Jean Gerson and Gender N. McLoughlin, 2016-01-12 Jean Gerson and Gender examines the deployment of gendered rhetoric by the influential late medieval politically active theologian Jean Gerson 1363 1429 as a means of understanding his reputation for political neutrality the role played by royal women in the French royal court and the rise of the European witch hunts Readers, Texts and Compilers in the Earlier Middle Ages Martin Brett, Kathleen G. Cushing, 2017-05-15 Reflecting the focus but also range of their honorand s work in medieval canon law in the era before Gratian the essays in this volume explore the creation and transmission of canonical texts and the motives of their compilers but also address the issues of how the law was interpreted and used by diverse audiences in the earlier middle ages with especial focus on the eleventh and early twelfth centuries These issues have lain at the heart of Linda Fowler Magerl s distinguished body of scholarly work on judicial ordines and procedural literature on the transmission of canonical texts and their formal sources before Gratian and perhaps most especially her pioneering role in the creation of a database of canon law manuscripts before Gratian now published as *Clavis canonum* Linda Fowler Magerl s work has fundamentally transformed our understanding of canonistic activity in the era before Gratian and its reception across the Church throughout Europe Individually the scholars whose studies are included in this volume offer new viewpoints on several key issues and questions relating to the creation of canonical texts the concerns of their compilers and the transmission of their work as well as the use of such texts by readers with the most various interests in the period As a whole the volume contributes to an understanding of the increasing importance of the written law for a far wider circle than Roman reformers and local advocates These issues are especially highlighted by the editors introduction The Discernment of Spirits Wendy Love Anderson, 2011 Anderson succeeds in neatly fitting together selected pieces of the history of discernment of spirits to provide a valuable readable description of the contours of its evolution in the late Middle Ages Debra L Stoudt Virginia Polytechnic Institute and State University The Medieval Review Late medieval Christians lived in a world of visions but they knew that not all visions came from God angels demons illness nature or passion could also inspire an apparent divine visitation During the thirteenth and fourteenth centuries the involvement of visionaries in everything from reform movements to military campaigns to papal schisms raised the political and spiritual stakes of determining whether or not a vision was truly from God In response a diverse group of medieval thinkers including men and women clergy and laity visionaries and theologians gradually began to transform the loose patristic readings of Pauline *discretio spirituum* into a system with the potential to distinguish between true and false

visions and between genuine and delusional visionaries Wendy Love Anderson chronicles the historical political and spiritual struggles behind the flowering of late medieval mysticism and what came to be seen as the Christian doctrine of discernment of spirits

Bishops and Power in Early Modern England Marcus K. Harmes, 2013-10-24 Armed with pistols and wearing jackboots Bishop Henry Compton rode out in 1688 against his King but in defence of the Church of England and its bishops His actions are a dramatic but telling indication of what was at stake for bishops in early modern England and Compton's action at the height of the Restoration was the culmination of more than a century and a half of religious controversy that engulfed bishops Bishops were among the most important instruments of royal religious national and local authority in seventeenth century England While their actions and ideas trickled down to the lower strata of the population poor opinions of bishops filtered back up finding expression in public forums printed pamphlets and more subversive forms including scurrilous verse and mocking illustrations *Bishops and Power in Early Modern England* explores the role and involvement of bishops at the centre of both government and belief in early modern England It probes the controversial actions and ideas which sparked parliamentary agitation against them demands for religious reform and even war *Bishops and Power in Early Modern England* examines arguments challenging episcopal authority and the counter arguments which stressed the necessity of bishops in England and their status as useful and godly ministers The book argues that episcopal writers constructed an identity as reformed agents of church authority Charting the development of this identity over a hundred and fifty years from the Reformation to the Restoration this book traces the history of early modern England from an original and highly significant perspective This book engages with many aspects of the social political and religious history of early modern England and will therefore be key reading for undergraduates and postgraduates and researchers working in the early modern field and anyone who has an interest in this period of history
