Griffin, 2012-11-12 Underachievement is approached from a broad integrated perspective in this insightful look at the talented adolescent who always performs below his or her optimum level of achievement Professor Griffin examines the psychological social and scholastic reasons behind the phenomenon of the distracted and disengaged high school student The result of this in depth study A unique volume describing effective student learning behavior providing curricular and instructional proposals for motivating underachievers and offering a construct that provides the basis for understanding the various factors that account for academic achievement **Underachievers in Secondary School** Robert S. Griffin, 1988 First Published in 1988 Routledge is an imprint of Taylor Francis an informal company *Transforming Schools* D. G. Mulcahy, 2013-05-01 President Obama has on a number of occasions rejected policies that have been tried and do not work Legislation such as No Child Left Behind and policies such as Race to the Top are neither effective nor based on sound research Educational policy making is now more than ever the preserve of politicians advocacy foundations and lobbyists parading as corporate leaders Teachers have little voice their role is merely to be held responsible for policies foisted upon them In *Transforming Schools Alternative Perspectives on School Reform* our aim is to provide alternative perspectives to the dead end educational policies by which our governments have become consumed We turn the spotlight on a select range of topics that have become the focus of concern and we consider the implications for school improvement These topics include school reform in general the achievement gap literacy standardized assessment social justice and ecojustice aesthetic and moral education and general education The Educated Person Donal G. Mulcahy, 2008 Liberal education has long been a fascination for scholars in a variety of disciplines and is closely associated with the idea of the educated person Seen at one time as a matter for colleges and universities over the years it has become central to the debate surrounding general education in high school and even the earlier grades Yet so many and varied are the uses of the term liberal education that the question arises of whether and how the idea is any longer a useful or helpful construct In what way might it speak helpfully to educational challenges we face today In what ways does it still

speak helpfully to educational challenges we face today In what ways might it be a guide as we search for a better way forward These are the central questions that are addressed in this book In doing so the positions of three theorists John Henry Newman Mortimer J Adler and Jane Roland Martin who have written about liberal education in a compelling way and from different perspectives are selected for close analysis The analysis is built upon to fashion a new ideal of the educated person and a new theory of liberal education Curriculum Leadership Allan A. Reinventing Public Education Paul Hill, Lawrence C. Pierce, James W. Guthrie, 2009-02-15 A heated debate is raging over our nation's public schools and how they should be reformed with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools Combining decades of experience in education the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes Reinventing Public Education shows how contracting would radically change the way

we operate our schools while keeping them public and accessible to all and making them better able to meet standards of achievement and equity Using public funds local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction In a hands on concrete fashion the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice They show how contracting would free local school boards from operating schools so they can focus on improving educational policy how it would allow parents to choose the best school for their children and finally how it would ensure that schools are held accountable and academic standards are met While retaining a strong public role in education contracting enables schools to be more imaginative adaptable and suited to the needs of children and families In presenting an alternative vision for America s schools *Reinventing Public Education* is too important to be ignored
