Saga And Philosophy And Other Ebays

Scott C. Dulebohn

Saga And Philosophy And Other Ebays:

The Compleat Calhoon Fender Tucker,2007-12 This 420 page chunk of paper contains the complete works of Fender Tucker including both of his books TALES FROM THE TOWER and WEED WOMEN AND SONG The first half is fiction and the second half reads like fiction but it s all true according to his memory of life as it was in Farmington NM in the 50s and 60s The book also contains the lyrics to every song he wrote back in the days he misspent as a guitar picking slugabed Ed Gorman wrote that he enjoyed thumbing through the many short memoirs which add up to a sort of autobiography Does someone like Fender Tucker deserve an autobiography Read THE COMPLEAT CALHOON and see for yourself HMM

Assembling the Dinosaur Lukas Rieppel,2023-01-18 A lively account of the dinosaur s role in Gilded Age America examining the connection between business paleontology and museums Although dinosaur fossils were first found in England a series of dramatic discoveries during the late 1800s turned North America into a world center for vertebrate paleontology At the same time the United States emerged as the world s largest industrial economy and creatures like Tyrannosaurus Brontosaurus and Triceratops became emblems of American capitalism Large fierce and spectacular American dinosaurs dominated the popular imagination making front page headlines and appearing in feature films Assembling the Dinosaur follows dinosaur fossils from the field to the museum and into the commercial culture of North America s Gilded Age Business tycoons like Andrew Carnegie and J P Morgan made common cause with vertebrate paleontologists to capitalize on the widespread appeal of dinosaurs using them to project American exceptionalism back into prehistory Learning from the show stopping techniques of P T Barnum museums exhibited dinosaurs to attract entertain and educate the public By assembling the skeletons of dinosaurs into eye catching displays wealthy industrialists sought to cement their own reputations as generous benefactors of science showing that modern capitalism could produce public goods in addition to profits Behind the scenes museums adopted corporate management practices to control the movement of dinosaur bones restricting their circulation to influence their meaning and value in popular culture Tracing the entwined relationship of dinosaurs capitalism and culture during the Gilded Age Lukas Rieppel reveals the outsized role these giant reptiles played during one of the most consequential periods in American history Praise for Assembling the Dinosaur A penetrating study of legitimacy and capitalism in the realm of fossils Verlyn Klinkenborg *The New York Review of Books* A solid entry into the growing body of literature on Gilded Age American paleontology but it is particularly valuable for its contribution to enhancing our understanding of how science and its representation during that period were influenced by and in turn affected society as a whole By incorporating cultural economic and scientific developments Rieppel shines new light on the history of both American paleontology and museum exhibition practice Ilja Nieuwland *Science* **Moral Panics and the Copyright Wars** William Patry,2009-09-03 Metaphors moral panics folk devils Jack Valenti Joseph Schumpeter John

Maynard Keynes predictable irrationality and free market fundamentalism are a few of the topics covered in this lively unflinching examination of the Copyright Wars the pitched battles over new technology business models and most of all consumers In Moral Panics and the Copyright Wars William Patry lays bare how we got to where we are a bloated punitive legal regime that has strayed far from its modest but important roots Patry demonstrates how copyright is a utilitarian government program not a property or moral right As a government program copyright must be regulated and held accountable to ensure it is serving its public purpose Just as Wall Street must serve Main Street neither can copyright be left to a Reaganite magic of the market The way we have come to talk about copyright metaphoric language demonizing everyone involved has led to bad business and bad policy decisions Unless we recognize that the debates over copyright are debates over business models we will never be able to make the correct business and policy decisions A centrist and believer in appropriately balanced copyright laws Patry concludes that calls for strong copyright laws just like calls for weak copyright laws miss the point entirely the only laws we need are effective laws laws that further the purpose of encouraging the creation of new works and learning Our current regime unfortunately creates too many bad incentives leading to bad conduct Just as President Obama has called for re tooling and re imagining the auto industry Patry calls for a remaking of our copyright laws so that they may once again be respected
