Theodore Ziolkowski

Regards Sur Minotaure:

Art Criticism Since 1900 Malcolm Gee, 1993 **Minos and the Moderns** Theodore Ziolkowski, 2008-07-17 Minos and the Moderns considers three mythological complexes that enjoyed a unique surge of interest in early twentieth century European art and literature Europa and the bull the minotaur and the labyrinth and Daedalus and Icarus All three are situated on the island of Crete and are linked by the figure of King Minos Drawing examples from fiction poetry drama painting sculpture opera and ballet Minos and the Moderns is the first book of its kind to treat the role of the Cretan myths in the modern imagination Beginning with the resurgence of Crete in the modern consciousness in 1900 following the excavations of Sir Arthur Evans Theodore Ziolkowski shows how the tale of Europa in poetry drama and art but also in cartoons advertising and currency was initially seized upon as a story of sexual awakening then as a vehicle for social and political satire and finally as a symbol of European unity In contrast the minotaur provided artists ranging from Picasso to Drenmatt with an image of the artist's sense of alienation while the labyrinth suggested to many writers the threatening sociopolitical world of the twentieth century Ziolkowski also considers the roles of such modern figures as Marx Nietzsche and Freud of travelers to Greece and Crete from Isadora Duncan to Henry Miller and of the theorists and writers including T S Eliot and Thomas Mann who hailed the use of myth in modern literature Minos and the Moderns concludes with a summary of the manners in which the economic aesthetic psychological and anthropological revisions enabled precisely these myths to be taken up as a mirror of modern consciousness The book will appeal to all readers interested in the classical tradition and its continuing relevance and especially to scholars of Classics and modern literatures **Concepts of the World** Effie Rentzou, 2022-09-15 How did the avant garde imagine its interconnected world And how does this legacy affect our understanding of the global today The writers and artists of the French avant garde aspired to reach a global audience that would be wholly transformed by their work In this study Effie Rentzou delves deep into their depictions of the interwar world as an international and modern landscape one marked by a varied cosmopolitanism The avant garde's conceptualization of the world paralleled rejected or expanded prevailing notions of the global sphere The historical avant garde which encompassed movements like futurism Dada and surrealism was self consciously international operating across global networks and developed with the whole world as its horizon and its public In the heady period between the end of the Belle poque and the tumult of World War II both individual artists including Guillaume Apollinaire Blaise Cendrars Francis Picabia Louis Aragon Leonora Carrington and Nicolas Calas and collective endeavors such as surrealist magazines and exhibitions grappled with contemporary anxieties about economic growth imperialism and colonialism as well as various universalist cosmopolitan and internationalist visions By probing these works Concepts of the World offers an alternative narrative of globalization one that integrates the avant garde's enthusiasm for as well as resistance to the process Rentzou identifies within the avant garde a powerful political language that expressed the ambivalence of living and creating in an increasingly

globalized world a language that profoundly shaped the way the world has been conceptualized and is experienced today

"*Appropriated Photographs in French Surrealist Periodicals, 1924-1939*" Linda Steer, 2017-07-05 The first monograph to analyze the Surrealist gesture of photographic appropriation this study examines found photographs in three French Surrealist reviews published in the 1920s and 1930s *La Révolution surréaliste* edited by André Breton Documents edited by Georges Bataille and *Minotaure* edited by Breton and others The book asks general questions about the production and deployment of meaning through photographs but addresses more specifically the construction of a Surrealist practice of photography through the gesture of borrowing and recontextualization and reveals something crucial both about Surrealist strategies and about the way photographs operate The book is structured around four case studies including scientific photographs of an hysteric in Charcot's clinic at the Salpêtrière hospital positioned as poetry rather than pathology and one of the first crime scene photographs depicting Jack the Ripper's last victim radically transformed into a work of art Linda Steer traces the trajectory of the found photographs from their first location to their location in a Surrealist periodical Her study shows that the act of removal and re-framing highlights the instability and mutability of photographic meaning an instability and mutability that has consequences for our understanding both of photography and of Surrealism in the 1920s and 1930s [The Beribboned Bomb](#)

Robert James Belton, 1995 Surrealism was ostensibly directed at the emancipation of the human spirit but it represented only male aspirations and fantasies until a number of women artists began to redefine its agenda in the later 1930s This book addresses the former using a thick description of the historically specific circumstances which required the male Surrealists to manufacture a sexual reputation of narcissism and misogyny These circumstances were determined by hegemonic masculinity an ideological construct which had little to do with individual masculinities In male Surrealism the beribboned bomb signified something both attractive and volatile a specific instance of the Surrealist principle of convulsive beauty In hegemonic masculinity similar devices served as metaphors of the sexuality all men were supposed to possess The intersection of these two axes produced an imagery of unrepentant violence *True France* Herman Lebovics, 2018-07-05

No detailed description available for *True France* **Pulp Surrealism** Robin Walz, 2023-12-22 In addition to its more well known literary and artistic origins the French surrealist movement drew inspiration from currents of psychological anxiety and rebellion running through a shadowy side of mass culture specifically in fantastic popular fiction and sensationalistic journalism The provocative nature of this insolent mass culture resonated with the intellectual and political preoccupations of the surrealists as Robin Walz demonstrates in this fascinating study *Pulp Surrealism* weaves an interpretative history of the intersection between mass print culture and surrealism re-evaluating both our understanding of mass culture in early twentieth century Paris and the revolutionary aims of the surrealist movement *Pulp Surrealism* presents four case studies each exploring the out of the way and impertinent elements which inspired the surrealists Walz discusses Louis Aragon's *Le paysan de Paris* one of the great surrealist novels of Paris He goes on to consider the popular series of Fantôme crime novels

the Parisian press coverage of the arrest trial and execution of mass murderer Landru and the surrealist inquiry *Is Suicide a Solution* which Walz juxtaposes with reprints of actual suicide faits divers sensationalist newspaper blurbs Although surrealist interest in sensationalist popular culture eventually waned this exploration of mass print culture as one of the cultural milieux from which surrealism emerged ultimately calls into question assumptions about the avant garde origins of modernism itself In addition to its more well known literary and artistic origins the French surrealist movement drew inspiration from currents of psychological anxiety and rebellion running through a shadowy side of mass culture specifically in fantastic popular fiction Promised Lands Sam Rohdie, 2019-07-25 An attempt to locate cinema alongside philosophy painting geography and travel in terms of a history of modernism The book focuses on a collection of geographical and ethnographic films and photographs amassed by banker Albert Kahn in the 1900s arguably an instance of French modernism

Found Sculpture and Photography from Surrealism to Contemporary Art Julia Kelly, 2017-07-05 Taking its departure point from the 1933 surrealist photographs of involuntary sculptures by Brassa nd Dal Found Sculpture and Photography from Surrealism to Contemporary Art offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial role of photography in framing the everyday This collection of essays questions the nature of sculptural practice looking to forms of production and reproduction that blur the boundaries between things that are made and things that are found One of the book's central themes is the interplay of presence and absence in sculpture as it is highlighted disrupted or multiplied through photography's indexical nature The essays examine the surrealist three dimensional object its relation to and transformation through photographs as well as the enduring legacies of such concerns for the artwork's materiality and temporality in performance and conceptual practices from the 1960s through the present Found Sculpture and Photography sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life
