## **Refugees In Inter War Europe The Emergence Of A Regime:**

*Refugees in Inter-war Europe* Claudena M. Skran, 1995 This book examines the refugee phenomenon specifically refugees in inter war Europe and international responses to that phenomenon It explores the causes and consequences of refugee movements throughout this century analyzes international responses to European refugee movements from 1919 until 1939 and evaluates the impact of international efforts on government policy toward refugees The major argument of this book is that international assistance efforts of the inter war era composed an international regime and this regime had and continues to have significant impact on refugee policy      **Refugees in Europe, 1919-1959** Matthew Frank, Jessica

Reinisch, 2017-09-21 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) It is funded by Knowledge Unlatched *Refugees in Europe 1919-1959* offers a new history of Europe's mid 20th century as seen through its recurrent refugee crises By bringing together in one volume recent research on a range of different contexts of groups of refugees and refugee policy it sheds light on the common assumptions that underpinned the history of refugees throughout the period under review The essays foreground the period between the end of the First World War which inaugurated a series of new international structures to deal with displaced populations and the late 1950s when Europe's home grown refugee problems had supposedly been solved and attention shifted from the identification of an exclusively European refugee problem to a global one Borrowing from E H Carr's *The Twenty Years Crisis* first published in 1939 the editors of this volume test the idea that the two post war eras could be represented as a single crisis of a European dominated international order of nation states in the face of successive refugee crises which were both the direct consequence of that system and a challenge to it Each of the chapters reflects on the utility and limitations of this notion of a forty years crisis for understanding the development of specific national and international responses to refugees in the mid 20th century Contributors to the volume also provide alternative readings of the history of an international refugee regime in which the non European and colonial world are assigned a central role in the narrative      **Refugee Crises, 1945-2000** Jan C. Jansen, Simone Lässig, 2020-10 This

timely study explores how societies have responded to mass inflows of refugees between 1945 and 2000      *Refugees From Nazi Germany and the Liberal European States* Frank Caestecker, Bob Moore, 2010-01-01 The exodus of refugees from Nazi Germany in the 1930s has received far more attention from historians social scientists and demographers than many other migrations and persecutions in Europe However as a result of the overwhelming attention that has been given to the Holocaust within the historiography of Europe and the Second World War the issues surrounding the flight of people from Nazi Germany prior to 1939 have been seen as *Vorgeschichte* pre history implicating the Western European democracies and the United States as bystanders only in the impending tragedy Based on a comparative analysis of national case studies this volume deals with the challenges that the pre 1939 movement of refugees from Germany and Austria posed to the immigration controls in the countries of interwar Europe Although Europe takes center stage this volume also looks beyond

to the Middle East Asia and America This global perspective outlines the constraints under which European policy makers and the refugees had to make decisions By also considering the social implications of policies that became increasingly protectionist and nationalistic and bringing into focus the similarities and differences between European liberal states in admitting the refugees it offers an important contribution to the wider field of research on political and administrative practices **The Oxford Handbook of Modern Diplomacy** Andrew Fenton Cooper, Jorge Heine, Ramesh

Thakur, 2013-03-28 Including chapters from some of the leading experts in the field this Handbook provides a full overview of the nature and challenges of modern diplomacy and includes a tour d horizon of the key ways in which the theory and practice of modern diplomacy are evolving in the 21st Century **People Forced to Flee** Ninette Kelley, 2022 There are today some 60 million people who have fled their homes because of persecution and conflict This is the highest number ever recorded These people suffer exile that will likely last for years and even whole lifetimes both present and future The unprecedented scale and duration of forced displacement provide unsettling points of departure for the 2016 edition of The State of the World's Refugees Covering the years since 2012 this volume is the seventh in a series of flagship publications by the Office of the United Nations High Commissioner for Refugees UNHCR This book draws upon expert analysis as well as UNHCR's direct experience to shed light on the root causes and consequences of the current humanitarian and development crisis Its eleven chapters examine the world's evolving efforts to finance plan and implement basic human rights protections amidst a recent spate of complex emergencies Updated data maps and case studies examine persistent challenges such as limited access to asylum abroad protection gaps at home for internally displaced persons the devastating consequences of statelessness and the troubling elusiveness of durable solutions This book also highlights the widespread impact of climate change as well as innovations in how humanitarian operations are designed and conducted Over 65 years after UNHCR was established A World in Turmoil reveals why its work remains more relevant and urgent than ever **Forced Migration:**

**Exiles and Refugees in the UK and the British Empire, 1815-1949**, 2025-03-24 This volume explores the forced migration of people defined briefly as when individuals or groups are compelled to leave their home countries due to various though predominantly political factors to the UK and the British Empire from 1815 to 1949 With a uniquely international and inclusive scope this volume is a welcome contribution to our understanding of forced migrations over this 135 year period It aims to kickstart future work on this subject and provide the basis for a more truly global understanding of refugees forced migrations and border controls in modern history Contributors are Yianni Cartledge Vesna Curlic Milosz K Cybowski Rosaria Franco Jade Hastings Jemima Jarman Jeffrey Jones Thomas C Jones Chana Revell Kotzin Micha Adam Palacz Leslie Rogne Schumacher Evan Smith Andrekos Varnava and Andrew Williams **Immigration and Asylum** Matthew J. **Population Exchange in Greek Macedonia** Elisabeth Kontogiorgi, 2006-06-15 Following the defeat of the Greek Army in 1922 by nationalist Turkish forces the Convention of Lausanne in 1923 specified the first compulsory exchange of populations ratified by an international organization The arrival in Greece of over 1.2 million refugees and their settlement proved to be a watershed with far reaching consequences for the country Dr Kontogiorgi examines the exchange of populations and the agricultural settlement in Greek Macedonia of hundreds of thousands of refugees from Asia Minor and the Pontus Eastern Thrace the Caucasus and Bulgaria during the inter war period She examines Greek state policy and the role of the Refugee Settlement Commission which under the auspices of the League of Nations carried out the refugee resettlement project Macedonia a multilingual and ethnically diverse society experienced a transformation so dramatic that it literally changed its character Kontogiorgi charts that change and attempts to provide the means of understanding it The consequences of the settlement of refugees for the ethnological composition of the population and its political social demographic and economic implications are treated in the light of new archival material Reality is separated from myth in examining the factors involved in the process of integration of the newcomers and assimilation of the inhabitants both refugees and indigenous of the New Lands into the nation state Kontogiorgi examines the impact of the agrarian reforms and land distribution and makes an effort to convert the climate of the rural society of Macedonia during the inter war period The antagonisms between Slavophone and Vlach speaking natives and refugee newcomers regarding the reallocation of former Muslim properties had significant ramifications for the political events in the region in the years to come Other recurring themes in the book include the geographical distribution of the refugees changing patterns of settlement and toponyms the organisation of health services in the countryside as well as the execution of irrigation and drainage works in marshlands Kontogiorgi also throws light upon and analyses the puzzling mixture of achievement and failure which characterizes the history of the region during this transitional period As the first successful refugee resettlement project of its kind the refugee experiment in Macedonia could provide a template for similar projects involving refugee movements in many parts of the world today

Providing a comprehensive multi disciplinary analysis of key issues in the field this topical Research Handbook explores asylum and migration policy in a global context Chapters consider national regional and international responses to refugees and forced migration examining the evolution of asylum and refugee policies and why gaps remain in protection

**Protecting the Internally Displaced** Phil Orchard, 2018-11-01 Today there are over 40 million conflict induced internally displaced persons IDPs globally almost double the number of refugees Yet IDPs are protected only by the soft law Guiding Principles on Internal Displacement at the global level Instead of a dedicated international organization IDPs receive protection and assistance only through the UN s cluster approach Orchard argues that while an international IDP protection regime exists many aspects of it are informal with IDP issues bound up in a humanitarian regime complex that divides the mandates of key organizations and even the question of IDP status itself While the Guiding Principles mark an important step forward implementation of laws and policies based on them at the domestic level remains haphazard Action at the international level similarly reflects an all too often ad hoc approach to IDP issues Through an in depth examination of IDP efforts at the international level and across the forty states which have adopted IDP laws and policies Orchard argues that while progress has been made new and greater monitoring and accountability mechanisms at both the domestic and international levels are critical This work will be valuable to scholars students and practitioners of forced migration international relations theory and the Responsibility to Protect doctrine

*Diplomacy, Communication, and Peace* William Maley, 2020-11-15 This book is composed of interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations

*Statelessness after Arendt* Kolleen Guy, Jay Winter, 2025-05-27 This book is a study of statelessness in the period of the Second World War It breaks new ground by focusing not on Europe but on the Asian and Pacific theatres of the conflict This perspective enables us to go beyond Hannah Arendt s classic account of statelessness in her *Origins of Totalitarianism* To her statelessness was the product of a failed European nation state system We find a very different story when we examine the history of stateless people many of them Jews fleeing to Asia from Europe In Asia we see

that being stateless was not a uniform experience but a variety of possibilities reflecting the political structure of the states and cities in which refugees found shelter We find too that stateless people managed to enter the political realm long before they reached the threshold of citizenship The Institution of International Order Simon Jackson,Alanna

O'Malley,2018-07-11 This volume delivers a history of internationalism at the League of Nations and the United Nations UN with a focus on the period from the 1920s to the 1970s when the nation state ascended to global hegemony as a political formation Combining global regional and local scales of analysis the essays presented here provide an interpretation of the two institutions and their complex interrelationship that is planetary in scale but also pioneeringly multi local Our central argument is that although the League and the UN shaped internationalism from the centre they were themselves moulded just as powerfully by internationalisms that welled up globally far beyond Geneva and New York City The contributions are organised into three broad thematic sections the first focused on the production of norms the second on the development of expertise and the third on the global re ordering of empire By showing how the ruptures and continuities between the two international organisations have shaped the content and format of what we now refer to as global governance the collection determinedly sets the Cold War and the emergence of the Third World into a single analytical frame alongside the crisis of empire after World War One and the geopolitics of the Great Depression Each of these essays reveals how the League of Nations and the United Nations provided a global platform for formalising and proliferating political ideas and how the two institutions generated new spectrums of negotiation and dissidence and re codified norms As an ensemble the book shows how the League of Nations and the United Nations constructed and progressively re fashioned the basic building blocks of international society right across the twentieth century Developing the new international history s view of the League and UN as dynamic complex forces the book demonstrates that both organisations should be understood to have played an active role not just in mediating a world of empires and then one of nation states but in forging the many principles and tenets by which international society is structured **Human Rights and the Refugee Definition** Bruce Burson,David James

Cantor,2016-02-02 Does human rights law help us to define who qualifies as a refugee If so then how These deceptively simple questions sit at the heart of an intense contemporary debate over whether or how interpretation of the refugee definition in the Refugee Convention should take account of human rights law In Human Rights and the Refugee Definition Burson and Cantor bring a fine grained comparative perspective to this debate For the first time they collect together in one edited volume over a dozen new studies by leading scholars and practitioners that explore in detail how these legal dynamics play out in a range of national and international jurisdictions and in relation to particular thematic challenges in refugee law

**The Oxford Handbook of International Refugee Law** Cathryn Costello,Michelle Foster,Jane McAdam,2021 Provides a state of the art comprehensive analysis of the field of international refugee law Global in scope with 10 chapters focusing in detail on specific regions Critiques the status quo and sets the agenda for future academic research Book jacket The

**Displaced Mozambicans in Postcolonial Tanzania** Joanna T. Tague, 2018-12-21 This book is the first study of displaced Mozambican men women and children from refugees and asylum seekers to liberation leaders students and migrant workers during the war for independence from Portugal 1964 1974 Throughout the war two distinct communities of Mozambicans emerged On the one hand a minority of students and liberation leaders congregated in Dar es Salaam and on the other the majority of Mozambicans who settled in refugee camps Joanna T Tague attends to both these groups by juxtaposing the experiences of the two Using a diverse range of archival materials and oral interviews she argues that during decolonization the displaced acted as their own agents and strategized their own trajectories in exile Compelling scholars to reconsider how governments aid agencies local citizens and the displaced themselves defined debated and reconstituted what it meant to be a refugee in Africa during decolonization this book ultimately shows how the state of being a refugee could be generative and productive rather than simply debilitating and destructive Displaced Mozambicans in Postcolonial Tanzania will be invaluable for students and scholars of African and world contemporary history

Global Mobility Regimes R. Koslowski, 2011-11-18 This volume considers global mobility as an alternative concept to international migration in order to gain insights into international cooperation on movements of people across international borders
