Reform Of Latin American Banking Systems:

Reform of Latin American Banking Systems Joseph Jude Norton, Ernesto Aguirre Carrillo, 2000-02-22 This book discusses current issues affecting the development of banking activities in the Latin American region together with various perspectives on possible reform. It presents a comparative study of several Latin American banking systems and their supervisory bodies and examines the institutional structures put in place following the reforms of the last decade. There is further discussion about the relationship that should exist between regulations and discretionary power when banks face difficulties. These various subjects are explored through national case studies including Brazil, Ecuador, Venezuela, Colombia, Peru, Mexico, Bolivia, Guatemala, Argentina, Costa Rica, and by way of comparison the United States and Canada. In addition, the book covers general discussion of the wider international context. There is comparative study of the structure of supervisory bodies in developed countries and the implications for developing countries and of how recent international trends in banking supervision have been reflected in the experiences of Latin American countries. The authors examine the recent crises experienced by South East Asian financial systems and the ways in which they could impact Latin America. The book also investigates the integration of banking markets at an international level and the harmonisation of different regulatory frameworks. A study of the European Union experience provides a background for the discussion of harmonisation in the MERCOSUR countries.

Tax Systems and Tax Reforms in Latin America Luigi Bernardi, Alberto Barreix, Anna Marenzi, Paola Profeta, 2007-12-24 This book provides a comprehensive analysis of tax systems and tax reforms in a number of Latin American countries since the early 1990s including Argentina and Brazil, Costa Rica and Mexico, Paraguay, Colombia, Chile and Uruguay. The authors present and discuss tax systems from a broad quantitative and historical perspective and describe the mai

Latin American Macroeconomic Reforms José Antonio González, Vittorio Corbo, Anne O. Krueger, Aaron Tornell, 2010-04-15 Hidden behind a number of economic crises in the mid to late 1990s including Argentina's headline grabbing monetary and political upheaval is the fact that Latin American economies have generally speaking improved dramatically in recent years. Their success has been due in large part to macroeconomic reforms and this book brings together prominent economists and policymakers to assess a decade of such policy shifts, highlighting both the many success stories and the areas in which further work is needed. Contributors offer both case studies of individual countries and regional overviews covering monetary, financial and fiscal policy. Contributors also work to identify future concerns and erect clear signposts for future reforms. For instance, now that inflation rates have been stabilized, one suggested second stage monetary reform would be to focus on reducing rates from high to low single digits. Financial sector reforms, it is suggested, should center on improving regulation and supervision. And contributors argue since fiscal stability has already been achieved in most countries, new fiscal reforms need to concentrate on institutionalizing fiscal discipline, improving the efficiency and equity of tax collection and modifying institutional arrangements to deal with increasingly decentralized

federal systems The analysis and commentary in this volume authored not only by academic observers but by key Latin American policymakers with decades of firsthand experience will prove important to anyone with an interest in the future of Latin American s continuing economic development and reform Contributors to this volume Jos Antonio Gonz lez Stanford University Anne O Krueger International Monetary Fund Vittorio Corbo Pontifical Catholic University Chile Klaus Schmidt Hebbel Central Bank of Chile Alejandro Werner Bank of Mexico M rcio G P Garcia Pontifical Catholic University Rio Tatiana Didier World Bank Gustavo H B Franco former president Central Bank of Brazil Francisco Gil D az Minister of the Treasury Mexico Roberto Zahler former governor Central Bank of Chile Ricardo J Caballero Massachusetts Institute of Technology Philip L Brock University of Washington Stephen Haber Stanford University Pablo E Guidotti Universidad Torcuato Di Tella Buenos Aires Vito Tanzi International Monetary Fund Enrique D vila Ministry of Finance Mexico Santiago Levy Mexican Social Security Institute Ricardo Fenochietto private consultant Buenos Aires Rog rio L F Werneck Pontifical Catholic University Rio Carola Pessino Universidad Torcuato di Tella Buenos Aires Michael Michaely Hebrew University of Jerusalem
