Vigorous Reforms Jess Libow, 2025-09-09 Nineteenth century America saw profound changes in the ways people viewed their bodies their health and their corporeal connection to their environments Though much of the writing about bodies was produced by men Vigorous Reforms focuses on the understudied literary history of how women came to understand physicality and its connection to their everyday lives The introduction of physical education allowed women to conceive their own and others bodies not as static entities but as adaptable to their own needs goals and labor Jess Libow also shows the limits of the science of the era since bodily differences were often understood as biologically determined theories of health defined womanhood in terms of racialized bodily abilities For example settler colonial ideology coded Native women as deteriorating due to their uncivilized ways of life and proponents of slavery insisted that Black women's inherent strength made them suitable for enslavement Drawing on a wide ranging archive of ideas about exercise hygiene and nutrition Libow argues that women's writing about health was fundamental to the development of what we now think of as American feminism

King of Hearts Eileen Putman, 2017-09-26 Reforming the World Maria Carla Sanchez, 2009-04 Reforming the World considers the intricate relationship between social reform and spiritual elevation and the development of fiction in the antebellum United States Arguing that novels of the era engaged with questions about the proper role of fiction taking place at the time Maria Carla Sanchez illuminates the politically and socially motivated involvement of men and women in shaping ideas about the role of literature in debates about abolition moral reform temperance and protest work She concludes that whereas American Puritans had viewed novels as risqu and grotesque antebellum reformers elevated them to the level of literature functioning on a much higher intellectual and moral plane In her informed and innovative work Sanchez considers those authors both familiar Lydia Maria Child Harriet Jacobs and Harriet Beecher Stowe and those all but lost to history Timothy Shay Arthur Along the way she refers to some of the most notable American writers in the period Emerson Thoreau and Poe Illuminating the intersection of reform and fiction Reforming the World visits important questions about the very purpose of literature telling the story of a revolution that never quite took place one that had no grandiose or even catchy name But it did have numerous settings and participants from the slums of New York where prostitutes and the intemperate made their homes to the offices of lawyers who charted the downward paths of broken men to the tents for revival meetings where land and souls alike were burned over by the grace of God
