**Fictional Worlds and Philosophical Reflection** Garry Hagberg,2022-01-31 This edited collection investigates the

kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share

are mutually imbricated while also recognizing the sheer commemorative dominance of 9 11 in this century Attending to broader debates and discourses through which commemoration is always filtered and the ways interpretive consensus has been sought and articulated in both musical and other memorial forms Moore probes the conventional claims of commemoration particularly those for the necessity of remembrance to healing and the prevention of future crises Audible Loss concludes by reflecting on the limits of existing commemorative forms and the possibility even necessity of new ones Taking the COVID 19 pandemic as a case study it proposes that while memorials of all kinds may provide outlets for collective remembrance and even mourning their power to forge a sense of collectivity is diminished as public discourse grows more fragmented Deeply informed yet highly approachable Audible Loss is a major contribution to the fields of music and memory studies and essential reading for anyone interested in memory culture in the United States today
