Saga Into The 20th Century:

The Routledge Research Companion to the Medieval Icelandic Sagas Ármann Jakobsson, Sverrir Jakobsson, 2017-02-17

The last fifty years have seen a significant change in the focus of saga studies from a preoccupation with origins and development to a renewed interest in other topics such as the nature of the sagas and their value as sources to medieval ideologies and mentalities. The Routledge Research Companion to the Medieval Icelandic Sagas presents a detailed interdisciplinary examination of saga scholarship over the last fifty years, sometimes juxtaposing it with earlier views and examining the sagas both as works of art and as source materials. This volume will be of interest to Old Norse and medieval Scandinavian scholars and accessible to medievalists in general. **In Search of the Culprit** Lukas Rösli, Stefanie Gropper, 2021-12-06

Despite various poststructuralist rejections of the idea of a singular author genius, the question of a textual archetype that can be assigned to a named author is still a common scholarly phantasm. The Romantic idea that an author created a text or even a work autonomously is transferred even to pre-modern literature today. This ignores the fact that the transmission of medieval and early modern literature creates variances that could not be justified by means of singular authorships. The present volume offers new theoretical approaches from English, German, and Scandinavian studies to provide a historically more adequate approach to the question of authorship in premodern literary cultures. Authorship is no longer equated with an extra-textual entity but is instead considered a narratological, inner, and intertextual function that can be recognized in the retrospectively established beginnings of literature as well as in the medial transformation of texts during the early days of printing. The volume is aimed at interested scholars of all philologies, especially those dealing with the Middle Ages or Early Modern Period. *The Cambridge Introduction to the Old Norse-Icelandic Saga* Margaret Clunies Ross, 2010-10-28. The medieval Norse-Icelandic saga is one of the most important European vernacular literary genres of the Middle Ages. This Introduction to the saga genre outlines its origins and development, its literary character, its material existence in manuscripts and printed editions, and its changing reception from the Middle Ages to the present time. Its multiple sub-genres, including family sagas, mythical heroic sagas, and sagas of knights, are described and discussed in detail, and the world of medieval Icelanders is powerfully evoked. The first general study of the Old Norse-Icelandic saga to be written in English for some decades, the Introduction is based on up-to-date scholarship and engages with current debates in the field. With suggestions for further reading, detailed information about the Icelandic literary canon, and a map of medieval Iceland, this book is aimed at students of medieval literature and assumes no prior knowledge of Scandinavian languages.

The Oxford Handbook of the Pentateuch Joel S. Baden, Jeffrey Stackert, 2021. Features contributions from leading academics to provide students and scholars with a comprehensive survey of the field. Considers key topics and issues in contemporary pentateuchal scholarship and examines the Pentateuch in its social world. Investigates the history and formation of the text and its early reception. Book jacket. Medieval Scandinavia Phillip Pulsiano, 1993. With full-page maps.
