Culture and Identity in Early Modern Europe (1500-1800) Barbara B. Diefendorf, Carla Alison Hesse, 1993 Explores Natalie Zemon Davis's concept of history as a dialogue not only with the past but with other historians *Historical Abstracts*, 2000 The Evangelical Counter-Enlightenment William R. Everdell, 2021-05-21 This contribution to the global history of ideas uses biographical profiles of 18th century contemporaries to find what Salafist and Sufi Islam Evangelical Protestant and Jansenist Catholic Christianity and Hasidic Judaism have in common Such figures include Muhammad Ibn Abd al Wahab Count Nikolaus Zinzendorf Jonathan Edwards John Wesley Jean Jacques Rousseau and Israel Baal Shem Tov The book is a unique and comprehensive study of the conflicted relationship between the evangelical movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter Enlightenment Centered on the 18th century the book reaches back to the third century for precedents and context and forward to the 21st for the legacy of these movements This text appeals to students and researchers in many fields including Philosophy and Religion their histories and World History while also appealing to the interested lay reader **The Necessity of Christ's Satisfaction** Joshua D. Schendel, 2022-10-04 The seventeenth century Reformed Orthodox discussions of the work of Christ and its various doctrinal constitutive elements were rich and multifaceted ranging across biblical and exegetical historical philosophical and theological fields of inquiry Among the most contested questions in these discussions was the question of the necessity of Christ's satisfaction This study sets that great controverted point as Richard Baxter called it in its historical and traditional contexts and provides a philosophical and theological analysis of the arguments offered by two representative Reformed scholastic theologians William Twisse and John Owen **Islam and The English Enlightenment** Zulfiqar Ali Shah, 2022-06-02 Never before to my knowledge has the cross fertilisation of Western and Islamic ideas been so encyclopedically documented as it is here In reading *Islam and the English Enlightenment* you will never see the relationship between Islam and the West in the same way again ROBERT F SHEDINGER Professor of Religion Luther College Dr Zulfiqar Ali Shah's *Islam and the English Enlightenment* is one of the most profoundly enlightening books I have read in years Dr Shah compellingly demonstrates that the thinkers of English Enlightenment were undeniably indebted to Islamic sciences and thought and that the foundational principles of rationalist thought scientific inquiry and religious toleration were deeply anchored in the Islamic tradition KHALED ABOU EL FADL Omar Azmeralda Alfi Distinguished Professor of Law UCLA School of Law This is a book that anyone interested in stepping outside a Eurocentric view of the rise of the West and of the modern age must read MICHAEL A GILLESPIE Professor of Political Science Philosophy Duke University Dr Shah convincingly demonstrates the central role that Islam played in shaping the values and ideas of the Enlightenment reformers such as John Locke and Isaac Newton who had helped to produce the modern world GERALD MACLEAN Emeritus Professor University of Exeter Voices and Books in the English Renaissance Jennifer Richards, 2019 Discusses how literary culture in the

Renaissance was fundamentally oral and studies a variety of literary soundscapes from the schoolroom to the printing house to explore why and how sound was meaningful to Renaissance writers

Decadence, Radicalism, and the Early Modern French Nobility Chad Denton, 2016-12-01 The image of the debauched French aristocrat of the seventeenth and eighteenth centuries is one that still has power over the international public imagination from the unending fascination with the Marquis de Sade to the successes of the film *Ridicule* Drawing on memoirs letters popular songs and pamphlets and political treatises The Enlightened and Depraved Decadence Radicalism and the Early Modern French Nobility traces the origins of this powerful stereotype from between the reign of Louis XIV and the Terror of the French Revolution The decadent and enlightened noble of early modern France the libertine was born in a push to transform the nobility from a warrior caste into an intelligentsia Education itself had become a power through which the privileged could set themselves free from old social and religious restraints However by the late eighteenth century the libertine noble was already falling under attack by changing attitudes toward gender an emphasis on economic utility over courtly service and ironically the very revolutionary forces that the enlightened nobility of the court and Paris helped awaken In the end the libertine nobility would not survive the French Revolution but the basic idea of knowledge as a liberating force would endure in modernity divorced from a single class

Whatever the future may hold for us we have much to learn from our past **A Cultural History of Marriage in the Age of Enlightenment** Edward Behrend-Martínez,2021-11-18 Could an institution as sacred and traditional as marriage undergo a revolution Some people living during the so called Age of Enlightenment thought so By marrying for that selfish personal emotion of love rather than to serve religious or family interests to serve political demands or the demands of the pocketbook a few but growing number of people revolutionized matrimony around the end of the eighteenth century Marriage went from being a sacred state instituted by the Church and involving everyone to for a few intrepid people a secular contract a deal struck between two individuals based entirely on their mutual love and affection Few would claim today that love is not the cornerstone of modern marriage The easiest argument in favor of any marriage today no matter how star crossed the individuals is that the couple is deeply and hopelessly in love with one another But that was not always so clear Before the eighteenth century very few couples united simply because they shared a mutual attraction and affection for one another Yet only a century later most people would come to believe that mutual love and even attraction were necessary for any marriage to succeed A Cultural History of Marriage in the Age of Enlightenment explores the ways that new ideas cultural ideals and economic changes big and small reshaped matrimony into the institution that it is today allowing love to become the ultimate essential ingredient for modern marriages A Cultural History of Marriage in the Age of Enlightenment presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage **Reformation without end** Robert G.

Ingram,2018-03-27 This study provides a radical reassessment of the English Reformation No one in eighteenth century England thought that they were living during the Enlightenment instead they saw themselves as facing the religious intellectual and political problems unleashed by the Reformation which began in the sixteenth century Moreover they faced those problems in the aftermath of two bloody seventeenth century political and religious revolutions This book examines how the eighteenth century English debated the causes and consequences of those revolutions and the thing they thought

had caused them the Reformation It draws on a wide array of manuscript sources to show how authors crafted and pitched their works **Reformation and Enlightenment** ,2002 *The Oxford Handbook of the Protestant Reformations* Ulinka Rublack,2017 This Handbook takes a broad overview of the Protestant Reformations seeing them as movements which stretched far beyond their European beginnings Written by a team of international scholars of history and theology the contributions offer up to date perspectives on Reformation ideas and the lasting historical impact of Protestantism

Classical Sociological Theory Bert N. Adams,R A Sydnie,2002-01-29 A concise yet surprisingly comprehensive theory text given the range of ideas historical context and theorists discussed Unlike other books of the type Classical Sociological Theory focuses on how the pivotal theories contributed not only to the development of the field but also to the evolution of ideas concerning social life *The Oxford History of Classical Reception in English Literature* Rita Copeland,2016-01-28 The Oxford History of Classical Reception in English Literature OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This first volume and fourth to appear in the series covers the years c 800 1558 and surveys the reception and transformation of classical literary culture in England from the Anglo Saxon period up to the Henrician era Chapters on the classics in the medieval curriculum the trivium and quadrivium medieval libraries and medieval mythography provide context for medieval reception The reception of specific classical authors and traditions is represented in chapters on Virgil Ovid Lucan Statius the matter of Troy Boethius moral philosophy historiography biblical epics English learning in the twelfth century and the role of antiquity in medieval alliterative poetry The medieval section includes coverage of Chaucer Gower and Lydgate while the part of the volume dedicated to the later period explores early English humanism humanist education and libraries in the Henrician era and includes chapters that focus on the classicism of Skelton Douglas Wyatt and Surrey

Chances for Democracy in Europe Mária Bordás,2023-10-24 At the turn of Twenty First Century no one could have believed that by a decade later the prime minister of Hungary would roughly declare his political and government system as an illiberal democracy Chances for Democracy in Europe The New Wave of Illiberalism in Post Communist Countries explores the scenarios of building illiberal democracy as followed by Putin in Russia then how it spread in the post Communist Europe

It will be showing how a full born illiberal democracy has unfolded in Hungary since 2010 during the last four Orb n governments and the similarities it shares with the Russian illiberal state If the Treaty of Maastricht that laid down democratic principles of the European Union has the sufficient political and legal tools to enforce them when they are not respected by the member states While the EU failed in this effort with Hungary it seems to be successful of a sort in Poland and Slovenia The author analyses why developed Western European countries with long traditions of democratic traditions and values have been resistant to illiberalism and remained strong liberal democracies but what about the countries without long traditions of democratic values *Subject Guide to Books in Print* ,1997 **The Routledge History of Women in Early Modern Europe** Amanda L. Capern,2019-10-30 The Routledge History of Women in Early Modern Europe is a comprehensive and ground breaking survey of the lives of women in early modern Europe between 1450 and 1750 Covering a period of dramatic political and cultural change the book challenges the current contours and chronologies of European history by observing them through the lens of female experience The collaborative research of this book covers four themes the affective world practical knowledge for life politics and religion arts science and humanities These themes are interwoven through the chapters which encompass all areas of women s lives sexuality emotions health and wellbeing educational attainment litigation and the practical and leisured application of knowledge skills and artistry from medicine to theology The intellectual lives of women through reading and writing and their spirituality and engagement with the material world are also explored So too is the sheer energy of female work including farming and manufacture skilled craft and artwork theatrical work and scientific enquiry The Routledge History of Women in Early Modern Europe revises the chronological and ideological parameters of early modern European history by opening the reader s eyes to an exciting age of female productivity social engagement and political activism across European and transatlantic boundaries It is essential reading for students and researchers of early modern history the history of women and gender studies **The Late Medieval Landscape of North-east Scotland** Colin Shepherd,2021-10-31 The landscape of the north east of Scotland ranges from wild mountains to undulating farmlands from cosy quaint fishing coves to long sandy bays This landscape witnessed the death of MacBeth the final stand of the Comyns earls of Buchan against Robert the Bruce and the last victory in Britain of a catholic army at Glenlivet But behind these momentous battles lie the quieter histories of ordinary folk farming the land and supping their local malts Colin Shepherd paints a picture of rural life within the landscapes of the north east between the 13th and 18th centuries by using documentary cartographic and archaeological evidence He shows how the landscape was ordered by topographic and environmental constraints that resulted in great variation across the region and considers the evidence for the way late medieval lifestyles developed and blended sustainably within their environments to create a patchwork of cultural and agricultural diversity However these socio economic developments subsequently led to a breakdown of this structure resulting in what Adam Smith in the 18th century described as oppression The 12th century

Renaissance the Protestant Reformation and the Industrial Revolution are used here to define a framework for considering the cultural changes that affected this region of Scotland These include the dispossession of rights to land ownership that continue to haunt policy makers in the Scottish government today While the story also shows how a regional cultural divergence recognized here can undermine big theories of socio political change when viewed across the wider stage of Europe and the Americas
