Reducing Suicide A National Imperative:

Reducing Suicide Institute of Medicine, Board on Neuroscience and Behavioral Health, Committee on Pathophysiology and Prevention of Adolescent and Adult Suicide, 2002-10-01 Every year about 30 000 people die by suicide in the U S and some 650 000 receive emergency treatment after a suicide attempt Often those most at risk are the least able to access professional help Reducing Suicide provides a blueprint for addressing this tragic and costly problem how we can build an appropriate infrastructure conduct needed research and improve our ability to recognize suicide risk and effectively intervene Rich in data the book also strikes an intensely personal chord featuring compelling quotes about people s experience with suicide The book explores the factors that raise a person s risk of suicide psychological and biological factors including substance abuse the link between childhood trauma and later suicide and the impact of family life economic status religion and other social and cultural conditions The authors review the effectiveness of existing interventions including mental health practitioners ability to assess suicide risk among patients They present lessons learned from the Air Force suicide prevention program and other prevention initiatives And they identify barriers to effective research and treatment This new volume will be of special interest to policy makers administrators researchers practitioners and journalists working in the field of mental health **Reducing Suicide**, 2002 **Cognitive Behavioral Therapy for Preventing Suicide Attempts**

Craig J. Bryan, 2015-02-11 Cognitive Behavioral Therapy for Preventing Suicide Attempts consolidates the accumulated knowledge and efforts of leading suicide researchers and describes how a common cognitive behavioral model of suicide has resulted in 50% or greater reductions in suicide attempts across clinical settings Simple and straightforward descriptions of these techniques are provided along with clear explanations of the interventions rationale and scientific support Critically specific adaptations of these interventions designed to meet the demands and needs of diverse settings and populations are explained The result is a practical clinician friendly how to guide that demonstrates how to effectively reduce the risk for suicide attempts in any setting Evidence-Based Practice in Suicidology Maurizio Pompili, Roberto Tatarelli, 2010-12-01 An innovative and long overdue book by the world s leading researchers and practitioners describing what really works in suicide prevention the evidence for particular approaches where the gaps are in our knowledge and how we can fill them Suicide rat SAMHSA News, 2002 **Suicide Among Racial and Ethnic Minority Groups** Frederick T.L. Leong, Mark M. Leach, 2010-04-15 Suicide is increasingly understood and predicted as an intersection of biological psychological cognitive and sociocultural factors We have some basic knowledge of these factors and how they interact but presently we know very little about how culture can play a role as a variable that influences suicide Suicide Among Racial and Ethnic Minority Groups will go a long way towards filling that gap by pulling together cutting edge empirical research from general cultural diversity literature and applying it to suicide assessment treatment and prevention theory and practice By looking outside of the limited cross cultural studies done within suicidal populations the contributors all established

experts in both multicultural counseling and suicidology expand the available empirical literature base in order to provide a deeper look into how culture can act as an important catalyst in suicidal intentions Following theoretical overviews the text focuses on six broad ethnic groups classified in the literature African American American Indian Asian American European American Hawaiian Pacific Islander and Hispanic with a main chapter devoted to each relating each culture to suicide research highlighting specific variables within the culture that can influence suicide and presenting appropriate treatment considerations A final section of the book consists of practical applications within specific settings therapy outreach schools psychiatric services and prevention and training issues

A Culture of Caring Theodora Schiro, 2020-02-20 As awareness grows about the alarming increase in youth suicide rates school leaders need information on suicide prevention and postvention Tragically the search often begins only after the school community has suffered the loss of a student Schools must start to be proactive and educate themselves about risk factors and prevention strategies Designed as a handbook for busy educators A Culture of Caring A Suicide Prevention Guide for Schools K 12 includes information about prevention intervention and postvention along with commentary from experts in the field Each chapter stands alone and does not have to be read in sequence Resources and descriptions of programs relevant to each chapter are organized by topic School leaders counselors and teachers can use the information to create their own plans or just glance through it to get ideas With this book any school community that takes suicide prevention seriously will have access the knowledge tools and resources to save lives

Suicide in Psychiatric Disorders Roberto Tatarelli, Maurizio Pompili, Paolo Girardi, 2007 The main purpose of this book is to provide the first comprehensive analysis of suicide in psychiatric patients 95 per cent of those who commit suicide had a psychiatric disorder and yet suicide is rarely investigated in psychiatric patients The book provides a relevant contribution to the prediction and prevention of suicide This is a first book devoted to the subject with comprehensive chapters including epidemiology risk factors preventive strategies and available treatments

Firearms and Violence National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee to Improve Research Information and Data on Firearms, 2005-01-13 For years proposals for gun control and the ownership of firearms have been among the most contentious issues in American politics For public authorities to make reasonable decisions on these matters they must take into account facts about the relationship between guns and violence as well as conflicting constitutional claims and divided public opinion In performing these tasks legislators need adequate data and research to judge both the effects of firearms on violence and the effects of different violence control policies Readers of the research literature on firearms may sometimes find themselves unable to distinguish scholarship from advocacy Given the importance of this issue there is a pressing need for a clear and unbiased assessment of the existing portfolio of data and research Firearms and Violence uses conventional standards of science to examine three major themes firearms and violence the quality of research and the quality of data available The book assesses the strengths and limitations

of current databases examining current research studies on firearm use and the efforts to reduce unjustified firearm use and suggests ways in which they can be improved

Treating and Preventing Adolescent Mental Health Disorders Dwight L. Evans, Edna B. Foa, Raquel E. Gur, Herbert Hendin, Charles P. O'Brien, Daniel Romer, Martin E.P. Seligman, B. Timothy Walsh, 2017-07-12 Sponsored by the Adolescent Mental Health Initiative of the Annenberg Public Policy Center APPC of the University of Pennsylvania and the Annenberg Foundation Trust at Sunnyslands Trust

Treating and Preventing Adolescent Mental Health Disorders Second Edition provides a major update since the first edition in 2005. It addresses the current state of knowledge about the major mental health disorders that emerge during adolescence including updated DSM 5 diagnostic criteria. Here six commissions established by the APPC and the Sunnyslands Trust pool their expertise on adolescent anxiety, schizophrenia, substance use disorders, depression, and bipolar disorders, eating disorders, and suicidal behavior in sections that thoroughly define each disorder, outline and assess available treatments, discuss prevention strategies, and suggest a research agenda based on what we know and don't yet know about these various conditions. Two additional behavioral disorders, gambling and internet addiction, are covered in this second edition. As a meaningful counterpoint to its primary focus on mental illness, the volume also incorporates the latest research from a seventh commission on positive youth development, which addresses how we can fully prepare young people to be happy and successful throughout their lives. Concluding chapters discuss overarching issues regarding the behavioral and mental health of adolescents, overcoming the stigma of mental illness, the research policy and practice context for the delivery of evidence-based treatments, and the development of a more robust agenda to advance adolescent health. Integrating the work of eminent scholars in both psychology and psychiatry, this work will be an essential volume for academics and practicing clinicians and will serve as a wake-up call to mental health professionals and policy makers alike about the state of our nation's response to the needs of adolescents with mental disorders.

November of the Soul George Howe Colt, 2006-02-21 Written with the same graceful narrative voice that made his bestselling National Book Award finalist *The Big House* such a success, George Howe Colt's *November of the Soul* is a compassionate, compelling, thought-provoking, and exhaustive investigation into the subject of suicide. Drawing on hundreds of in-depth interviews and a fascinating survey of current knowledge, Colt provides moving case studies to offer insight into all aspects of suicide: its cultural history, the latest biological and psychological research, the possibilities of prevention, the complexities of the right to die movement, and the effects on suicide's survivors. Presented with deep compassion and humanity, *November of the Soul* is an invaluable contribution not only to our understanding of suicide but also of the human condition.
