Department of State. Office of Public Services,1961 The Legal Status of the Arabian Gulf States Husain M. Albaharna,1968 Study of problems connected with the legal status of Arab country with particular reference to problems arising from their treaty relations and international relations covers historical aspects of the protective role of UK in the area accession to independence aspects of international law position within the framework of the UN boundary disputes and territorial claims foreign policy the role of multinational enterprises of the petroleum industry etc Bibliography pp 332 to 343 The First Kuwait Oil Concession A.H.T. Chisholm,2012-11-12 First Published in 1975 The first Kuwait oil concession agreement granted on 23rd December 1934 by the late Shaikh Ahmad al Jaber al Subah to the Kuwait Oil Company Ltd has been of fundamental importance in the history of the State of Kuwait whose great increase in prosperity and international influence during the last twenty eight years has directly resulted from its oil production since 1946 under the Agreement and its 1951 successor Hitherto no full or authoritative account of the very long and complex commercial and political negotiations preceding the Agreement has been compiled and consequently all descriptions of them so far published except those merely quoting the Agreement s terms and naming the parties concerned have contained substantial omissions or errors of fact involving a wrong impression of what actually occurred This text is a record of the negotiations between 1911 and 1934 **Kuwait** United States. Office of Armed Forces Information and Education,1962 *Kuwait and Al-Sabah* Rivka Azoulay,2020-07-23 The Emirate of Kuwait hardly resembles the city State it was at the start of the 20th century The discovery of oil in 1938 rapidly transformed the tiny tribal sheikdom of the Al Sabah into a modern oil producing state where by the early 1980s citizens were enjoying one of the highest standards of living in the world While much has been written on the reasons why and how the Al Sabah became a ruling dynasty little is known about the nature of their authority and its relationship to Kuwait s social structure Rivka Azoulay shows how despite the rapidity of change in the oil rich family run emirate it is the pre oil dynamics of social and political life that dictate how society operates The author shows that Kuwait s ambitious diversification plans to reduce oil dependence by 2035 require a renegotiation of the regime s pact with

society which threatens the pre oil alliances upon which the Al Sabah s regime has been built **Doing Business with Kuwait** Paul D. Kennedy,2004 Now in its second edition Doing Business with Kuwait is the most authoritative guide available on investment and trading opportunities in this vital oil rich global business centre located at the head of the Persian Gulf The guide provides invaluable analysis of the opportunities for foreign businesses and a practical guide to local business practices The government s pro business stance is illustrated by a stable legal framework of business laws and few controls over imports and exports Under the new direct foreign investment laws it is also possible for a foreigner to have 100% ownership of a local business The First Kuwait Oil Concession Agreement Archibald H. T. Chisholm,1975 First Published in 1975 Routledge is an imprint of Taylor Francis an informa company **Near and Middle Eastern Series** ,1961

Reflections on the Law of War Frits Kalshoven,2007 The papers collected in this volume span a 35 year period of active involvement in the reaffirmation and development of international humanitarian law A process under that name started in 1971 and ended in 1977 with the adoption of two Protocols Additional to the Geneva Conventions of 1949 one for international and one for internal armed conflicts Subsequent developments brought a narrowing of this gap between international and internal armed conflicts as well as growing recognition of the interplay between the law of armed conflict and human rights the rediscovery of individual criminal liability for violations of international humanitarian law the introduction of further prohibitions or restrictions on the use of specified weapons and so on In contrast with these positive developments the period was negatively characterised by increasing disrespect not only for some or other minor rule such as what to do with cash taken from a prisoner of war at the time of his capture but for the very principles underlying the entire body of the law of armed conflict respect for the other as a human being and hence humane treatment of prisoners of war and other detainees protection of civilians Throughout the period the author s activities ranged from participation in lawmaking and law interpreting exercises through attempts at explaining the law of armed conflict in its historical context and making propaganda for its faithful implementation to critical or even bewildered observance of actual events The papers brought together here reflect these diverse angles
