The book presents Propp s key insight into the formulaic structure of Russian wonder tales and less schematically than in Morphology though in abbreviated form and it devotes one chapter to each of the main types of Russian folktales the wonder tale the novellistic or everyday tale the animal tale and the cumulative tale Even Propp s bibliography included here gives useful insight into the sources accessible to and used by Soviet scholars in the third quarter of the twentieth century Propp s scholarly authority and his human warmth both emerge from this well balanced and carefully structured series of lectures An accessible introduction to the Russian folktale it will serve readers interested in folklore and fairy tale studies in addition to Russian history and cultural studies The National Union Catalog, Pre-1956 Imprints, 1977 Bulletin of Books in the Various

Pseudo-Apollodorus Johanna Astrid Michels,2022-11-21 The Bibliotheca of Pseudo Apollodorus perhaps the best known mythographic text stands out for its comprehensive aim and state of preservation The handbook has regularly been disregarded as a repository of standard myths or as a primary witness to archaic stories a reductive view at once underestimating and romanticizing the merits of the Bibliotheca This monograph unlocks the Bibliotheca as a literary work in its own right by offering the first systematic commentary on an essential selection the Cretan and Theban myths in Bibl III 1 56 and by presenting an in depth analysis of the text In so doing this volume closes a gap in current research from which a philological commentary is entirely missing The main part of the study focuses on various aspects of composition and organization by addressing structuring principles narratorial interventions and the author's method and sources It lays to
