✓ Exclusively available on IvyPanda

The Treaty of Lisbon is an agreement that brings various European countries together in order to enhance democracy, efficiency, and transparency in Europe; it also aims at forming knowledge-based economies that promote sustainable development and social cohesion under the guidance of two key organs – European Union and European Community. Generally, the mandate of the treaty includes reforming the structure of the European Union and its mode of operations within member countries. The history of the reform process can be traced back to the time when the European constitution was drawn to replace earlier treaties signed in Rome in 2004. Before being accepted, members were expected to ratify it. Following the collapse of the European constitution, it was shelved and the Treaty of Lisbon was enacted to replace it in 2007. However, the treaty became effective in 2009 on ratification by all members based on the constitutional requirement.

Generally, the Treaty of Lisbon seeks to achieve various objectives, including enhancing democracy and transparency in Europe thorough the European parliament; this would not only strengthen the voice of citizens, but also increase participation of national parliaments in facilitating reforms. Additionally, the Treaty intends to enhance efficiency among member countries of European Union, especially in relation to decision and policymaking, institutional frameworks, and living standards of citizens. The next objective of the Treaty is to promote and reinforce human rights and values, preserve fundamental freedom of all citizens and enhance solidarity among European countries. Finally, the Treaty works as a framework for international relations with the global community.

The Treaty of Lisbon is necessary in order to set precedence to modernization and create room for reforms amongst the 27 European Union members who operate under rules governing 15 of its members. The process that runs back to history has sought to find the right platform to use the avenues under its authority as well as empower action. The need has been prompted by challenges facing all nations such as climate change, terror, insecurity, threat to energy and other global concerns.

(Department Of Law, University Of Leicester) Neuwahl, P. (Department Of Politics, University Of Leicester) Lynch, 2014-05-12 Analyses the likely future of the EU following next year s Intergovernmental Conference IGC which is likely to be even more significant for the future of Europe than the Maastricht Treaty Since Maastricht it has become clear that future developments are less certain with regard to the EU and integration The IGC will have to try and resolve tensions such as widening Europe to include former communist countries whilst also trying to deepen Europe with increased political and economic integration providing a framework which is acceptable to a core of countries Benelux Germany France who favour more integration and an early move to monetary union with countries such as the UK which does not Reforming the European Union Daniel Finke, Thomas König, Sven-Oliver Proksch, George Tsebelis, 2012-07-29 For decades the European Union tried changing its institutions but achieved only unsatisfying political compromises and modest incremental treaty revisions In late 2009 however the EU was successfully reformed through the Treaty of Lisbon *Reforming the European Union* examines how political leaders ratified this treaty against all odds and shows how this victory involved all stages of treaty reform negotiations from the initial proposal to referendums in several European countries The authors emphasize the strategic role of political leadership and domestic politics and they use state of the art methodology applying a comprehensive data set for actors reform preferences They look at how political leaders reacted to apparent failures of the process by recreating or changing the rules of the game While domestic actors played a significant role in the process their influence over the outcome was limited as leaders ignored negative referendums and plowed ahead with intended reforms

The book's empirical analyses shed light on critical episodes strategic agenda setting during the European Convention the choice of ratification instrument intergovernmental bargaining dynamics and the reaction of the German Council presidency to the negative referendums in France the Netherlands and Ireland

Bluedorn, Luc Eyraud, Mr. Tidiane Kinda, Ms. Petya Koeva Brooks, Mr. Gerd Schwartz, Anke Weber, 2015-05-21 Successive reforms have brought many positive elements to the European Union's fiscal framework But they have also increased its complexity The current system involves an intricate set of fiscal constraints which hampers effective monitoring and public communication Compliance has also been weak This note discusses medium term reform options to simplify the framework and improve compliance Based on model simulations and practical considerations it argues for moving to a two pillar approach with a single fiscal anchor public debt to GDP and a single operational target an expenditure growth rule possibly with an explicit debt correction mechanism linked to the anchor

Constitution Building in the European Union: The Process of Treaty Reforms Brendan Smith, 2002 This book focuses on the negotiations of what are termed the eight constitutional IGCs These eight include the negotiations of the 1950s and 1960s on the European Coal and Steel Community the European Defence and Political Community the European Economic Community and European Atomic Energy Community the Fouchet Plan the Single European Act the Maastricht Treaty the Amsterdam Treaty the Nice Treaty The book challenges the neofunctionalist and liberal intergovernmentalist perspectives that have been used in the past to explain the process of IGCs The author presents an alternative perspective in the form of an incremental model to explain the nature of negotiations at all eight constitutional IGCs It is also argued that the increasing frequency of IGC negotiations signifies a gradual institutionalisation of the process to the point where the constitutional IGC is becoming a regular feature on the EU's political landscape Governments are locked into a process of constitutional IGCs that leaves the primary legal document of the EU in a state of perpetual reform In turn it is argued that the incrementalism that defines the IGC negotiations shapes the entire process of European integration and the general nature of the European Union A Companion to European Union Law and International Law Dennis Patterson, Anna
