Rediscovering S P Rolt Triscott:

Rediscovering S. P. Rolt Triscott Richard H. Malone, Earle G. Shettleworth (Jr.), 2002 In 1902 esteemed watercolorist Samuel Peter Rolt Triscott 1846 1925 enamored with Monhegan's beauty and remoteness became the first artist to live there year round painting watercolors and oils and producing hand tinted photographs [Art, Ecology, and the Resilience of a Maine Island](#) Barry A. Logan, Jennifer Pye, Frank H. Goodyear III, 2024-09-03 A richly illustrated catalogue of visual art recording the changing ecology of Monhegan Island a renowned artist destination off the coast of Maine With its rugged shoreline magnificent Cathedral Woods and rustic cedar shingled homes Monhegan Island is quintessential Maine This historic fishing village situated 10 miles off the coast has long been a haven for artists drawn to the splendor of its ocean vistas and picturesque wildlands and for ecologists fascinated by its complex natural history Merging art science and history this book explores the broad arc of ecological events on the island the formation and abandonment of pastureland forest recovery and the critical importance of land conservation through their representation in visual art Indeed for well over a century painters photographers printmakers and cartographers alike have observed and depicted this dynamic landscape Inspired by a Rockwell Kent painting of white spruce saplings set against blue sea and golden sky biologist Barry Logan recognized that the island's ecology could be traced through its artistic depictions across the ages This collaboration between Logan and Monhegan historian Jennifer Pye and art historian Frank Goodyear yields a new and unprecedented survey of the art of the island through the lens of ecology This story of Monhegan parallels that of other land conservation efforts throughout the country yet it is one uniquely well told by island artists ecologists historians and community members

Winslow Homer and the Camera Frank H. Goodyear III, Dana E. Byrd, 2018-01-01 A revelatory exploration of Winslow Homer's engagement with photography shedding new light on his celebrated paintings and works on paper One of the greatest American painters of the 19th century Winslow Homer 1836 1910 also maintained a deep engagement with photography throughout his career Focusing on the important yet often overlooked role that photography played in Homer's art this volume exposes Homer's own experiments with the camera he first bought one in 1882 It also explores how the medium of photography and the larger visual economy influenced his work as a painter watercolorist and printmaker at a moment when new print technologies inundated the public with images Frank Goodyear and Dana Byrd demonstrate that photography offered Homer new ways of seeing and representing the world from his early commercial engravings sourced from contemporary photographs to the complex relationship between his late career paintings of life in the Bahamas Florida and Cuba and the emergent trend of tourist photography The authors argue that Homer's understanding of the camera's ability to create an image that is simultaneously accurate and capable of deception was vitally important to his artistic practice in all media Richly illustrated and full of exciting new discoveries *Winslow Homer and the Camera* is a long overdue examination of the ways in which photography shaped the vision of one of America's most original painters [Children's](#)
