## Refus De La Vie:

, 115 fiches pratiques infirmières face aux situations d'urgence Enrique Casalino, Eric Kargougou, 2022-02-08 Les premières minutes sont capitales dans une situation d'urgence et savoir prendre les bonnes décisions est un enjeu de santé primordial. L'infirmier doit pouvoir prodiguer les premiers soins d'urgence dans l'attente de l'arrivée du médecin. La pratique de l'urgence ne se cantonnant d'ailleurs plus aux uniques urgences intra et par hospitalières, l'évolution incessante de la pratique de soins contraint les infirmiers et aides soignants à intervenir dans des cas de pathologies aiguës de plus en plus souvent hors du champ du centre hospitalier et à répondre du besoin d'une intervention médicale. Enrichie et mise à jour, cette nouvelle édition compte désormais 115 fiches pratiques infirmières face aux situations d'urgence qui permettent à l'infirmier d'identifier les symptômes et qui répondent parfaitement à la nécessité d'avoir une connaissance rapide des différentes pathologies rencontrées dans le cadre de la législation et d'une conduite de bonnes pratiques. Claire, simple et pragmatique, chacune de ces fiches suit le déroulement de l'identification, du diagnostic, de la prise en charge infirmière. Pour chaque fiche, le rôle de l'aide soignant est mis en évidence, la bonne prise en charge d'un patient requérant une excellente coordination entre l'activité de l'infirmier et celle de l'aide soignant. Regroupées en 18 parties, notamment par spécialité, ces fiches sont toutes accompagnées d'un arbre décisionnel récapitulatif de la prise en charge infirmière. Les deux dernières parties sont consacrées spécialement aux problèmes médicaux, à la législation professionnelle et à un rappel des actes de soins infirmiers. Des annexes portant sur la fatigue professionnelle et le COVID-19 ont également été ajoutées en fin d'ouvrage. Indispensable dans la pratique professionnelle, ce livre, outil en couleurs et spiralé, est destiné aussi bien aux étudiants infirmiers qu'aux infirmiers diplômés souhaitant se remettre à jour.

Nonetheless in many situations human life finds itself under structural threat Although obligated by law to protect the right to life State authorities time and again engage in deliberate acts of killing Fortunately international review bodies have devised many imaginative counter strategies Another one of those structural threats is global warming Obviously armed conflict puts human life inevitably at risk the limits of the license to kill given by the laws of war must be scrupulously observed
