Jewish Liturgical Reasoning Steven Kepnes,2007-11-01 Liturgy a complex interweaving of word text song and behavior is a central fixture of religious life in the Jewish tradition It is unique in that it is performed and not merely thought Because liturgy is performed by a specific group at a specific time and place it is mutable Thus liturgical reasoning is always new and understandings of liturgical practices are always evolving Liturgy is neither preexisting nor static it is discovered and revealed in every liturgical performance Jewish Liturgical Reasoning is an attempt to articulate the internal patterns of philosophical ethical and theological reasoning that are at work in synagogue liturgies This book discusses the relationship between internal Jewish liturgical reasoning and the variety of external philosophical and theological forms of reasoning that have been developed in modern and post liberal Jewish philosophy Steven Kepnes argues that liturgical reasoning can reorient Jewish philosophy and provide it with new tools new terms of discourse and analysis and a new sensibility for the twenty first century The formal philosophical study of Jewish liturgy began with Moses Mendelssohn and the modern Jewish philosophers Thus the book focuses in its first chapters on the liturgical reasoning of Moses Mendelssohn Hermann Cohen

and Franz Rosenzweig However it attempts to augment and further develop the liturgical reasoning of these figures with methods of study from Hermeneutics Semiotic theory post liberal theology anthropology and performance theory These newer theories are enlisted to help form a contemporary liturgical reasoning that can respond to such events as the Holocaust the establishment of the State of Israel and interfaith dialogue between Jews Christians and Muslims *The American and English Encyclopædia of Law: Take to Tickets and fares* ,1894 **Exegetical Dictionary of the New Testament, Vol. 1** horst Balz, Gerhard M. Schneider, 2004-01-14 The English translation of the three volume Exegetisches Wörterbuch zum Neuen Testament this monumental work by an ecumenical group of scholars is first of all a complete English dictionary of New Testament Greek Going beyond that however EDNT also serves as a guide to the usage of every New Testament word in its various contexts and it makes a significant contribution to New Testament exegesis and theology EDNT's thorough lengthy discussions of more significant words and its grouping of words related by root and meaning with alphabetical cross references distinguish it from simpler Greek English lexicons Advancing the discussion of the Theological Dictionary of the Old Testament EDNT summarizes more recent treatments of numerous questions in New Testament study and takes into consideration newer viewpoints of linguistics
