Reflection of Human Behaviour , Reflections on Human Inquiry Nirmalangshu Mukherji, 2017-10-30 This original volume examines forms and limits of human inquiry from a largely sceptical point of view Human beings are endowed with cognitive agency Our grasp of the world and of ourselves are not merely responses to external stimuli they are reflective products of human inquiry At one point in human history it was thought that modern science especially theoretical physics is the paradigm of human inquiry Where does this form of inquiry significantly apply Are there limits on its claims of truth and objectivity How much of the vast canvas of human experience does it cover Where do other forms of inquiry such as philosophy religion and the arts attain their salience With the emergence of the scientific study of the human mind itself these critical questions have taken a more intriguing form in recent decades Can human inquiry investigate its own nature Can the scientific theory of language explain the richness of human expression Can a science of the mind account for human experience These probing questions on the scientific enterprise are usually addressed from the outside as it were by humanists and critical theorists In these essays they are examined from the inside by a philosopher whose primary academic work concerns the study of the human linguistic mind In that sense the sceptical inquiry turns on itself *Ageless Soul* Thomas Moore, 2017-10-10 *Ageless Soul* will teach readers how to embrace the richness of experience and how to take life on accept invitations to new vitality and feel fulfilled as they get older Thomas Moore is the renowned author of *Care of the Soul* the classic 1 New York Times bestseller In *Ageless Soul* Moore reveals a fresh optimistic and rewarding path toward aging one that need not be feared but rather embraced and cherished In Moore's view aging is the process by which one becomes a more distinctive complex fulfilled loving and connected person Using examples from his practice as a psychotherapist and teacher who lectures widely on the soul of medicine and spirituality Moore argues for a new vision of aging as a dramatic series of initiations rather than a diminishing experience one that each of us has the tools experience maturity fulfillment to live out Subjects include Why melancholy is a natural part of aging and how to accept it rather than confuse it with depression The vital role of the elder and mentor in the lives of younger people The many paths of spiritual growth and learning that open later in life Sex and sensuality Building new communities and leaving a legacy *Serious reflections during the life and surprising adventures of Robinson Crusoe with his vision of the Angelic world* Daniel Defoe, Howard
