State Board of Agriculture, 1897 *Places of Refuge* Eric Van Hooydonk, 2020-11-25 The need for specific legal arrangements governing ships in distress and places of refuge is one of the most topical problems in both public and private maritime law The headline grabbing shipping disasters involving the loss of the Erika 1999 and the Prestige 2002 attracted the attention of the IMO the Comit Maritime International the European Union national maritime authorities around the globe and the maritime industry in general Ultimately the impact of pollution on local economies and the environment was enough to arouse the concern of a broad swathe of public opinion Places of Refuge provides clarity on The scope of the right of access The conditions under which coastal authorities may deny access The liability of authorities granting or denying access The basis and the conditions of financial securities The obligation to establish contingency plans **Finding the Best Place for Prosecution** Gert Vermeulen, Tom Vander Beken, 2002 In order to fight international crime most EU Member States have systematically extended their territorial and extra territorial claims of jurisdiction As a consequence of this evolution an increasing number of international crimes can be prosecuted in more than one State Therefore the question of whether a crime will be prosecuted has become subordinate to the question of which State is in the best position to prosecute This phenomenon is of major importance since conflicts of jurisdiction have significant consequences for the States and the individuals involved Not only criminal law but also criminal procedure law differs from country to country The change of forum for an international case can therefore be detrimental both to the offender s and the victim s legal status Article 31 d of the Treaty on European Union shows that the European Union shares this concern In order to contribute to the enhancement of an area of freedom security and justice within the European Union this article prescribes that conflicts of

jurisdiction between Member States should be prevented This book provides a new analysis of the question of how conflicts of jurisdiction can be prevented or solved and what the European Union's policy could be in that respect A pragmatic realistic and short term solution is proposed paying specific attention to the rights of all parties involved Escape to Gwrych Castle Andrew Hesketh, 2023-06-22 In 2020 and 2021 at the height of the Covid pandemic Gwrych Castle was familiar to the British public as the setting of I m A Celebrity Get Me Out Of Here Lesser known is that at the beginning of the Second World War this once grand country house in North Wales became home to around two hundred Jewish refugee children who had been rescued from Europe on the Kindertransport Under trying conditions while the families they had been separated from faced the gravest of dangers these children and their adult guardians established a Hachshara at Gwrych Castle a training centre intended to prepare them for the dream of establishing a Jewish homeland in Palestine Eretz Yisrael where they hoped one day to be reunited with the families they left behind In this fascinating debut historian Andrew Hesketh tells the story of these refugees and the community they built shining a light on a chapter of Jewish history that deserves to be far more widely known He recounts moving moments of friendship respect tension and humour as the new arrivals and local residents came to know each other while the shadows of war loomed ever closer and the Hachshara project found itself facing an uncertain future The Chapter VII Powers of the United Nations Security Council Erika de Wet, 2004-01-23 This study provides a comprehensive analysis of the questions pertaining to the powers of the Security Council under Chapter VII of the Charter of the United Nations In doing so it departs from the premise that an analysis of the limitations to the powers of the Security Council and an analysis of judicial review of such limitations by the ICJ respectively are inter dependent On the one hand judicial review would only become relevant if and to the extent that the powers granted to the Security Council under Chapter VII of the Charter are subject to justiciable limitations On the other hand the relevance of any limitation to the powers of the Security Council would remain limited if it could not be enforced by judicial review This inter dependence is reflected by the fact that Chapters 2 and 3 focus on judicial review in advisory and contentious proceedings respectively whereas Chapters 4 to 9 examine the limits to the powers of the Security Council The concluding chapter subsequently illuminates how the respective limits to the Security Council's enforcement powers could be enforced by judicial review It also explores an alternative mode of review of binding Security Council decisions that could complement judicial review by the ICJ notably the right of states to reject illegal Security Council decisions as a right of last resort The space and attention devoted to the limits to the Security Council's enforcement powers reflects the second aim of this study namely to provide new direction to this aspect of the debate on the Security Council's powers under Chapter VII of the Charter It does so by paying particular attention to the role of human rights norms in limiting the type of enforcement measures that the Security Council can resort to in order to maintain or restore international peace and security

Netherlands Yearbook of International Law 2019 Otto Spijkers, Wouter G. Werner, Ramses A. Wessel, 2020-12-02 This

volume of the Netherlands Yearbook of International Law NYIL is the fiftieth in the Series which means that the NYIL has now been with us for half a century The editors decided not to let this moment go by unnoticed but to devote this year's edition to an analysis of the phenomenon of yearbooks in international law Once the decision was made that this would be the subject of this year's NYIL the editors asked themselves a number of questions For instance Not many academic disciplines have yearbooks so what is the reason we do What is the added value of having a yearbook alongside the abundance of international law journals regular monographs and edited volumes that are published on a yearly basis Does the existence of yearbooks tell us something about who we are or who we think we are or what we have to contribute to the world These questions will be addressed both in a general and in a specific sense whereby a number of yearbooks published all over the world will be looked at in further detail The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic area of public international law

Regional Organisations and the Development of Collective Security Ademola Abass, 2004-12 This book examines the development of collective security by regional organisations particularly after the Cold War It analyses the various constitutional developments that have occurred within regional arrangements such as ECOWAS African Union SADC OAS and NATO and critically analyses how these developments have propelled regional organisations to depart from the normative framework of regional arrangement contained in Chapter VIII of the UN Charter Through a comprehensive examination of practice the book evaluates the impact of regional organisations newly asserted powers to authorise enforcement action and determine when situations within member states warrant their intervention It inquires into the legal justifications for these developments both from within the UN Charter and regional treaties and practice and asks whether consensual intervention that is the use of force by regional organisations on the basis of their members consent contravenes or constitutes an exception to the prohibition of the use or threat of force under Article 2 4 of the Charter The book also analyses the regime of complementarity between the UN and regional organisations
