who benefit from America's educational, economic, and racial inequities. These young people grow up to wield disproportionate power and influence yet emerge undereducated and poorly prepared to navigate let alone shape our increasingly diverse country. David Nirenberg weaves together narrative from his twenty years of suburban teaching with relevant research in education and critical race theory to provide practical hands-on strategies for educators dealing with challenges unique to high-powered suburban, urban, and independent schools: affluent myopia, white fragility, the empathy gap, overinvolved parents, overcautious administrators, and an if it isn't broke don't fix it mentality. Despite high test scores and college acceptances, many schools serving affluent white students are indeed broken. Social justice education for privileged white students is not only critical for our society but also for helping those students themselves emerge from a culture of anxiety and cynicism to find meaning, purpose, and self-confidence as activist allies. **Resources in Education**, 1993

Searching for the Ideal School around the World Alys Mendus, 2021-12-13 Through this book, the author shares the nomadology of Alys as she searches for the Ideal School. Fed up with the System, traditional mainstream education directed by neoliberalism and high-stakes testing, Alys travelled to over 180 places of learning, schools in 23 countries that were educating differently. Through performative autoethnographic work, the author shares these embodied experiences in poems, vignettes, journaling, and ethnodrama. Alys realised that the Ideal School is an oxymoron and she argues that schools and schooling, even within innovative education, are not the future for learning. By developing the edge of education and sharing stories from the gems that currently exist in places of learning, schools, there is the potentiality and hope for a paradigm shift. The book encourages everyone to become School Tourists themselves. Performing School Tourism is a mediation between creativity, arts, learning, and teaching, leading to change as it helps shape the identity of those performing School Tourism and allows them to add these new experiences and understandings of the possibilities for education to the Earth, to the collective consciousness of the world. Read this book to follow Alys' journey as they share stories and trouble different innovative pedagogies including Steiner, Waldorf, Progressive, Democratic, and Montessori. The reader can choose their own adventure following the rhizomatic multiple voices of Alys. *School Nursing* Janice Selekmán, Robin Adair Shannon, Catherine F Yonkaitis, 2019-07-01 Produced in cooperation with the National Association of School Nurses, this text includes comprehensive coverage of the multiple facets of school nursing, from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral issues to legal issues and leading and managing within school settings. Written and edited by school nurses and pediatric experts, it features real-world tested best practices based on evidence and experience. There's content here that you won't find in other books, such as health assessments, individualized health plan development, mental health conditions including adolescent depression, contemporary legal issues, and current policy statements essential to school nursing. **Salvaging Empire** James J. A. Blair, 2023-08-15 *Salvaging Empire* probes the historical roots and current predicaments of a twenty-first-century settler colony seeking to control an

uncertain future through resource management and environmental science Four decades after a violent 1982 war between the United Kingdom and Argentina reestablished British authority over the Falkland Islands Las Malvinas in Spanish a commercial fishing boom and offshore oil discoveries have intensified the sovereignty dispute over the South Atlantic archipelago Scholarly literature on the South Atlantic focuses primarily on military history of the 1982 conflict However contested claims over natural resources have now made this disputed territory a critical site for examining the wider relationship between imperial sovereignty and environmental governance James J A Blair argues that by claiming self determination and consenting to British sovereignty the Falkland Islanders have crafted a settler colonial protectorate to extract resources and extend empire in the South Atlantic Responding to current debates in environmental anthropology critical geography Atlantic history political ecology and science and technology studies Blair describes how settlers have asserted indigeneity in dynamic relation with the environment Salvaging Empire uncovers the South Atlantic s outsized importance for understanding the broader implications of resource management and environmental science for the geopolitics of empire
