemporary American literature The collection moves through six large topic areas from Naturalism and an idea of the Great American Novel at the end of the nineteenth century through politics sexuality language and nature to a contemporary engagement with postmodernism Each essay deals with its own particular subject and author but the full impact of each on the notion of the American novel as a phenomenon can only be understood when read in conjunction with the others Of interest to both undergraduate and postgraduate students Reading America would be a valuable asset to any American Studies or American Literature degree course and a useful companion to American History or Politics courses The volume will also attract strong interest from established academics especially those researching the fields of literature critical theory cultural history and politics

The Novel Art Mark McGurl, 2020-06-30 Once upon a time there were good American novels and bad ones but none was thought of as a work of art The Novel Art tells the story of how beginning with Henry James this began to change Examining the late nineteenth century movement to elevate the status of the novel its sources paradoxes and reverberations into the twentieth century Mark McGurl presents a more coherent and wide-ranging account of the development of American modernist fiction than ever before Moving deftly from James to Stephen Crane Edith Wharton Gertrude Stein William Faulkner Dashiell Hammett and Djuna Barnes among others McGurl argues that what unifies this diverse group of ambitious writers is their agonized relation to a middling genre rarely included in discussions of the fine arts He concludes that the new product despite its authors' desire to distinguish it from popular forms never quite forsook the intimacy the genre had long cultivated with the common reader Indeed the art novel sought status within the mass market and among its prime strategies was a promotion of the mind as a source of value in an economy increasingly dependent on mental labor McGurl also shows how modernism's obsessive interest in simple-mindedness revealed a continued concern with the masses even as it attempted to use this simplicity to produce a heightened sophistication of form Masterfully argued and set in elegant prose The Novel Art provides

a rich new understanding of the fascinating road the American novel has taken from being an artless enterprise to an aesthetic one

The Red Badge of Courage Stephen Crane, 1981-03-01 First published in 1895 America's greatest novel of the Civil War was written before 21 year old Stephen Crane had smelled even the powder of a sham battle But this powerful psychological study of a young soldier's struggle with the horrors both within and without that war strikes the reader with its undeniable realism and with its masterful descriptions of the moment by moment riot of emotions felt by me under fire Ernest Hemingway called the novel an American classic and Crane's genius is as much apparent in his sharp colorful prose as in his ironic portrayal of an episode of war so intense so immediate so real that the terror of battle becomes our own in a masterpiece so unique that many believe modern American fiction began with Stephen Crane

Varieties of English in Writing Raymond Hickey, 2010 This volume is concerned with assessing fictional and non fictional written texts as linguistic evidence for earlier forms of varieties of English These range from Scotland to New Zealand from Canada to South Africa covering all the major forms of the English language around the world Central to the volume is the question of how genuine written representations are Here the emphasis is on the techniques and methodology which can be employed when analysing documents The vernacular styles found in written documents and the use of these as a window on earlier spoken modes of different varieties represent a focal concern of the book Studies of language in literature which were offered in the past have been revisited and their findings reassessed in the light of recent advances in variationist linguistics
