Red Ice My Fight To Save The Seals:

Red Ice Brian Davies, 1991-01-01 **Icy Battleground** Donald Barry, 2005 Icy Battleground is the first comprehensive account of the forty year political controversy over the seal hunt With a foreword by the Honourable John C Crosbie it traces the rise of the anti sealing protests the emergence of the International Fund for Animal Welfare its vigorous and unrelenting campaign to end commercial sealing and its strategies in mobilising pressure in Canada and abroad It also assesses the Canadian government's counter strategies to continue the hunt as well as the challenges that emotionally targeted campaigns like the seal hunt pose for government decision makers **Torn Asunder** David H. Rosen, 2021-04-11 David Rosen in this memoir is in turns vulnerable courageous sad joyful too human funny and extraordinarily generous and wise Woven together into a truly wondrous adventure it shows his great heart and spirit Mark Unno Professor of Religious Studies University of Oregon and Shin Buddhist Priest A psychiatrist Jungian analyst researcher artist stand up comedian Dr Nada and a writer with a wide range David Rosen is beyond what he has done a man who has truly transformed his depression through a creative life Torn Asunder is the latest example of a man whose life and work are an inspiration Robert D Romanyshyn Emeritus Professor of Psychology Pacifica Graduate Institute Torn Asunder putting back the pieces a lifelong journey is for moving toward wholeness responding to the spirit's depth poetic philosophical wholehearted and felt and the experience of the Tao Shen Heyong Professor South China Normal University and Fudan University *Seal* Victoria Dickenson, 2015-11-15 Playful and inquisitive seals have long been interested in humans and humans have reciprocated that interest falling for their beauty grace and charm as they frolic alongside our boats or loll on sandy shores In this newest entry in the Animal series Victoria Dickenson traces the history of our interaction with these beautiful fascinating swimmers from the centuries of hunting in which people killed countless seals for their skin oil and meat to the present when the white furred baby seal has become one of the most potent symbols of the need for ecological conservation Along the way she offers an approachable account of seal biology and behavior and she delineates the threats they face from habitat destruction and climate change Beautifully illustrated and packed with stories from folklore myth and history Seal offers a richly immersive view of a much loved storied creature **The Seal Hunt** Nikolas Sellheim, 2018-08-13 In The Seal Hunt Cultures Economies and Legal Regimes Nikolas Sellheim offers a deep analysis of the seal hunt worldwide He engages on a journey from the northern to the southern hemisphere and explores how the seal hunt has shaped cultures all over the world up to this day By analysing the different national and international regimes dealing with the seal hunt Sellheim shows how the perception of the seal and the seal hunt has changed over time and space Focusing on the European Union and the World Trade Organization the volume offers an account on how opposition towards the seal hunt has found its way onto the international spheres of governance and trade **Animal Rights** John M. The Shadows of Consumption Peter Dauvergne, 2010-09-24 An environmentalist maps the hidden costs of overconsumption in a globalized world by tracing the environmental consequences of five commodities The Shadows of Consumption gives a hard hitting diagnosis many of the earth's ecosystems and billions of its people are at risk from the consequences of rising consumption Products ranging from cars to hamburgers offer conveniences and pleasures but as Peter Dauvergne makes clear global political and economic processes displace the real costs of consumer goods into distant ecosystems communities and timelines tipping into crisis people and places without the power to resist In The Shadows of Consumption Peter Dauvergne maps the costs of consumption that remain hidden in the shadows cast by globalized corporations trade and finance Dauvergne traces the environmental consequences of five commodities automobiles gasoline refrigerators beef and harp seals In these fascinating histories we learn for example that American officials ignored warnings about the dangers of lead in gasoline in the 1920s why China is now a leading producer of CFC free refrigerators and how activists were able to stop Canada's commercial seal hunt in the 1980s but are unable to do so now Dauvergne's innovative analysis allows us to see why so many efforts to manage the global environment are failing even as environmentalism is slowly strengthening He proposes a guiding principle of balanced consumption for both consumers and corporations We know that we can make things better by driving a high mileage car eating locally grown food and buying energy efficient appliances but these improvements are incremental local and insufficient More crucial than our individual efforts to reuse and recycle will be reforms in the global political economy to reduce the inequalities of consumption and correct the imbalance between growing economies and environmental sustainability

Conflicts in Conservation Stephen M. Redpath, R. J. Gutiérrez, Kevin A. Wood, Juliette C. Young, 2015-05-07 An insightful guide to understanding conflicts over the conservation of biodiversity and groundbreaking strategies to deal with them

Paradise Found Steve Nicholls, 2009-08-01 The first Europeans to set foot on North America stood in awe of the natural abundance before them The skies were filled with birds seas and rivers teemed with fish and the forests and grasslands were a hunter's dream with populations of game too abundant and diverse to even fathom It's no wonder these first settlers thought they had discovered a paradise of sorts Fortunately for us they left a legacy of copious records documenting what they saw and these observations make it possible to craft a far more detailed evocation of North America before its settlement than any other place on the planet Here Steve Nicholls brings this spectacular environment back to vivid life demonstrating with both historical narrative and scientific

inquiry just what an amazing place North America was and how it looked when the explorers first found it The story of the continent's colonization forms a backdrop to its natural history which Nicholls explores in chapters on the North Atlantic the East Coast the Subtropical Caribbean the West Coast Baja California and the Great Plains Seamlessly blending firsthand accounts from centuries past with the findings of scientists today Nicholls also introduces us to a myriad cast of characters who have chronicled the changing landscape from pre Revolutionary era settlers to researchers whom he has met in the field A director and writer of Emmy Award winning wildlife documentaries for the Smithsonian Channel Animal Planet National Geographic and PBS Nicholls deploys a cinematic flair for capturing nature at its most mesmerizing throughout But Paradise Found is much more than a celebration of what once was it is also a reminder of how much we have lost along the way and an urgent call to action so future generations are more responsible stewards of the world around them The result is popular science of the highest order a book as remarkable as the landscape it recreates and as inspired as the men and women who discovered it

Understanding the Cultures of Fishing Communities James R. McGoodwin, Food and Agriculture Organization of the United Nations, 2001-01-01 Small scale fishing accounts for almost 95% of the world's fishing and it has been estimated that small scale fishing activities support the livelihoods of more than 200 million people worldwide The purpose of this document is to help fisheries officials gain a clearer understanding of the cultures of small scale fishing communities It is hoped this will enable the development of more successful management policies and practices and empower people in such communities to improve their livelihoods The document highlights the importance of sustaining the rights of access to resources and the integration of cultural considerations into fisheries management policies It includes six case studies from distinct cultural regions of the world
