Red China Sripati Chandrasekhar, 1961 Red China Sripati Chandra-Sekhar, 2013-10 This is a new release of the original 1961 edition *Problems of Communism*, 1961 *Asia's Population Problems* S. Chandrasekhar, 2022-11-16 Asia's Population Problems 1967 features papers written by specialists demographers economists and sociologists examining the various population issues facing different Asian countries in the decades following the Second World War Population facts and policies apart from affecting an individual's happiness and security and a nation's economic and social advancement have come to play an important role in international relations A proper understanding of demographic trends is key and this volume aims to supply significant population facts and figures and also provides the general national economic and political framework of each country against which certain international demographic attitudes approaches and policies may be understood China's Bloody Century R. J. Rummel, 2017-07-12 Except for Soviet citizens no people in this century have endured so much mass killing as have the Chinese They have been murdered by rebels conniving with their own rulers and then after the defeat in war of the imperial dynasty by soldiers of other lands They have been killed by warlords who ruled one part of China or another They have been executed by Nationalists or Communists because they had the wrong beliefs or attitudes or were simply in the wrong place at the wrong time In China's Bloody Century R J Rummel's careful estimate of the total number of killings exceeds 5 million How do we explain such killings crossing ideological bounds and political conditions According to Rummel the one constant factor in all the Chinese mass murder as it was in the Soviet Union and Nazi Germany is arbitrary power It was the factor that united warlords Nationalists Communists and foreign armies The author argues that whenever such undisciplined power is centralized and unchecked the possibility exists that it will be used at the whim of dictators to kill for their own ends whether the aim is ethnic racial purity national unity development or utopia The book presents successive periods in modern Chinese history with each chapter divided into three parts Rummel first relates the history of the period within which the nature and the amount of killings are presented He then provides a detailed statistical table giving the basic estimates with their sources and qualifications The final part offers an appendix that explains and elaborates the statistical computations and estimates While estimates are available in the literature on the number of Chinese killed in Communist land reform or in Tibet or by the Nationalists in one military campaign or another until this book no one has tried to systematically accumulate organize add up and analyze these diverse killings for all of China's governments in this century For **Communist China: Ruthless Enemy Or Paper Tiger?** Army Library (U.S.), 1978 *America Views China* Jonathan Goldstein, Jerry Israel, Hilary Conroy, 1991 U S historians present 16 essays on the American view of the Chinese from the 18th century to the present Among the perspectives are art commerce missionary activity diplomacy popular culture and a comparison with images of Japan Includes a general bibliography Annotation copyrighted by Book News Inc Portland OR *The Communist World* Harry G.
