Red Star Fighters Ground Attack:

Red Star Airacobra Evgeniy Mariinskiy, 2006 Evgeniy Mariinskiy a Soviet fighter ace and Hero of the Soviet Union shot down 20 enemy planes in aerial combat over the Eastern Front between 1943 and 1945 He frequently engaged enemy fighters and bombers shot down many but was himself shot down several times This is his extraordinary story His vivid inside view of the ruthless war in the air on the Eastern Front gives a rare insight into the reality of fighting and tactics of the Red Army Air Force In his own words and with a remarkable clarity of recall Evgeniy Mariinskiy describes what combat was like in the air face to face with a skilled deadly and increasingly desperate enemy The reader can follow his career from an unskilled novice who has just arrived at his regiment through to him becoming an ace and Hero of the Soviet Union under the leadership of experienced commanders The terrifying moments of action engagements with enemy fighters forced landings nervous strain before attacks loss of comrades and everyday life of pilots all these aspects of a Soviet fighter pilot's experience during the Great Patriotic War are brought dramatically to life in his memoirs In his memoirs Mariinskiy describes tactics which enabled him to have an upper hand in dogfights against experienced German pilots The grand strategy of the campaigns across the Eastern Front is less important here than the sequence of engagements that were the firsthand experience of the author It is this close up view of combat that makes Evgeniy Mariinskiy's reminiscences of such value Key sales points A gripping and superbly readable memoir of the war in the air over the Eastern Front 1943-45 penned by a Hero of the Soviet Union and air ace credited with 20 victories Covers the author's full aviation career including training and his initial experiences over the front as well as his increasingly successful combat with a skilled enemy Evgeniy Mariinskiy served with the 129th Guards Fighter Regiment 1943-45 undertaking 210 sorties participating in 60 air to air engagements and shooting down 20 enemy aircraft In 1945 he was awarded the Gold Star of Hero of the Soviet Union

Red Star Against The Swastika Vasily Emelianenko, 2005-12-01 This is the extraordinary story of Vasily B Emelianenko the veteran pilot of one of the Soviet Union's most contradictory planes of WWII the Il-2 This heavily armoured aircraft was practically unrivalled in terms of fire power but it was slow to manoeuvre and an easy target for fighters Il-2 had to attack enemy flak columns at extremely low altitudes which led to enormous tolls both in equipment and personnel **Aces at Kursk** Christopher A Lawrence, 2024-07-25 The Battle of Kursk in July 1943 is known for being the largest tank battle in history A Russian victory it marked the decisive end of the German offensive capability on the Eastern Front and set the scene for the Soviet successes that followed While many have focused on the tank engagements especially the Battle of Prokhorovka there was an intense air battle going on overhead that was bigger than the Battle of Britain As part of the German offensive the Luftwaffe's VIII Air Corps deployed around 1,100 aircraft in the south alone while the opposing Soviet Second and Seventeenth air armies initially deployed over 1,600 aircraft There was a similar effort surrounding the German attack in the north The battle in the south began with a Soviet air strike on German airfields and a fight for control of the air

that continued throughout the day across the front On the first day of the battle 5 July 1943 the Germans flew at least 2 387 sorties in the south while the two Soviet air armies flew 1 688 sorties That first day of battle resulted in 19 to 27 German planes and 189 Soviet aircraft shot down This was an aerial engagement like no other ever seen before Involved on the German side were the 52nd and 3rd Fighter Wings The 52nd Fighter Wing was the most accomplished fighter wing in history and many of its top aces were involved in the combats over the Kursk battlefield These included Walter Krupinski 197 claimed kills in the war G nther Rall the third highest scoring ace in history 275 claimed kills and the highest scoring ace in history Erich Hartmann 352 claimed kills Opposing them were what were to become three of the top five Soviet aces Kirill Yevstigneyev 53 claimed kills Nikolai Gulayev 55 claimed kills and the top scoring Allied ace of the war Ivan Kozhedub 62 claimed kills This was indeed the battle of the aces But there was also the massive ground attack effort by both sides including the Junkers Ju 87 Stuka fitted with 37mm anti tank guns flown by the man who would become most decorated soldier of the Third Reich Hans Ulrich Rudel The aerial battle involved hundreds of Soviet Sturmoviks or IL 2s Stalin s armored ground attack plane The battle featured the famous attack by Luftwaffe Hs 129s and Fw 190s on Soviet armor on 8 July 1943 Aces at Kursk is not just a war story but a revealing investigation that analyses the entire air battle that turned the tide of the war on the Eastern Front

Rolling Thunder Ivan Rendall,1999 This first history of jet combat by an ex RAF flier will fascinate students of military history as well as all who thrilled to the rugged hero culture of fighter pilots popularized in the film Top Gun of photos Index *The Eastern Front Air War, 1941-1945* Anthony Tucker-Jones,2020-01-31 This lavishly illustrated WWII history examines the bitter aerial combat of the Eastern Front through rare wartime photographs and informative text Though the air war was a major aspect of the Eastern Front conflict it has long been neglected by historians Anthony Tucker Jones s photographic history offers a vividly detailed introduction to the subject With more than 150 archival images most of which have never been published before this volume examines Stalin s Red Air Force and Hitlers Luftwaffe their equipment and the role they played in supporting the war on the ground Just before Hitler s invasion of the Soviet Union Stalin had decimated the leadership of the Red Air Force in a series of purges Thousands of Russian fighter aircraft were swiftly destroyed in the German Blitzkrieg But a remarkable recovery followed as the Red Air Force turned the tide against the ravages of the Luftwaffe to wrestle back air superiority by 1944
