Several approaches to studying religion will be discussed: exclusivism, inclusivism, pluralism, and empathetic interest in other people. Exclusivism is the belief that only one religion is true and all the others are false (Wood, 2021). Exclusivism aims to exclude foreign and alien elements that invade it from its religion to preserve certain principles of its faith in purity. Inclusivism is the reverse of exclusivism, which is the ability of one religious tradition to include and adapt foreign myths, cults, and even deities of other religions (Wood, 2021). Pluralism is a state of the religious situation in society in which there is a coexistence of many religious associations of different faiths, independent of each other, separated from the state, and equal before the law. Empathy implies understanding and emotional insight into the shape of another person (Wood, 2021). Empathic interest in other people in religion includes a tolerant attitude towards other faiths.

In everyday life, I use the approach of empathic interest because I believe that there is no main religion in the world and that everyone has the right to believe in what they want. Each religion is good in its way, so it is necessary to treat different faiths with respect and tolerance. Every religion has its unique history that needs to be preserved and multiplied, so I treat any religion from the point of view of empathy.

I have a friend who uses an exclusivist approach when it comes to religion. Given our different methods, I would treat his point of view with understanding and patience since he has the right to such an approach. I believe that the academic study of religion should not require me to adjust my approach if I attend college classes on religious traditions. I can study various methods for the academic study of religion and find something interesting for myself in each of them. Still, I should not change my beliefs because of this.

intellectual life of the continent Reviews have been provided by a team of more than one hundred contributors drawn from throughout Africa and overseas The books and other media selected for review represent a broad cross section of interests and issues of personalities and interpretations including the secular as well as the religious The collection will be of special interest to academic scholars theological educators libraries ministry leaders and specialist researchers in Africa and throughout the world but will also engage any reader looking for a convenient resource relating to modern Africa and Christian presence there

Comparative Hagiology Massimo Rondolino,2020-12-10 This Special Issue engages with questions of theory and methods in the comparative cross cultural study of hagiographical sources As such it offers first and foremost the venue for conducting a scientific discussion on a re definition of hagiography It also allows for the identification of shared approaches and methodologies in the study of material that may be apprehended through this categorization as an effective strategy for the study of religious phenomena To achieve this the present volume brings together a selected number of scholars whose work focuses on the theoretical study of hagiography and the historical examination of hagiographical sources In this Special Issue five core essays put forward propositions for the comparative and cross cultural re definition of hagiography to which further contributors respond eventually providing a vibrant collaborative debate on a core theoretical and methodological issue in religious studies at large

Teaching Religion and Violence Brian K. Pennington,2012-05-24 Teaching Religion and Violence is designed to help instructors to equip students to think critically about religious violence particularly in the multicultural classroom

The Learned Practice of Religion in the Modern University Donald Wiebe,2019-11-14 In these essays Donald Wiebe unveils a significant problem in the academic study of religion in colleges and universities in North America and Europe that studies almost always exhibit a religious bias To explore this issue Wiebe looks at the religious and moral agendas behind the study of religion showing that the boundaries between the objective study of religion and religious education as a tool for bettering society have become blurred As a result he argues religious studies departments have fostered an environment where religion has become a learned or scholarly practice rather than the object of academic scrutiny This book provides a critical history of the failure of 20th and 21st century scholars to follow through on the 19th century ideal of an objective scientific study of religious thought and behaviour Although emancipated from direct ecclesiastical control and to some extent from sectarian theologizing Wiebe argues that research and scholarship in the academic department of religious studies has failed to break free from religious constraints He shows that an objective scientific study of religious thought and practice is not only possible but the only appropriate approach to the study of religious phenomena

Ireland and the Reception of the Bible Bradford A. Anderson,Jonathan Kearney,2018-04-19 Drawing on the work of leading figures in biblical religious historical and cultural studies in Ireland and beyond this volume explores the reception of the Bible in Ireland focusing on the social and cultural dimensions of such use of the Bible This includes the transmission of the Bible the Bible and identity formation engagement beyond Ireland and cultural and artistic

appropriation of the Bible The chapters collected here are particularly useful and insightful for those researching the use and reception of the Bible as well as those with broader interests in social and cultural dimensions of Irish history and Irish studies The chapters challenge the perception in the minds of many that the Bible is a static book with a fixed place in the world that can be relegated to ecclesial contexts and perhaps academic study Rather as this book shows the role of the Bible in the world is much more complex Nowhere is this clearer than in Ireland with its rich and complex religious cultural and social history This volume examines these very issues highlighting the varied ways in which the Bible has impacted Irish life and society as well as the ways in which the cultural specificity of Ireland has impacted the use and development of the Bible both in Ireland and further afield

The Routledge Handbook of Translation and Religion Hephzibah Israel, 2022-12-19 The Routledge Handbook of Translation and Religion is the first to bring together an extensive interdisciplinary engagement with the multiple ways in which the concepts and practices of translation and religion intersect The book engages a number of scholarly disciplines in conversation with each other including the study of translation and interpreting religion philosophy anthropology history art history and area studies A range of leading and emerging international specialists critically engage with changing understandings of the key categories translation and religion as discursive constructs thus contributing to the development of a new field of academic study translation and religion The 28 contributions divided into six parts analyze how translation constructs ideas texts or objects as sacred or for religious purposes often in competition with what is categorized as non religious The part played by faith communities is treated as integral to analyses of the role of translation and religion It investigates how or why translation functions in re constructing and transforming religion s and for whom and examines a range of sacred texts in translation from the written to the spoken manuscript to print paper to digital architectural form to objects of sacred art intersemiotic scriptural texts and where commentary exegesis and translation interweave This Handbook is an indispensable scholarly resource for researchers in translation studies and the study of religions
