## **Redeeming The American Promise Report Of The Panel On Educational Opportunity And Postsecondary Desegregation:**

Redeeming the American Promise Southern Education Foundation. Panel on Educational Opportunity and Postsecondary Desegregation, 1995 This report examines efforts by 12 formerly segregated states Alabama Florida Georgia Kentucky Louisiana Maryland Mississippi North Carolina Pennsylvania Tennessee Texas and Virginia to desegregate their higher education systems and increase educational opportunities for black and other minority students It found that none of the states that had formerly operated a dual system of higher education demonstrated an acceptable level of success in desegregation and that substantial remnants of segregation continue to shape higher education in these states It recommends that these states 1 address the systemic nature of the problem 2 develop institutional plans 3 make access an institutional mission 4 make success an institutional responsibility 5 make community colleges full partners in higher education 6 measure success and failure 7 support historically black institutions 8 restructure rather than close or merge institutions 9 promote public and private leadership and 10 invest adequate funds in reform Five appendixes provide selected data from the 12 states a model desegregation order a list of panel meetings and hearings a list of presenters and a list of commissioned papers MDM

*We Can Do It* Michael T. Gengler, 2018-08-21 This book tells of the challenges faced by white and black school administrators teachers parents and students as Alachua County Florida moved from segregated schools to a single unitary school system After Brown v Board of Education the South s separate white and black schools continued under lower court opinions provided black students could choose to go to white schools Not until 1968 did the NAACP Legal Defense Fund convince the Supreme Court to end dual school systems Almost fifty years later African Americans in Alachua County remain divided over that outcome A unique study including extensive interviews We Can Do It asks important questions among them How did both races without precedent work together to create desegregated schools What conflicts arose and how were they resolved or not How was the community affected And at a time when resegregation and persistent white black achievement gaps continue to challenge public schools what lessons can we learn from the generation that desegregated our schools

The Walls Around Opportunity Gary Orfield, 2022-05-03 The case for race conscious education policy In our unequal society families of color fully share the dream of college but their children often attend schools that do not prepare them and the higher education system gives the best opportunities to the most privileged Students of color hope for college but often face a dead end For many young people racial inequality puts them at a disadvantage from early childhood The Walls around Opportunity argues that colorblind policies have made college inaccessible to a large share of students of color and reveals how policies that acknowledge racial inequalities and set racial equality goals can succeed where colorblindness has failed Gary Orfield paints a troubling portrait of American higher education explaining how profound racial gaps imbedded in virtually every stage of our children s lives pose a major threat to communities of color and the nation He describes how the 1960s and early 1970s was the only period in history to witness sustained efforts at racial equity in higher education and how the Reagan era ushered in today s colorblind policies which ignore the realities of color inequality Orfield shows how this misguided policy has resegregated public schools exacerbated inequalities in college preparation denied needed financial aid to families and led to huge price increases over decades that

have seen little real gain in income for most Americans Drawing on a wealth of new data and featuring commentaries by Stella Flores and James Anderson this timely and urgent book shows how colorblind policies serve only to raise the walls of segregation higher and proposes real solutions that can make higher education available to all **Higher Education in the United States** James J. Walters, 2003 A study of the most racially conscious aspect of the Conservative movement and its impact on politics and current public policy The rise of the Conservative movement in the United States over the last two decades is evident in current public policy including the passage of the Welfare Reform Act the weakening of affirmative action and the approval of educational vouchers for private schooling At the same time new rules on congressional redistricting prohibit legislators from constructing majority black congressional districts and blacks continue to suffer disproportionate rates of incarceration and death penalty sentencing In this significant new study the distinguished political scientist Ronald W Walters argues that the Conservative movement during this period has had an inordinate impact on American governing institutions and that a strong though very often unstated racial hostility drives the public policies put forth by Conservative

politicians Walters traces the emergence of what he calls a new White Nationalism showing how it fuels the Conservative movement invades the public discourse and generates policies that protect the interests of white voters at the expense of blacks and other nonwhites Using historical and contemporary examples of White Nationalist policy as well as empirical public opinion data Walters demonstrates the degree to which this ideology exists among white voters and the negative impact of its policies on the black community White Nationalism Black Interests terms the current period a second Reconstruction comparing the racial dynamics in the post Civil Rights era to those of the first Reconstruction following the end of the Civil War Walters s analysis of contemporary racial politics is uniquely valuable to scholars and lay readers alike and is sure to spark further public debate
