History, Fiction, and Germany Brent Orlyn Peterson, 2005. A study of the content development and transmission of German identity during the nineteenth century as Germany's national narrative took shape in historical fiction and in both popular and academic history. The German speaking inhabitants of central Europe did not automatically think of themselves as Germans not before 1871 and not always after unification. In fact they spoke mutually incomprehensible dialects owed allegiance to different leaders worshiped in different churches and would not have recognized each other's customs. If asked about their identity these prospective Germans might have answered Austrian Bavarian or Prussian and they could as easily have used more local labels or resorted to occupational markers. For this disparate population to think of itself as German that word had to acquire content people had to learn a whole set of stories they could tell themselves and to others in answer to the question of identity. *History Fiction and Germany* chronicles how German nationalism developed simultaneously with the historical novel and the field of history both at universities and in middlebrow reading material. The book examines Germany's emerging national narrative as nineteenth century writers adapted it to their own visions and to changing circumstances. These writers found and popularized the nation's heroes and heroines demonized its villains and enemies and projected the nation's hopes and dreams for the future. Author Brent O Peterson argues that it was the production and consumption of national history the writing and reading of the nation that filled Germany with Germans. Although the task of national narration was never complete and never produced a single universally accepted version of German national identity tales from Germans gradually shared history did more to create Germany than any statesman general or philosopher. *History Fiction and Germany* provides a valuable resource for scholars and students of German studies as well as anyone interested in history and the articulation of national identity.

All is True Lilian R. Furst, 1995. All is true realist writers would say of their work to which critics now respond All is art and artifice. Offering a new approach to reading nineteenth century realist fiction Lilian R Furst seeks to reconcile these contradictory claims. In doing so she clarifies the deceptions appropriations intentions and ultimately the power of literary realism. In close

textual analyses of works ranging across European and American literature including paradigmatic texts by Balzac Flaubert George Eliot Zola Henry James and Thomas Mann Furst shows how the handling of time the presentation of place and certain narrational strategies have served the realists claim She demonstrates how readers today like those a hundred years ago are convinced of the authenticity of the created illusion by such means as framing voice perspective and the slippage from metonymy to metaphor Further Furst reveals the pains the realists took to conceal these devices and thus to protect their claim to be employing a simple form Taking into account both the claims and the covert strategies of these writers All Is True puts forward an alternative to the conventional polarized reading of the realist text which emerges here as neither strictly an imitation of an extraneous model nor simply a web of words but a brilliantly complex imbrication of the two A major statement on one of the most enduring forms in cultural history this book promises to alter not only our view of realist fiction but our understanding of how we read it **Philosophy and German Literature, 1700-1990** Nicholas Saul, 2002-05-02

Although the importance of the interplay of literature and philosophy in Germany has often been examined within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole *Philosophy and German Literature 1700 1990* offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy's ken **Beyond epic simplicity : the intersection of literature, philosophy and science in Musil's *Man Without Qualities*** Todd Curtis Kontje, *The Chain of Things* Eric Downing, 2018-04-15 Shows how the connection between divinatory magic and reading shaped the experience of reading and aesthetics among nineteenth century realists and modernist thinkers including writers artists and critics such as Gottfried Keller Theodor Fontane and Walter Benjamin *Black Devil and Iron Angel* Paul A. Youngman, 2005-11 Using Theodor Adorno and Max Horkheimer's seminal work on the dialectical nature of the Enlightenment as a framework Youngman makes the original claim that realist authors are a particularly rich source in which to study the intersection of technology and mythology *The Truth of Realism* John Walker, 2017-12-02 In his new book Walker offers a radical reassessment of the German realist novel in the nineteenth century Especially in the English speaking world German narrative realism has persistently been interpreted as the literary expression of an ideology of the aesthetic The German realist novel is alleged to reflect philosophical idealism to reject the prose of modern society in favour of the poetry of the inner aesthetic life This book challenges that received view Walker argues that German narrative realism should be read not only in relation to but in crucial respects against the dominant philosophical idiom of nineteenth century Germany German narrative realism often functions as a critique of the idea and ideology of inwardness in nineteenth century German culture To understand this the

author argues we must reread German realist novels above all as narratives not as the supposed reflection of philosophical categories The core of the book is therefore the close reading of eight of the best known realist novels in German by Keller Raabe and Fontane This reading shows how the German realist novel far from transposing the assumptions of aesthetic idealism into narrative form exposes the real consequences of those assumptions in the culture and society of its time John Walker is Head of the School of Languages Linguistics and Culture at Birkbeck University of London
