Hoskins, Viet Thanh Nguyen, 2014-08-31 The Pacific has long been a space of conquest exploration fantasy and resistance Pacific Islanders had established civilizations and cultures of travel well before European explorers arrived initiating centuries of upheaval and transformation The twentieth century with its various wars fought in and over the Pacific is only the most recent era to witness military strife and economic competition While Asia Pacific and Pacific Rim were late twentieth century terms that dealt with the importance of the Pacific to the economic political and cultural arrangements that span Asia and the Americas a new term has arisen the transpacific In the twenty first century U S efforts to dominate the ocean are symbolized not only in the Pacific pivot of American policy but also the development of a Transpacific Partnership This partnership brings together a dozen countries not including China in a trade pact whose aim is to cement U S influence That pact signals how the transpacific up to now an academic term has reached mass consciousness Recognizing the increasing importance of the transpacific as a word and concept this anthology proposes a framework for transpacific studies that examines the flows of culture capital ideas and labor across the Pacific These flows involve Asia the Americas and the Pacific Islands The introduction to the anthology by its editors Janet Hoskins and Viet Thanh Nguyen consider the advantages and limitations of models found in Asian studies American studies and Asian American studies for dealing with these flows The editors argue that transpacific studies can draw from all three in order to provide a critical model for considering the geopolitical struggle over the Pacific with its attendant possibilities for inequality and exploitation Transpacific studies also sheds light on the cultural and political movements artistic works and ideas that have arisen to contest state corporate and military ambitions In sum the transpacific as a concept illuminates how flows across the Pacific can be harnessed for purposes of both domination and resistance The anthology s contributors include geographers Brenda S A Yeoh Weiqiang Lin sociologists Yen Le Espiritu Hung Cam Thai literary critics John Carlos Rowe J Francisco Benitez Yunte Huang Viet Thanh Nguyen and anthropologists Xiang Biao Heonik Kwon Nancy Lutkehaus Janet Hoskins as well as a historian Laurie J Sears and a film scholar Akira Lippit Together these contributors demonstrate how a transpacific model can be deployed across multiple disciplines and from varied locations with scholars working from the United States Singapore Japan and England Topics include the Cold War the Chinese state U S imperialism diasporic and refugee cultures and economies national cinemas transpacific art and the view of the transpacific from Asia These varied topics are a result of the anthology s purpose in bringing scholars into conversation and illuminating how location influences the perception of the transpacific But regardless of the individual view what the essays gathered here collectively demonstrate is the energy excitement and insight that can be generated from within a transpacific framework

Re-membering Culture Bic Ngo, 2024-11-12 The untold stories of resilience in Hmong American education *Re membering Culture* is a deep exploration of the intricate dynamics of cultural memory and education centering the experiences of Hmong American students and educators Arguing that the school as a product of coloniality perpetuates the marginalization and erasure of non Western epistemologies author Bic Ngo

sheds light on the subtle yet impactful process of structured forgetting within the American education system This politics of forgetting in turn contributes to the fragmentation of Hmong cultural heritage identity and community Based on a high school in an urban center with a considerable Hmong immigrant community Ngo s work draws on extensive ethnographic research with Hmong American community leaders school administrators parents teachers staff and high school students to understand how they navigate the terrain of Western pedagogy while attempting to retain and preserve Hmong knowledge systems Exploring a range of school experiences Ngo traverses students challenges in balancing school with family life and the everyday cultural racism encountered in the classroom as well as grassroots efforts to preserve culture including the establishment of a Hmong Cultural Club Highlighting these experiences and voices Ngo provides a nuanced understanding of the challenges Hmong Americans face within an assimilationist society while contesting the dominant anti immigrant narratives of refugee suffering and poverty Through these practices of re storytelling resurgence and refusal she underscores the agency of the Hmong American community illuminating how the critical consciousness fostered by re membering serves as a powerful tool in confronting white hegemonic ideologies in education Retail e book files for this title are screen reader friendly The Famine Effects on African Refugees United States. How War Kills Yara M. Asi, 2024-01-30 Armed conflict poses a huge threat to public health but perhaps not in the way you would think It s time to reconsider our entire approach to human security Thanks to our increasingly connected world we can now witness the worst manifestations of war in ways we never could before This makes it easier than ever to recognize dangerous conflicts as a threat to health and well being at least for those populations living in war zones In How War Kills Yara M Asi exposes the devastating repercussions of war that extend far beyond the battlefield By tracing the trajectory of violence throughout history with a focus on contemporary conflicts Asi argues that war has been overlooked from a public health perspective From the breakdown of sanitation and other vital infrastructure to the scarcity of essential resources war creates a perilous environment ripe for disease outbreaks and widespread suffering far beyond the reach of bullets and bombs She also challenges the reactive nature of current humanitarian responses and calls for more proactive measures to prevent the catastrophic consequences of war and militarism Drawing on data and stories from around the world Asi breaks down the complex mechanics of war and how they impact human security War is not an inevitable part of the human condition but is rather a global health crisis in dire need of intervention Aimed at anyone seeking to understand why increased national security spending has left us feeling more insecure than ever this book provides an eye opening perspective on the war machine and makes an urgent call to dismantle it for everyone s sake
