Regarding Roderer Guillermo Martínez, 1992 The Contemporary Spanish-American Novel Will H. Corral, Juan E. De Castro, Nicholas Birns, 2013-09-26 The Contemporary Spanish American Novel provides an accessible introduction to an important World literature While many of the authors covered Aira Bola o Castellanos Moya V squez are gaining an increasing readership in English and are frequently taught there is sparse criticism in English beyond book reviews This book provides the guidance necessary for a more sophisticated and contextualized understanding of these authors and their works Underestimated or unfamiliar Spanish American novels and novelists are introduced through conceptually rigorous essays Sections on each writer include the author's reception in their native country Spanish America and Spain biographical history a critical examination of their work including key themes and conceptual concerns translation history scholarly reception The Contemporary Spanish American Novel offers an authoritative guide to a rich and varied novelistic tradition It covers all demographic areas including United States Latino authors in exploring the diversity of this literature and its major themes such as exile migration and gender representation Conversations with a Mathematician Gregory J. Chaitin, 2012-12-06 G J Chaitin is at the IBM Thomas J Watson Research Center in New York He has shown that God plays dice not only in quantum mechanics but even in the foundations of mathematics where Chaitin discovered mathematical facts that are true for no reason that are true by accident This book collects his most wide ranging and non technical lectures and interviews and it will be of interest to anyone concerned with the philosophy of mathematics with the similarities and differences between physics and mathematics or with the creative process and mathematics as an art Chaitin has put a scratch on the rock of eternity Jacob T Schwartz Courant Institute New York University USA Chaitin is one of the great ideas men of mathematics and computer science Marcus Chown author of The Magic Furnace in NEW SCIENTIST Finding the right formalization is a large component of the art of doing great mathematics John Casti author of Mathematical Mountaintops on Godel Turing and Chaitin in NATURE What mathematicians over the centuries from the ancients through Pascal Fermat Bernoulli and de Moivre to Kolmogorov and Chaitin have discovered is that it randomness is a profoundly rich concept Jerrold W Grossman in the MATHEMATICAL INTELLIGENCER The Unknowable Gregory J. Chaitin, 1999-07-01 This essential companion to Chaitins highly successful The Limits of Mathematics gives a brilliant historical survey of important work on the foundations of mathematics The Unknowable is a very readable introduction to Chaitins ideas and includes software on the authors website that will enable users to interact with the authors proofs Chaitins new book The Unknowable is a welcome addition to his oeuvre In it he manages to bring his amazingly seminal insights to the attention of a much larger audience His work has deserved such treatment for a long time JOHN ALLEN PAULOS AUTHOR OF ONCE UPON A NUMBER What It Means to Write Adrian McKerracher, 2019-03-04 At a time when people must work harder than ever to stand out from the crowd the word creativity can seem vague and overused But what exactly is creativity Adrian

McKerracher travels from Vancouver to Havana to Buenos Aires leading readers on a journey to discover poignant new insights into a life of letters Through encounters with artists of all kinds famous or obscure McKerracher traces a socio cultural history of the meaning of writing each vignette a meditation on the way that metaphor limits and liberates understanding creativity is a process a possession a relation an algorithm a game and more But What It Means to Write is far more than an archive of the figurative Along the way a labyrinth of chance reunites McKerracher with old friends threatens him with violence and invites him to remain forever in a place both real and imagined His journey from caf s to libraries to late night living rooms embodies the structure of a bold new methodology for interpreting creativity demonstrating the tools for working productively with ambiguity and rebuilding meaning one metaphor at a time Told in character driven narrative pulses that reflect on the nature of belonging understanding and loving What It Means to Write is a celebration of the possibilities of both language and silence **Contemporary Hispanic Crime Fiction** G. Close, 2016-04-30 This study examines representations of the cityscape and of a so called new urban violence in both detective centered and detectiveless crime fiction produced in Spanish America and Spain during recent decades It documents the emergence and permutations of this production as an index not only of local perceptions of contemporary urban experience and of a contemporary urban ecology of fear but also as a transnational index of the globalization of literary forms and markets It centers on the inscription of urban space in novels set in the metropolitan centers of the Hispanic World Mexico City Bogota Buenos Aires and Barcelona **Truth in Serial Form** Malika Maskarinec, 2023-04-27 This volume has its starting point in the veritable explosion of serialized formats in all of forms representation from painting to printing beginning in the mid nineteenth century and the well known fascination with series in biology mathematics music art or literature The new media culture of the late nineteenth century very much shaped by these serialized formats sees itself confronted with questions of truthfulness in new and profound ways just as perhaps the accelerated rhythm anonymity and broadened accessibility of new media today have created new possibilities for the dissemination of misinformation and conversely give us cause to interrogate anew our notions of truthfulness By examining both the formal operations of both aesthetic and scientific objects in a series form and the historical context of their publication or presentation the contributions in this volume examine the often strained but yet immensely productive relationship between the way in which a series negotiates questions of truthfulness both by reference to the rules established in its series form or by means of its serial format This volume provides ten detailed cases of the series form from the history of science and journalism and the history of painting photography and literature as well Contemporary World Fiction Juris Dilevko, Keren Dali, Glenda Garbutt, 2011-03-17 This much needed guide to translated literature offers readers the opportunity to hear from learn about and perhaps better understand our shrinking world from the perspective of insiders from many cultures and traditions In a globalized world knowledge about non North American societies and cultures is a must Contemporary World Fiction A Guide to Literature in Translation

<u>Blind Vision</u> Zaira Cattaneo, Tomaso Vecchi, 2023-12-05 An investigation of the effects of blindness and other types of visual deficit on cognitive abilities Can a blind person see The very idea seems paradoxical And yet if we conceive of seeing as the ability to generate internal mental representations that may contain visual details the idea of blind vision becomes a concept subject to investigation In this book Zaira Cattaneo and Tomaso Vecchi examine the effects of blindness and other

types of visual deficit on the development and functioning of the human cognitive system Drawing on behavioral and neurophysiological data Cattaneo and Vecchi analyze research on mental imagery spatial cognition and compensatory mechanisms at the sensorial cognitive and cortical levels in individuals with complete or profound visual impairment They find that our brain does not need our eyes to see Cattaneo and Vecchi address critical questions of broad importance the relationship of visual perception to imagery and working memory and the extent to which mental imagery depends on normal vision the functional and neural relationships between vision and the other senses the specific aspects of the visual experience that are crucial to cognitive development or specific cognitive mechanisms and the extraordinary plasticity of the brain as illustrated by the way that in the blind the visual cortex may be reorganized to support other perceptual or cognitive funtions In the absence of vision the other senses work as functional substitutes and are often improved With Blind Vision Cattaneo and Vecchi take on the tyranny of the visual pointing to the importance of the other senses in cognition

Contemporary Migrant Families Paula Pustułka, Magdalena Ślusarczyk, Justyna Struzik, 2018-10-12 Despite extensive and continuous academic interest in migrant and transnational families a stereotypical view that those leading mobile lives are somehow beyond the contours of normativity is still prevalent Such a perspective concerns both kinship and family practices of familyhood across borders and the bi or multicultural settings of providing or offering care Consequently we primarily hear about migration leading to broken relationships the dissolution of families and bonds substandard provisions of care abandonment exploitation of employees and so on In this climate of public imagination of migrants either being dangerous or concurrently stealing one s job and scrounging off the welfare state it is no small feat to be a migration scholar Trying to overcome the universalising views that essentialise human experience requires a wholly different point of departure one which is represented in this volume This is because a now well established transnational paradigm allows for a more nuanced analysis originating with the premise that not only normalises mobility but also proves that various ties and relationships can be continued in the long term despite spatial distance On the whole the transnational lens provided here showcases how new family practices are devised and deployed in mobile family lives thus allowing the argument that migration enriches certain dimensions of contemporary family life and caregiving This book plays on the dichotomy of migration as the new normal and mobility as a continuous source of challenges The core issues examined here concern such problems as maintaining kinship ties across borders new patterns of mothering and fathering children's sense of belonging and identifications and social capital and engagement in community life It reveals that doing family in the migration context often eludes simple definitions of national space or typical family Instead it offers a transnational understanding of how a person practically and pragmatically arranges one s family and kinship strategically choosing pathways of care child rearing relationships at home maintaining traditions and so forth Researching New Religious Movements Elisabeth Arweck, 2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious

groups and the majority interests which oppose them It asks how modern societies can best respond to new religious Cover Name: Dr. Rantzau Nikolaus Ritter, 2019-05-24 Cover Name Dr Rantzau is a gripping diary like movements personal account of espionage during the Second World War and is one of very few historic memoirs written by an ex Abwehr officer Detailed is how Colonel Nikolaus Ritter following a brief World War I career and over ten years as a businessman in America returned to Germany in spring of 1935 and became Chief of Air Intelligence in the Abwehr He was assigned to establish a network of agents to gather information on British and US airfields aircrafts and state of the art developments in the aerospace industry Among others Ritter's cover names were Dr Rantzau and Dr Reinhard in Holland Belgium and Luxembourg Dr Jansen in Hungary Dr Renken in Germany and Mr Johnson in America Throughout his service in the Abwehr Ritter smuggled America's most jealously guarded secret the Norden bombsight and the Sperry gyroscope into Germany and coordinated the planning for the invasion of the British Isles Operation Sea Lion Ritter was incarcerated by the British in 1945 and sent to the Bad Nenndorf interrogation centre Katharine Ritter Wallace the daughter of Col Ritter presents the first English translation of the German World War II memoir With a combination of collected documents correspondences personal notes communications with peers and from memory this captivating account by an espionage agent reveals an insider s glimpse of the German intelligence service and of a handler s expansive and diverse agent network From the Congo to the Niger and the Nile Duke of Mecklenburg-Schwerin Adolf Friedrich, 1913 *Towards the Nile* Adolf Friedrich (Duke of Mecklenburg-Schwerin),1913 Preface, by Adolf Friedrich, duke of Mecklenburg, From the Congo to the Shari, by Captain von Wiese und Kaiserswaldau.
