Daniel David Moses

Red Blizzard:

Red Metal Mark Greaney, Hunter Ripley Rawlings, 2019 A desperate Kremlin takes advantage of a military crisis in Asia to simultaneously strike into Western Europe and invade east Africa in a bid to occupy three Rare Earth mineral mines that will give Russia unprecedented control for generations over the world's hi tech sector Pitted against the Russians are a Marine lieutenant colonel pulled out of a cushy job at the Pentagon and thrown into the fray in Africa a French Special Forces captain and his intelligence operative father a young Polish female partisan fighter an A 10 Warthog pilot and the commander of an American tank platoon who along with his German counterpart fight from behind enemy lines in Germany all the way into Russia

The Red Years Bandi, 2019-08-15 Though North Korea holds the attention of the world it is still rare for us to hear North Korean voices beyond those few who have escaped Known only by his pen name the poet and author Bandi stands as one of the most distinctive and original dissident writers to emerge from the country and his work is all the more striking for the fact that he continues to reside in North Korea writing in secret with his work smuggled out of the country by supporters and relatives The Red Years represents the first collection of Bandi's poetry to be made available in English As he did in his first work The Accusation Bandi here gives us a rare glimpse into everyday life and survival in North Korea Singularly poignant and evocative The Red Years stands as a testament to the power of the human spirit to endure and resist even the most repressive of regimes

Red Army Ralph Peters, 1990 From the cockpit of a MIG to the foot soldiers and tankers on the scarred bloody battlefields to the four star general commanding the attack Red Army is a riveting portrayal of modern war and of human strengths and weaknesses Seen entirely through Russian eyes this extraordinary novel is destined to become a classic

Inferno Edwin P. Hoyt, 2024-11-05 Did the bombing of Japan's cities culminating in the nuclear destruction of Hiroshima and Nagasaki hasten the end of World War II Edwin Hoyt World War II scholar and author argues against the U S justification of the bombing In Inferno Hoyt shows how the United States bombed without discrimination hurting Japanese civilians far more than the Japanese military Hoyt accuses Major General Curtis LeMay the Air Force leader who helped plan the destruction of Dresden of committing a war crime through his plan to burn Japan's major cities to the ground The firebombing raids conducted by LeMay's squadrons caused far more death than the two atomic blasts Throughout cities built largely from wood incendiary bombs started raging fires that consumed houses and killed hundreds of thousands of men women and children The survivors of the raids recount their stories in Inferno remembering their terror as they fled to shelter through burning cities escaping smoke panicked crowds and collapsing buildings Hoyt's descriptions of the widespread death and destruction of Japan depicts a war machine operating without restraint Inferno offers a provocative look at what may have been America's most brutal policy during the years of World War II
