contemporary politics the vocal construction of gender and the politics of preservation **Governing Access to Essential**

Resources Katharina Pistor, Olivier De Schutter, 2015-12-08 Essential resources do more than satisfy people's needs. They ensure a dignified existence. Since the competition for essential resources, particularly fresh water and arable land, is increasing and standard legal institutions such as property rights and national border controls are strangling access to resources for some while delivering prosperity to others, many are searching for ways to ensure their fair distribution. This book argues that the division of essential resources ought to be governed by a combination of Voice and Reflexivity. Voice is the ability of social groups to choose the rules by which they are governed. Reflexivity is the opportunity to question one's own preferences in light of competing claims and to accommodate them in a collective learning process. Having investigated the allocation of essential resources in places as varied as Cambodia, China, India, Kenya, Laos, Morocco, Nepal, the arid American West, and peri-urban areas in West Africa, the contributors to this volume largely concur with the viability of this policy and normative framework. Drawing on their expertise in law, environmental studies, anthropology, history, political science, and economics, they weigh the potential of Voice and Reflexivity against such alternatives as pricing mechanisms, property rights, common resource management, political might, or brute force. Linguistic Ethnography Fiona

Copland, Angela Creese, 2015-01-22 This is an engaging interdisciplinary guide to the unique role of language within ethnography. The book provides a philosophical overview of the field alongside practical support for designing and developing your own ethnographic research. It demonstrates how to build and develop arguments and engages with practical issues such as ethics, transcription, and impact. There are chapter-long case studies based on real research that will explain key themes and help you create and analyse your own linguistic data. Drawing on the authors' experience, they outline the practical epistemological and theoretical decisions that researchers must take when planning and carrying out their studies. Other key features include: A clear introduction to discourse analytic traditions. Tips on how to produce effective field notes. Guidance on how to manage interview and conversational data. Advice on writing linguistic ethnographies for different audiences. Annotated suggestions for further reading. Full glossary. This book is a master class in understanding linguistic ethnography; it will be of interest to anyone conducting field research across the social sciences. **Experience Research Social Change**

Sandra Louise Kirby, Lorraine Greaves, Colleen Reid, 2006-01-01 This is a book that combines solid theoretical background with a step-by-step approach to conducting collaborative research. It is essential reading. Guylaine Demers, Laval University
