The Multiformity of Man Eugen Rosenstock-Huessy, 2013-04-08 Endorsements The historical nature of man is the aspect of reality about which we have been basically and emphatically instructed in the epoch of thought beginning with Hegel Rosenstock Huessy has concretized this teaching in so living a way as no other teacher before him has done Martin Buber Rosenstock Huessy continually astonishes one by his dazzling and unique insights WH Auden He was a thinker of startling power and originality in my view an authentic genius of whom no age produces more than a handful Page Smith Rosenstock Huessy's is a powerful and original mind What is most important in his work is the understanding of the relevance of traditional value to a civilization still undergoing revolutionary transformations and this contribution will gain rather than lose significance in the future Lewis Mumford About the Contributor's Eugen Rosenstock Huessy 1888 1973 was a sociologist and social philosopher who along with his close friend Franz Rosenzweig and Ferdinand Ebner and Martin Buber was a major exponent of speech thinking or dialogicism The central insight of speech thinking is that speech or language is not merely or even primarily a descriptive act but a responsive and creative act which is the basis of our social existence The greater part of Rosenstock Huessy's work was devoted to demonstrating how speech language through its unpredictable fecundity expands our powers and through its inescapably historical forming character also binds them Born in Berlin Germany into a non observant Jewish family he converted to Christianity in his late teens He met and married Margrit Hussy in 1914 Rosenstock Huessy served as an officer in the German army during World War I He then pursued an academic career in Germany as a specialist in medieval law which was disrupted by the rise of Nazism In 1933 after Adolf Hitler

became Chancellor of Germany he immigrated to the United States where he began a new academic career initially at Harvard University and then at Dartmouth College where he taught from 1935 to 1957 *The Legacy of the Ancient World* William George De Burgh,1924 **A History of The New Thought Movement** Horatio W.
