Hull, 2000-01-01 What was it like to be a woman when England was ruled by a queen but women had almost no legal power When marriage cost women their property rights When the ideal woman was rarely seen and never heard in public In other words what was it like to be a woman in England between 1525 and 1675 Suzanne Hull in *Women According to Men* answers these questions and more taking fascinating look at how women were described and prescribed to act by men during that time Hull the first woman ever appointed as a Principal Officer at the Huntington Library as well as the author of *Chaste Silent and Obedient* uses her years of experience researching 16th and 17th century texts to provide you with an authentic look at the state of women during the Elizabethan era Through an examination of texts written during that time about and for women Hull elucidates what the rules for women were then as well as discussing health habits household remedies theories on conception the care of children the making of food fashion and more      *The Multidisciplinary Pain Center* Jawahar N. Ghia, 2012-12-06 The pain center clinic is in the stage of transition It has come a long way since chronic pain was a nonexistent entity and patients with difficult pain problems did not receive well deserved attention or were lost in the busy practices of various specialty clinics Thirty five years ahead of the rest of us John Bonica was the first physician who had a clear vision of a pain center's potential Twenty years later in response to loud public demands for relief of chronic pain this idea was put into practice by a number of others on a somewhat larger scale A team of specialists from various disciplines trained in the management of chronic pain now offer approaches ranging from simple outpatient care to inpatient hospitalization for comprehensive care including drug detoxification behavior modification and total rehabilitation of these patients Hospitals have entered this arena with renewed enthusiasm The pain center clinic is now an established accepted and expanding method of providing care for chronic pain patients The chapters in this book are based on examples of multidisciplinary projects that deal comprehensively with management of chronic pain Aimed primarily at the pain center clinic in the university hospital setting

this book ranges from his torical perspectives to current pain centers with their less orthodox methods of re lieving chronic pain to the future of algology as a specialty      Craniofacial Anomalies James T.
