Reforming The Doctrine Of God:

Reforming the Doctrine of God F. LeRon Shults, 2005-11 Linking traditional attributes of God with contemporary philosophy F. LeRon Shults culminates with a reformed doctrine of God that revolves around themes of God's omniscient faithfulness omnipotent love and omnipresent hope Reformed and Always Reforming (Acadia Studies in Bible and Theology) Roger E. Olson, 2007-10-01 The community of evangelicals sometimes seems so broad as to defy definition but theological conservatism has been one consistent marker Now says theologian Roger Olson postconservatism is moving beyond conventional battles against liberalism and heresy to posit a dynamic and realistic approach While conservatives strive to preserve tradition and protect orthodoxy postconservatives urge openness to doctrinal reform without abandoning orthodoxy Where differences exist between doctrine and Scripture doctrine must be brought into conformity with the Word Postconservatives want to free evangelical theology from its paradoxical captivity to rationalism and its obsession with facts so that it may recognize truth in experience and personal knowledge Theologians pastors seminarians and serious thinkers will find many depths to plumb in this exhaustive survey of critics advocates and fellow travelers on the evangelical journey

Trinity and Revelation Veli-Matti Karkkainen, 2014-04-19 In this book Pentecostal theologian Veli Matti Karkkainen develops a constructive theology of triune revelation and the triune God in dialogue with Christian tradition with contemporary theology in its global and contextual diversity and with other major living faiths Karkkainen's Constructive Christian Theology for the Pluralistic World is a five volume project that aims to develop a new approach to and method of doing Christian theology in a pluralistic world at the beginning of the third millennium With the metaphor of hospitality serving as the framework for his discussion Karkkainen engages Judaism Islam Buddhism and Hinduism in sympathetic and critical mutual dialogue while remaining robustly Christian in his convictions Never before has a fullscale doctrinal theology been attempted in such a wide and deep dialogical mode **Reforming the Christian Faith** Mark W. Karlberg, 2017-10-12 Central to the mission of the church with each passing generation is the elucidation of the gospel of Christ which is the heart of the Christian message Witness to God's saving word in Scripture comes in response to discussions and debates arising over the course of church history Our study highlights some of the unity and disunity found within the Reformed tradition Reformation and modern Beginning with the subject of the development of doctrine over the course of church history we take up the foundational issue of biblical hermeneutics the question of how we are to interpret the Bible The year 2017 marks the Protestant Church's 500th anniversary October 31 We consider secondly Protestantism's two leading theological principles the formal the doctrine of Scripture and the material the doctrine of justification by faith alone In the final section we critique departures from the teaching of historic federalism found within contemporary Reformed orthodoxy which strikes at the very heart of what it means to be Reformed in theology Crucial in this long standing and ongoing dispute is the interpretation of the Mosaic Covenant as in some sense a republication of the original Covenant of Works with Adam at creation Covenant and

justification are the focal doctrines under study The Oxford Handbook of Reformed Theology Michael Allen, Scott R. Swain, 2020-10-30 The Oxford Handbook of Reformed Theology looks back to past resources that have informed Reformed theology and surveys present conversations among those engaged in Reformed theology today First the volume offers accounts of the major historical contexts of reformed theology the various relationships ancient and modern which it maintains and from which it derives Recent research has shown the intricate ties between the patristic and medieval heritage of the church and the work of the reformed movement in the sixteenth century The past century has also witnessed an explosion of reformed theology outside the Western world prompting a need for attention not only to these global voices but also to the unique and contingent history of reformed theology in the West hence reflecting on its relationship to intellectual developments like scholastic method or the critical approaches of modern biblical studies Second the volume assesses some of the classic representative texts of the reformed tradition observing also their reception history The reformed movement is not dominated by a single figure but it does contain a host of paradigmatic texts that demonstrate the range and vitality of reformed thought on politics piety biblical commentary dogmatic reflection and social engagement Third the volume turns to key doctrines and topics that continue to receive attention by reformed theologians today Contributors who are themselves making cutting edge contributions to constructive theology today reflect on the state of the question and offer their own proposals regarding a host of doctrinal topics and themes **Reforming the Art of Dying** Austra Reinis, 2016-12-05 The Reformation led those who embraced Martin Luther's teachings to revise virtually every aspect of their faith and to reorder their daily lives in view of their new beliefs Nowhere was this more true than with death By the beginning of the sixteenth century the Medieval Church had established a sophisticated mechanism for dealing with death and its consequences The Protestant reformers rejected this new mechanism To fill the resulting gap and to offer comfort to the dying they produced new liturgies new church orders and new handbooks on dying This study focuses on the earliest of the Protestant handbooks beginning with Luther's Sermon on Preparing to Die in 1519 and ending with Jakob Otter's Christlich leben vnd sterben in 1528 It explores how Luther and his colleagues adopted traditional themes and motifs even as they transformed them to accord with their conviction that Christians could be certain of their salvation It further shows how Luther's colleagues drew not only on his teaching on dying but also on other writings including his sermons on the sacraments The study concludes that the assurance of salvation offered in the Protestant handbooks represented a significant departure from traditional teaching on death By examining the ways in which the themes and teachings of the reformers differed from the late medieval ars moriendi the book highlights both breaks with tradition and continuities that marked the early Reformation *A Very Brief Introduction to Reformation Doctrine* Cornelius C. Celebrating the Reformation Mark D Thompson, 2017-09-21 Too often the Reformers and their doctrines have been caricatured misrepresented or misappropriated in the service of agendas they would never have recognized let alone endorsed Happily there has been a great deal of fine scholarship in recent years that has exploded some of these myths but it has not always been accessible to non specialists The intention of *Celebrating the Reformation* is that Christians today will find new cause to rejoice in what God did in the sixteenth century through weak and fallible men and women These people sought in their own context to submit themselves to the word of God and lead his people in a godly and faithful response to the gospel of grace Three sections deal with the chief Reformers key doctrines and the Reformation in retrospect Each contribution seeks to connect its subject to the present making clear its relevance for today The Reformation is not a dead movement but a living legacy that can still capture the imagination and encourage men and women in their own Christian discipleship The contributors are Andrew Bain Colin R Bale Rhys S Bezzant Gerald Bray Martin Foord David A H hne Chase Kuhn Andrew Leslie Edward Loane John McClean Joe Mock Michael J Ovey Tim Patrick Mark D Thompson Stephen Tong Jane Tooher and Dean Zweck

Reforming Worship Julian Templeton, Keith Riglin, 2012-06-12

The Reformed tradition of worship in England has given the English speaking world the Westminster Directory for the Public Worship of God and the hymns of Isaac Watts In this collection of essays scholars and ministers who are inheritors of this tradition reflect on the continuities innovations and tensions in Reformed worship and their lived expression in contemporary church life Among the tensions explored is that between order and freedom in worship and the bold contention is made that ordered freedom is the scriptural mark of the church s worship and the character of all good liturgy for order is love in regulative operation

This collection of essays on the theology history and practice of Reformed worship also includes examples of psalmody liturgy and a sermon

Barth and Ecotheology Adrian Langdon, 2025-03-31

Barth and Ecotheology offers a critical and constructive reading of Karl Barth s theology in the context of the Anthropocene It reflects on how a contemporary doctrine of creation must be broad enough to address issues such as climate change colonialism and racism sexism as well as integrating modern science Such a theology would resist the human domination of nature and the various forms of displacement occurring in modernity With Barth the author contends that a theology of creation grounded in the self revelation of God in Jesus Christ is the best place to rethink what it means to be human and to exist within the

community of creation Nevertheless if we are to affirm the livingness of the world creaturely differences and a central place for land and place then critical additions to Barth are needed To accomplish this the book provides constructive reinterpretations of Barth's theological method doctrine of God creation by the Word and Spirit anthropology and reconciliation What emerges is a vision of the triune God of love as the source and ground of all that is Along the way Barth is brought into dialogue with ecotheology as well as theologians such as Wolfhart Pannenberg Dietrich Bonhoeffer and Bruce McCormack The volume will be of particular interest to theologians focused on the doctrine of creation ecotheology and Barth studies
