Red Scared The Commie Menace In Propaganda And Popular Culture:

Red Scared! Michael Barson, Steven Heller, 2001-04 *Red Scared* offers valuable lessons from the vault on how to identify Communists media reports on the jolly side of Stalin guidelines for bomb shelter chic and much more As they did in their other lively pop culture histories *Teenage Confidential* and *Wedding Bell Blues* Michael Barson and Steven Heller once again bring the nearly forgotten details of American culture into full relief with *Red Scared* **BOOK JACKET** *Redrawing the Western* William Grady, 2024-11-12 2025 Best Single Author Book Midwest Popular Culture Association 2025 Longlist Reading the West Book Award in Nonfiction Mountains through fin de si cle anxieties with the closing of the frontier and the centrality of cowboy adventure across the interwar postwar and high Cold War years to the revisions of the genre in the wake of the Vietnam War and the Western s continued vitality in contemporary comics storytelling In its study of stories about vengeance conquest and justice on the contested frontier *Redrawing the Western* highlights how the simplistic conflicts common in Western adventure comics could disguise highly political undercurrents providing young readers with new ways to think about the contemporaneous social and political milieu Besides tracing the history forms and politics of American Western comics in and around the twentieth century William Grady offers an original reassessment of the important role of comics in the development of the Western genre ranking them alongside popular fiction and film in the process **Baby Boom** Rusty Monhollon, 2010-02-09 This engaging collection of essays explores the many ways Americans of every race class gender and political leaning experienced the Baby Boom This revealing new work goes inside the Baby Boom generation to look at how everyday people within the boomer demographic changed and were changed by the course of American history *Baby Boom People and Perspectives* does not focus on one single historic moment but rather follows different groups within the Baby Boom generation as they move through history From the generation gap of the 1950s to the civil rights movement from Vietnam and the counterculture of the 1960s to Watergate and the Reagan era and from the Clinton years to September 11th and the recent resurgence of conservatism this insightful social history shows how Baby Boomers across the breadth of American society experienced and impacted the same historic events differently **Design Studies** Audrey Bennett, 2006-08-31 In an age of globalization and connectivity the idea of mainstream culture has become quaint Websites magazines books and television have all honed in on ever diversifying subcultures hoping to carve out niche audiences that grow savvier and more narrowly sliced by the day Consequently the discipline of graphic design has undergone a sea change Where visual communication was once informed by a designer s creative intuition the proliferation of specialized audiences now calls for more research based design processes Designers who ignore research run the risk of becoming mere tools for communication rather than bold voices *Design Studies* a collection of 27 essays from an international cast of top design researchers sets out to mend this schism between research and practice The texts presented here make a strong argument for performing rigorous experimentation and analysis Each author outlines methods in which research has aided their

design whether by investigating how senior citizens react to design aesthetics how hip hop culture can influence design or how design for Third World nations is affected by cultural differences Contributors also outline inspired ways in which design educators can teach research methods to their students Finally Design Studies is rounded out by five annotated bibliographies to further aid designers in their research This comprehensive reader is the definitive reference for this new direction in graphic design and an essential resource for both students and practitioners
