## **Reform Of The Papacy:**

**Reform and the papacy in the eleventh century** Kathleen G. Cushing, 2020-01-03 This book explores the relationship between the papacy and reform against the backdrop of social and religious change in later tenth and eleventh century Europe Placing this relationship in the context of the debate about transformation it reverses the recent trend among historians to emphasise the reform developments in the localities at the expense of those being undertaken in Rome It focuses on how the papacy took an increasingly active part in shaping the direction of both its own reform and that of society whose reform became an essential part of realising its objective of a free and independent Church It also addresses the role of the Latin Church in western Europe around the year 1000 the historiography of reform the significance of the Peace of God as a reformist movement the development of the papacy in the eleventh century the changing attitudes towards simony clerical marriage and lay investiture reformist rhetoric aimed at the clergy and how reformist writings sought to change the behaviour and expectations of the aristocracy Summarising current literature while presenting a cogent and nuanced argument about the complex nature and development of reform this book will be invaluable for an undergraduate and specialist audience alike

**The Papal Reform of the Eleventh Century**, 2013-01-01 The eleventh century papal reform transformed western European Church and society and permanently altered the relations of Church and State in the west The reform was inaugurated by Pope Leo IX 1048-54 and given a controversial change of direction by Pope Gregory VII 1073-85 This book contains the earliest biographies of both popes presented here for the first time in English translation with detailed commentaries The biographers of Leo IX were inspired by his universally acknowledged sanctity whereas the biographers of Gregory VII wrote to defend his reputation against the hostility generated by his reforming methods and his conflict with King Henry IV Also included is a translation of Book to a Friend written by Bishop Bonizo of Sutri soon after the death of Gregory VII as well as an extract from the violently anti Gregorian polemic of Bishop Benzo of Alba 1085 and the short biography of Leo IX composed in the papal curia in the 1090s by Bishop Bruno of Segni These fascinating narrative sources bear witness to the startling impact of the papal reform and of the Investiture Contest the conflict of empire and papacy that was one of its consequences An essential collection of translated texts for students of medieval history

**The Reform of the Papacy** John R. Quinn, 2007 Where is the Catholic church going in 2007 and beyond With the ascendancy of a new pope and talk of a papal visit to the U S in 2007 the future of the Catholic church is again on the minds of many In this influential bestseller John R Quinn who served as Archbishop of San Francisco makes a clear and bold case for reform within the Catholic Church particularly of the policies and procedures of the Roman Curia

**Popes and Church Reform in the 11th Century** Herbert Edward John Cowdrey, 2000 The essays in this volume centre upon the epoch making papacy of Gregory VII 1073-85 and complement the author's major study of the pope They look at the formation and expression of Gregory's ideas notably in relation to simony and clerical chastity and emphasise his religious motivation attention is also

given to the impact of his pontificate on the Anglo Norman lands and Scandinavia The book further includes extended discussion of the contrasting figure of Lanfranc Archbishop of Canterbury 1070 89 and of the complex question of the interaction between him and Pope Gregory

*The Medieval Papacy* Brett Whalen,2017-09-16 During the Middle Ages the popes of Rome claimed both spiritual authority and worldly powers vying with emperors for supremacy ruling over the Papal States and legislating the norms of Christian society They also faced profound challenges to their proclaimed primacy over Christendom The Medieval Papacy explores the unique role that the Roman Church and its papal leadership played in the historical development of medieval Europe Brett Edward Whalen pays special attention to the religious intellectual and political significance of the papacy from the first century through to the Reformation in the sixteenth century Ideal for students scholars and general readers alike this approachable survey helps us to understand the origins of an idea and institution that continue to shape our modern world

**The Papacy, Frederick II and Communal Devotion in Medieval Italy** James M. Powell,edited by Edward Peters,2024-10-28 Of the twenty five essays in this volume most were published between 1961 and 2013 but four are printed here for the first time They represent the work of a great and original scholar in Mediterranean history whose unflagging interest in Frederick II and his world consistently led him out into broader fields which he always viewed in original ways In an age often called that of papal monarchy and secular minded rulers Powell found popes with complex agendas and extensive pastoral concerns a rather more Christian Frederick II the human personnel and mechanics of the Fifth Crusade the sermons of the devout urban layman Albertanus of Brescia and Muslims under Christian rule His studies here assert a continuity between the pontificates of Innocent III and Honorius III as well as the pragmatic necessity that only secular rulers could launch and direct crusading expeditions His interest in the northern Italian communes relates their devotional culture to the ideals of virtuous government and communal identity The devotional culture of the communes was to be the subject of his next book now unfinished several parts of it could be rescued and are now included here
