Sagebrush and Spurs Eric Tripp,1992-10-01 American Western Stephen McVeigh,2007-02-14 This wide ranging book illuminates the importance of the Western in American history It explores the interconnections between the Western in both literature and film and the United States in the 20th century Structured chronologically the book traces the evolution of the Western as a uniquely American form The author argues that America s frontier past was quickly transformed into a set of symbols and myths an American meta narrative that came to underpin much of the American century He details how and why this process occurred the form and function of Western myths and symbols the evolution of this mythology and its subversions and reconstructions throughout 20th century American history The book engages with the full range of historical literary and cinematic perspectives and texts from the founding Western histories of Theodore Roosevelt and Frederick Jackson Turner to the New Western history of Patricia Nelson Limerick and Richard White **The Sagebrush Anthology** Lawrence I. Berkove,2006 Sixty eight selections representing writers who spent their creative years in Nevada from the 1860s to the early twentieth century and have become known as the Sagebrush School Features Mark Twain Dan De Quille Sam Davis Joe Goodman and Rollin Daggett and lesser known writers Arthur McEwen Fred Hart and others Provided by publisher The Sagebrush Trail Richard Aquila,2015-04-16 The Sagebrush Trail is a history of Western movies but also a history of twentieth century America Richard Aquila s fast paced narrative covers both the silent and sound eras and includes classic westerns such as Stagecoach A Fistful of Dollars and Unforgiven as well as B Westerns that starred film cowboys like Tom Mix Gene Autry and Hopalong Cassidy The book is divided into three parts Part 1 traces the birth and growth of Westerns from 1900 through the end of World War II Part 2 focuses on a transitional period in Western movie history during the two decades following World War II Finally part 3 shows how Western movies reflected the rapid political social and cultural changes that transformed America in the 1960s and the last decades of the twentieth century The Sagebrush Trail explains how Westerns evolved throughout the twentieth century in response to changing times and it provides new evidence and fresh interpretations about both Westerns and American history These films offer perspectives on the past that historians might otherwise miss They reveal how Americans reacted to political and social movements war and cultural change The result is the definitive story of Western movies which contributes to our understanding of not just movie history but also the mythic West and American history Because of its subject matter and unique approach that blends movies and history The Sagebrush Trail should appeal to anyone interested in Western movies pop culture the American West and recent American history and culture The mythic West beckons but eludes Yet glimpses of its utopian potential can always be found even if just for a few hours in the realm of Western movies There on the silver screen the mythic West continues to ride tall in the saddle along a sagebrush trail that reveals valuable clues about American life and thought **Western Classics, Historical Novels & Tales of the Old West by B.
