

A woman with dark hair pulled back is shown in profile, looking out from a large, ornate doorway. She is wearing a sleeveless, form-fitting dress with a shimmering, iridescent pattern. The doorway has a gold-colored frame with intricate carvings. Through the doorway, a classical building with columns and arches is visible under a clear blue sky.

The prevailing understanding of technology tends to focus either on its functional or instrumental value or on its expressive qualities as a matter of representation Pauline van Dongen argues for the need to reframe the role of technology in fashion examining how wearables garments that combine electronics and digital materials with textiles can become integral to fashion's everyday reality Her own practice as a fashion designer is informed by the concept of material aesthetics In this book she explores perspectives as a design researcher engaged in a reflective analysis of processes and outcomes and discusses work created in the context of her design studio *A Reflection Through Fashion Upcycling* Rachael Cassar, 2025-11-19

A Reflection Through Fashion Upcycling The Archive in Pieces stands as a seminal work at the intersection of fashion studies material culture and sustainability discourse Authored by a distinguished award winning practitioner this groundbreaking text offers a richly detailed examination of fashion upcycling through a historical and material culture lens At its core the book transcends the traditional confines of sustainable fashion discourse by delving into the profound complexities of reuse and material culture Drawing from a curated archive of garments dating from the late 19th to early 20th centuries it traces the symbolic and tactile journey of deconstructing clothing and repurposing through contemporary design The book's originality lies in its synthesis of academic research and studio practice positioning fashion upcycling as an intellectual and ethical act By re contextualising garments through experimental design it offers fresh insight into the potential of upcycling as a means of historical preservation critical inquiry and cultural storytelling The author combines rigorous scholarship studio based experimentation and intimate engagement with historical artefacts to uncover layered narratives embedded within textiles By challenging narrow interpretations of sustainable fashion the work presents upcycling as a nuanced dialogue between past and present ethics and aesthetics and materiality and meaning Through its interdisciplinary approach and meticulous scholarship it charts a path towards a more considered sustainable and conscientious future for the fashion industry Bridging design history practice and ecological awareness *A Reflection Through Fashion Upcycling* offers a rigorous yet accessible examination of fashion upcycling as a site of intellectual inquiry and ethical engagement making it essential reading for scholars researchers and practitioners alike and perfect for fashion enthusiasts and anyone intrigued by stories woven into fabric **Fashion under Fascism** Eugenia Paulicelli, 2025-01-09

Looking at the dark history of Italian fashion by focusing on the impact of 1930s Fascism this is the second edition of Eugenia Paulicelli's classic text *In Fashion under Fascism*. Paulicelli explores the subtle yet sinister changes to the seemingly innocuous practices of everyday dress and shows why they were such a concern for the state. Importantly she also demonstrates how these developments impacted on the global dominance of Italian fashion today. Alongside interviews with major designers such as Fernanda Gattinoni and Micol Fontana this newly expanded revised edition includes updated material on gender and masculinity the role of uniforms in standardizing individuality race and colonial Italy and the reception of 1930s cinema. It sheds new light on the complicated relationship between style and politics and is an essential read for all those interested in the history of fashion politics national identity and the culture of fascism.

Psychoanalytic Reflections on a Changing World Halina Brunning, 2018-05-08 This book analyses a range of ubiquitous phenomena that make up our daily lives and to ask not so much whether psychoanalytic thinking can add to our existing understanding of these phenomena but what it can add. It deals with work issues independently of each other.

The Glass of Fashion; Some Social Reflections Harold Begbie, 2012-08-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy.
